# Maintenance Made Easy.

## Filter Paks

Regular maintenance - air and fuel filter replacement, engine oil and filter changes - keep your machine running at peak performance. It also helps to prolong the life of critical drivetrain components and engine parts.

That's why we've made it easier than ever to get most of the routine maintenance parts you need, all in one box. John Deere Filter Paks. Most kits contain an oil filter, air filter, fuel filter and hydraulic filter specifically engineered for your exact machine. And don't forget the oil! We recommend John Deere Plus-50™ II for premium, all-season performance.

Routine maintenance just got easier. See your John Deere dealer today and ask about a Filter Pak for your machine.

# Don't Risk It.

Off-brand hydraulic fluids are not **Hy-Gard™**. Hy-Gard is formulated by John Deere engineers to perform well beyond even our own JDM J20 standards. Features like friction modifiers and viscosity improvers ensure premium performance and gear-wear protection in all off-road working conditions. *Don't Risk It with anything less.*

Shop the  
**John Deere Collection**  
for Truly Unique Gifts

'Tis the season for John Deere gifts—and they're easy to find.  
Shop your local John Deere dealer for unique gifts that will  
brighten everyone's season.

**JOHN DEERE**

# John Deere doesn't just stop at parts... we've got you covered!

Whether you're out in the field, hard at work in the shop, or hanging out in the house, you can count on the John Deere team to keep you stocked, locked, and ready, all year long.

From our friendly dealerships to our comprehensive catalogs, you'll find a complete lineup of quality gear. We carry everything you need from maintenance products to equipment attachments, clothing, tools, toys, and more.

So if you're preparing for next season or just looking for a unique gift idea, remember the John Deere team. We're here to help you get the job done right.

## No-Payments/No-Interest Financing Terms:

<sup>^</sup>Offer valid November 1, 2017–May 31, 2018. Subject to Multi-Use Account approval and John Deere dealer participation. Program options are available for agricultural and commercial Multi-Use Account holders only. Minimum purchase may be required. After promotional period, interest charges will begin to accrue at the standard Multi-Use Account rate. See your dealer for complete details and other finance options. Multi-Use Account is a service of John Deere Financial, f.s.b.

## Make your peace of mind last.

When you buy John Deere equipment, you get one of the best warranties in the business. With the PowerGard™ Protection Plan Residential, add up to four years of coverage beyond the normal warranty term on all utility vehicles, riding lawn equipment, zero-turn radius mowers, and compact and utility tractors. You'll get extended protection with *\$0 deductible and no out-of-pocket costs on covered repairs*. Plus, transportation for factory warranty and extended protection repairs is covered!

If you decide to sell or trade your equipment before the end of the coverage term, the remaining coverage is fully transferable to the next owner. Lower cost, low deductible Powertrain and Engine Protection Plans are also available.

Call or stop by today so we can customize your peace of mind plan.

[JohnDeere.com/PPPR](https://www.johndeere.com/pppr)

# Nothing Like Doing It Yourself

When your equipment is in top condition, putting it to use can be a pleasure. John Deere Home Maintenance Kits contain almost everything you need to tune up your machine in one convenient package. Available for most John Deere lawn tractors. Also compatible with other manufacturers' equipment with compatible engines. See your owner's manual for suggested routine maintenance.

Find your Home Maintenance Kit at  
[JohnDeere.com/HMK](http://JohnDeere.com/HMK) and order online at [JDParts.com](http://JDParts.com)

## Tune Up and Head Out

No need to take your machine to the shop for a tune-up. Our Home Maintenance Kits make it easy to tune up your lawn tractor or Gator™ by providing almost everything you need in one convenient package:

- 2 quarts oil
- 1 oil filter
- 1 air filter
- 1 fuel filter
- Air precleaner
- Spark plugs

Check out some of our kits below, and if you don't see your machine listed, don't worry. There are many other kits available. See us to get the appropriate kit for your machine.

NUMBER	APPLICATION	LIST	NOW
AM145350	X300 and X500 Select Series Tractors	\$116.16	<b>\$104.49</b>

## John Deere Fuel-Protect Gasoline Stabilizer

Blended fuel attracts water from the air, which causes corrosion to fuel tanks, fuel lines, carburetors, and injectors. John Deere Fuel-Protect contains double the corrosion preventer to help fight these damaging effects. Pumped gasoline starts to degrade immediately, causing varnish deposits to build in engines. This results in starting problems, poor performance, and reduced engine life. Adding John Deere Fuel-Protect keeps fuel fresh for 12 months, more than doubling the storage life of fresh gasoline. John Deere Fuel-Protect also eliminates the need to drain fuel prior to storage.

NUMBER	DESCRIPTION	LIST
TY27534	Fuel-Protect for gasoline, 8 oz.	\$ 4.49
TY27535	Fuel-Protect for gasoline, 32 oz.	\$12.99

### Heavy-Duty Brush Guard

Keep your tractor free from scratches and scrapes with our front-end brush guard. With its welded construction made of large-diameter tubing and thick steel plates, it provides superior protection for the front grille, lights, and hood.

# John Deere 30–60 Series Row Crop Tractor Parts

If you own a classic John Deere Sound-Gard® body tractor, we have the best selection of parts keep your workhorse running its best. If you’re looking for value at a lower replacement cost, ask about our extensive offering of A&I Products. If you want the genuine John Deere quality, but at a savings, look to John Deere Reman. John Deere Reman parts are not rebuilt or reconditioned—they are inspected, tested, and remanufactured to the original performance criteria. If you won’t settle for anything but the best, go with John Deere OEM replacement parts. No other parts can surpass the fit, performance, and longevity of the original equipment replacement parts.

## Hydraulic Quick Couplers

Hydraulic quick disconnect couplers are available in both standard and deluxe versions. The standard couplers allow coupling and uncoupling of hydraulics with pressure from the implement side. The deluxe couplers allow for coupling and uncoupling of hydraulics with pressure from the tractor and/or implement side.

## Brakes

Due to growing demands, today's braking systems are getting more and more complex. Especially important requirements are:

- Reliable performance at all times
- Highest braking comfort without irritating noise
- Constant braking effect and good modulation
- Corrosion resistance in various environmental conditions

Genuine John Deere brakes go through rigorous testing to meet specifications for friction requirements and durability.

## Step Kits

It's easy to get on and off your "everyday" John Deere tractor with this three-position, adjustable step kit. Bolts securely to the tractor frame and battery box in just 30 minutes. Features wide steps with serrated-tread design. Compatible with most loaders, saddle tanks, and other tractor-mounted equipment. Also available are right-hand step kits that fit 8020 up to 8R series tractors. These kits include steps and handrail, making it convenient to access the right-hand side of the tractor cab.

## Canopy

Protect yourself from extreme weather conditions throughout the year with a canopy from John Deere.

NUMBER	APPLICATION	LIST	NOW
LP64809	Fits 1E, 1R, 2R, 2210, 2305, 2520, 4010, 4100, 4110, and 4115 Series Tractors	\$ 463.93	
LVB25334	Standard canopy fits 3E, 3R, 4M, 4R, 5D, 5E, 5M, 3320, 3520, 3720, 4105, 4320, 4520, 4720, 5003, 5020, and 5025 Series Tractors	\$ 476.30	\$ <b>438.19</b>
LVB25785	Deluxe canopy fits 5D, 5E, 5M, 5003, 5025, 5105, 5205, and 5020 Series Tractors	\$ 828.30	\$ <b>761.99</b>
AR201256	Fits 6000, 6010, 6030, 6015, 6003, 6005, 7020, and 7030 Series Open Station	\$1,589.50	\$ <b>1,462.29</b>

Additional Mounting Hardware might be required. Ask your dealer about the proper mounting hardware for your machine.

## Metal Canopy for Compact Tractors

Protect your compact tractor from the elements with a new metal canopy. Manufactured with a powder-coated finish—and insulated to reduce noise, vibration and heat transfer. The durable 47" x 58" top offers a universal fit and accommodates 18 degrees of angle fore or aft.

NUMBER	DESCRIPTION	LIST
A-C3581G	Green Metal Canopy Kit (hardware included)	\$328.57

Each kit includes all necessary universal mounting brackets and hardware to accommodate Roll Over Protection Systems (ROPS) that are between 27"–40" wide. Also available in Red, Blue, or Orange. Ask us for details.

## iMatch Quick Hitch

One of the greatest operator concerns involves difficulty in attaching tractor implements. John Deere has addressed this issue with the iMatch Quick Hitch. The iMatch Quick-Hitch provides easy hookup and a guaranteed fit for all Category 1 implements designed to meet the ASAE Category 1 Standard S278.6 for quick-attach hitches.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
LVB25976	iMatch Quick Hitch Category I with adjustable top hook. Includes one set of Bushings (LVU15507).	Category 1, 3-pt. Hitch	\$365.20	\$ <b>335.99</b>
LVU12858	One iMatch Quick Hitch Lower Adapter Bushing (Cat. III to Cat. I) – Length 33mm (1.3-in.).		\$ 22.81	\$ <b>20.99</b>
LVU15507	One iMatch Quick Hitch Lower Adapter Bushing (Cat. III to Cat. I) – Length 50mm (1.97-in.).		\$ 29.94	\$ <b>27.49</b>

## Double-Lok™ Hitch Pins

# Now you can go toe-to-toe with old man winter.

## *Introducing the Mauser Deluxe Drop-on Cab for the 1025R*

Already one of the most rugged and versatile in its category, the 1025R subcompact tractor can now take on blustery, snowy conditions with the simple addition of a durable, corrosion-resistant Mauser Deluxe Drop-on Cab\* (LP68087) from John Deere.

Offering full glass doors and dual exterior mirrors for maximum visibility, the Mauser is loaded with operator-friendly features including a windshield wiper/washer system, heater, fan, electronic switch console, sun visor, interior light, and coat hook. Better yet, the doors are removable, and the front and rear windows extend nearly 90 degrees for warm-weather operations.

**See us before the snow falls to learn more.**

### OPTIONAL CAB KITS

- LP68115 Rear Wiper Kit
- LP68116 Beacon Light Kit
- LP68117 LED Rear Work Light Kit (pre-wired)
- LP68118 License Plate Kit (pre-wired)
- LP68119 Retrofit Kit
- LP68120 Stereo Prep Kit

\* A retrofit kit (LP68119) is required for 1025R models manufactured prior to the 2016 calendar year.

## with John Deere Loader and Bucket Attachments

Here's a sampling of the more than 50 John Deere Buckets designed to meet your digging, scraping, or loading needs:

**1** General-Purpose Bucket

**2** High-Volume Bucket

**3** Material Bucket

**4** Heavy-Duty Bucket

**5** Heavy-Duty Bucket w/ Grapple Brackets

**6** Grapple Bucket

**1** General-Purpose Bucket

Compatible with digging teeth and replaceable cutting edges. Durable bucket with full-length side cutting edges, additional bottom skid plates, and a double-reinforced top section.

**2** High-Volume Bucket

Designed for use with lightweight material such as mulch, feed, silage, snow, and chicken manure.

**3** Material Bucket

Available to match tractor-loader applications. Can be used for loading dirt, gravel, feed, and light materials as well as scraping, digging, and other general-purpose work.

**4** Heavy-Duty Bucket

Recommended for heavier-use applications, such as commercial operations. Cutting edge has pre-drilled holes for replaceable cutting edge.

**5** Heavy-Duty Bucket w/ Grapple Brackets

Same as Heavy-Duty Bucket and includes brackets for grapple attachment.

**6** Grapple Bucket

Ideal for handling full loads of silage, manure, and bales weighing up to 1,000 lbs. (453 kg).

Talk to us today about how attachments can **Add More** to your loader experience.

### Digging Teeth

Can be added to Heavy-Duty Bucket for easier digging in hard ground or breaking loose hard-packed materials such as manure or silage. Not compatible with replaceable cutting edges.

BW15763

### Tooth Bar

Tooth bars help penetrate hard-packed material. Attach to bucket by sliding over the cutting edge. Retained by two bolts, one in each end plate of bucket.

BW15227

BW15589

BW15228

### 5-Tine Grapple

For high-performance operators who need increased durability and load-carrying capacity. Equipped with twin cylinders for superior clamping force. Compatible with John Deere 600/700/800-style and global-style buckets with grapple brackets shown installed on bucket.

BW16161

# Ballasting for Loader Work

Ballast is counterweight that is used to improve stability and performance. In terms of tractors, ballast is weight that is added to the front or rear of the tractor to optimize the load distribution. As a rule of thumb, a 50/50 rear/front weight ratio should be maintained for loader work. When doing loader work, rear ballast provides a counterweight for material in the loader bucket that maximizes overall stability and productivity by keeping all four wheels on the ground. This helps keep the most powerful part of the tractor's drive system, the rear wheels, planted firmly on the ground.

In addition to improving the tractor's performance, proper rear ballast will also maximize the life of the front wheel drive axle, as well as other drive train components. For tractors equipped with loaders, signs of improper rear ballast may include premature tread wear on the rear tires, leaking front axle or pinion seals, and premature failure of drive line and front axle components.

A ballast box loaded with sand, concrete, Portland Cement or other material can be mounted to the 3-point hitch for quick and easy ballast when needed. A 3-point-hitch-mounted implement can also be used for ballast, but it must meet the specified weight requirement. A 23-cm (9-in.) high extension can be added to the ballast box for even greater capacity. A bushing kit is required for the ballast box to be used with the iMatch™ Quick-Hitch.

NUMBER	DESCRIPTION	LIST	NOW
BW15073	Ballast Box for Category 1 Hitch*	\$ 288.20	\$ 265.09

## Introducing Electronics Repair & Return from John Deere

Skilled technicians. Quick turnaround. Competitive pricing. It's **what you need** when electronics go on the fritz and what you get from Electronics Repair & Return by John Deere Reman.

Now available, this convenient service offers you a **true John Deere solution** for the OEM repair of some of your most important electronic components.\* And better yet, it's all backed by a valuable 12-month Limited Warranty\*\* that's sure to please.

Turn to John Deere for electronics repair and be rewarded with **fast, reliable service** to get your machine up to speed again.

JOHN DEERE

Visit your dealer  
today to learn more.

\* The John Deere Reman Electronic Repair & Return program services the following products at this time: StarFire™ 3000 Receiver and GreenStar™ 1800, 2600, and 2630 Displays.

\*\* The John Deere Reman Electronic Repair & Return 12-month Limited Warranty covers specific repairs on each component as noted on the Service Repair Card received with repaired unit. John Deere Reman will repair or replace unit during the applicable warranty period but is not responsible for any labor costs associated with the removal and installation of the components.

JohnDeere.com/Reman

## Reman Rotating Electrical Components

The John Deere Reman line of starters, alternators, generators, and AC compressor products is designed in response to demands to minimize downtime and create a low-cost repair alternative. All rotating electrical components are built and tested to provide you with the same John Deere quality products you've come to rely on. Voltage and amperage are tested at idle and full load. Rotors and stators are tested to meet John Deere specifications.

### Key Benefits of John Deere Remanufactured Rotating Electrical Components:

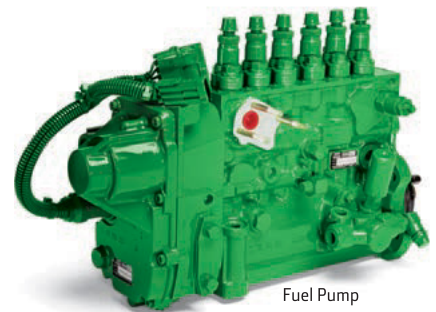

- Reduces downtime by providing an exchange alternator or generator
- Provides a cost-competitive product compared to outside supplier rebuilding options
- Saves 30–35% compared to a new component
- Provides a one-year, unlimited-hours parts, labor, and consequential damage warranty (when dealer-installed)
- Delivers a product built to John Deere quality specifications using only genuine OEM parts and approved remanufacturing processes

## Remanufactured Fuel-Injection Pumps and Injectors

**Like-new performance at a fraction of the cost.** Fuel components are manufactured to John Deere specifications using only genuine John Deere parts and come with a one-year, unlimited-hours warranty on all parts and labor\* when installed by an authorized John Deere dealer.

# WHAT ARE WORN PLANTER PARTS COSTING YOU?

## PRIMARY AGRONOMIC FACTORS AFFECTED BY PLANTING THAT IMPACT YIELD

### CORRECT POPULATION

2-4 bu/acre\*

### UNIFORM SPACING

2-4 bu/acre\*

### UNIFORM EMERGENCE

10-18 bu/acre\*

### PLANTING WINDOW

4-10 bu/acre\*

## PERFORMANCE DRIVERS OF EACH OF THE ABOVE AGRONOMIC THEMES

- POPULATION
- VACUUM LEVEL
- SKIPS/MULTIPLES
- DOUBLE ELIM. SETTINGS

- SINGULATION
- RIDE QUALITY

- DEPTH
- SEED TO SOIL CONTACT
- RESIDUE MGNT.

- PLANTING DAYS

Think your planter can make it one more season without an inspection? You might be surprised just how much worn parts can impact your bottom line. Your John Deere Dealer can test your meters to ensure you maximize your planter's performance ... and your farm's yield potential. Correct population, uniform spacing, and emergence can impact yield potential in corn.

Putting pencil to paper, let's look at a hypothetical example based on 2,000 acres of corn with a 16-row 1770NT MaxEmerge™ XP Planter assuming \$3.50 market price.

Some of the most commonly replaced meter wear parts that can negatively impact your planter's ability to deliver the correct population or uniform spacing within a vacuum meter include knockout wheels, seed meter brushes, and vacuum meter seals. As the study above suggests, correct population and spacing accuracy can ultimately impact your yield potential by up to 4 bu/acre\*. If any or all of these 3 meter parts are worn or damaged, the below table illustrates the associated yield and revenue that may be at risk.

### REVENUE AT RISK

4 bu/a x \$3.50 = \$14 per acre in potential revenue

For a 2,000 acre corn operation totals \$28,000

### COSTS TO INSPECT/REPAIR PLANTER METERS

Meter Inspection, Parts, and Labor to replace Knockout Wheels, Seed Meter brushes, and Vacuum meter seals

\$83 per row x 16 rows = \$1,328

### BOTTOM LINE IMPACT

**\$26,672 Net Revenue**

Don't let worn parts wear on your bottom line.

Schedule your John Deere Certified Meter Inspection today!

# Unearth The Unimaginable

**Like-new performance. Maximum yield potential.  
Now possible with retrofit solutions.**

## **ExactEmerge™**

Plant accurately at speeds up to 10 mph (16 km/h).

## **MaxEmerge™ 5e**

Offers 56V electric drive motor and straight tube seed delivery.

## **Pneumatic Closing Wheels**

Adjust settings within seconds from inside the cab.

## **Easy Adjust Row Cleaners**

Conform entire planter to variable field conditions in a matter of seconds.

## **Individual Row Hydraulic Downforce**

Has capacity to regulate 5 times per second and adjust 100 lbs. (45.4 kg) per second.

H135861	Seal		\$ 14.88	<b>\$ 13.39</b>

# Gauge Wheel Assemblies, Gauge Wheel Arms and Bushings

The Select Series features a gauge wheel assembly and a Reduced Inner Profile (RIP) tire. The gauge wheel provides excellent depth control in most soil conditions. It works with the Tru-Vee™ opener blades to form a well-defined seed furrow. It firms soil on seed-trench edges and provides flotation for seedbed openers in loose soils. (The RIP\* tire reduces sidewall compaction in heavy, wet, no-till conditions.) Select Series gauge wheel assemblies and RIP tires are designed for MaxEmerge XP row units only.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
AA35392	Gauge wheel assembly, metal	ME and ME2	\$75.69	<b>\$68.09</b>
AA41359	Wheel, gauge wheel, plastic		\$90.66	<b>\$81.59</b>
A56565	Wheel, outer, nylon		\$27.04	<b>\$24.29</b>
A25915	Bearing, assembly, sleeve		\$ 2.06	<b>\$ 1.89</b>
A84062	Tire, gauge wheel, 4 1/2-in. x 16-in.		\$37.94	<b>\$34.09</b>
A49918	Tire, gauge wheel		\$31.81	<b>\$28.59</b>

A92818	Gauge wheel arm pivot bushing		\$13.70	<b>\$12.29</b>

AA67083 RIP gauge-wheel assembly includes gauge wheel and gauge-wheel tire.  
 \*RIP tires are not recommended for light sandy soils or conventionally tilled soils.

# Spoke Gauge Wheel

For operators who plant and seed in wet soil conditions, the John Deere Spoke Gauge Wheel allows mud and debris to flow through the wheel to continue providing superior depth performance. This wheel features serviceable stamped inner and outer rims. The wheel has cast spokes and bearing hubs for added strength. This allows for smaller spokes, creating more open space for mud and debris to flow as compared with other wheels on the market.

NUMBER	DESCRIPTION	LIST	NOW
AA86055	Complete Spoke Gauge Wheel Assembly	\$143.00	<b>\$128.69</b>

# Plan ahead for what's behind. Inspect today.

Get peak performance from your **round baler** by scheduling an inspection with John Deere. Our certified technicians will have your equipment running like new by thoroughly examining all aspects of your machinery, including:

- Drives
- Monitor/Electrical
- Pickup
- Belts
- Wrapping System
- Hydraulics
- Rolls
- Safety

Prepare your round baler now for harvest season.  
*(mower-conditioner inspections also available for haying season)*

Contact us today to set up an appointment.

## DiamondTough™ Baler Belts

### Work harder, smarter, longer

John Deere DiamondTough baler belts are carefully crafted to:

- Handle heavy shock loads
- Maintain consistent belt length
- Offer improved reliability and belt life, minimizing downtime
- Be more puncture- and tear-resistant than other belts
- Warn you when it's time to replace them

#### Better inside

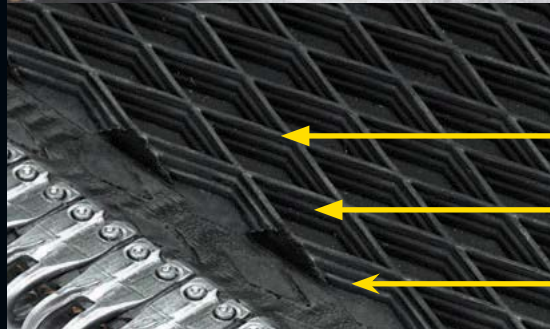

Patented triple-weave design incorporates nylon, polyester, and monofilament cords. DiamondTough belts are more puncture- and tear-resistant, improving belt life and reducing downtime.

#### Better outside

DiamondTough baler belt's self-cleaning, three-step tread design offers benefits at every layer, including wear indicators.

- **Top step:** Provides excellent stem contact during initial wear stages.
- **Middle step:** When the top step is worn, bale starting may be adversely affected in certain crops.
- **Bottom step:** When the top two steps are worn, replace the belt.

Ask us for the correct fit for your round baler today.

# Indoor protection, outdoors. B-Wrap®.

Now the great outdoors is your high-quality storage facility. B-Wrap from John Deere cuts storage loss down to almost nothing and is compatible with both premium and standard balers. Talk to your John Deere dealer today.

## FREE B-Wrap Kit

Outfit your John Deere Round baler for B-Wrap with a FREE B-Wrap kit. Buy two 4-foot rolls of B-Wrap or three 5-foot rolls of B-Wrap and we'll mail you a FREE B-Wrap Kit—a \$424 value. (One kit per customer. Dealer installation required. Installation charge not included in offer. Can't combine this coupon with any other offer. Free kit offer not available for Premium balers.)

Name \_\_\_\_\_ Baler Model \_\_\_\_\_ Serial # \_\_\_\_\_

Address \_\_\_\_\_ Zip \_\_\_\_\_

E-Mail (required for package tracking) : \_\_\_\_\_

Act now! Limited availability. Kits may be back ordered. Offer limited to first 500 FREE kits. See your dealer for more information. Dealer must attach B-Wrap proof of purchase to this coupon. See your John Deere dealer to confirm that a B-Wrap kit is both compatible and needed on your round baler.

**\*Note to John Deere dealer: Staple this completed form to a copy of the customer receipt showing required B-Wrap purchase and send to Tama USA for processing. B-Wrap Kit will be mailed to the customer for dealer installation.**

## GoBale app

A must-have app for 9 Series Round Balers, GoBale provides a quick-reference overview of key adjustments, maintenance, and procedures—and lets you record/save observations for future reference.

Download the GoBale app on the [Apple App Store](#) or [Google Play Store](#)

## Advanced Hay, Straw, and Silage Tester

This newly advanced Hay, Straw, and Silage Tester is the most efficient probe on the market. The 20" stainless steel probe and tip provides accuracy, versatility, and durability. The SW07305 will measure push force to determine whether it's a high or low density bale, then adjusts the moisture result for more precise accuracy.

### Features:

- Measures 8–72% moisture content
- Temperature range 32°F–185°F (0°C–85°C)
- Automatic Density Compensation
- Choice of hay or straw bales, separate mode for silage
- Memory can store results up to 64 bales with a total of 1,000 savable moisture and temperature readings
- Continuous reading as you probe bale

RowMax and Stalk Rolls\*

# Trigger a chain reaction

Make your cornhead stronger—and last longer—with **RowMax**, a new retrofit solution from John Deere.

Designed exclusively for the 700C/FC cornheads and available as a retrofit for MY12-600C/FC cornheads, RowMax **boosts row unit life by up to 50%** with an advanced gathering chain featuring 12 additional links, two more sprocket teeth, and upgraded solid alloy bushings. In addition, if you replace your worn stalk rolls with opposed or intermeshing stalk rolls, you'll get 25% more wear life thanks to an improved wear coating.

Cover more territory on your farmland—and lower lifetime ownership cost—by upgrading your cornhead with an innovative, RowMax retrofit kit from John Deere.

# Avoid those “Oh-No” moments with a Combine Inspection from John Deere

What's worse than a combine malfunction during harvest season? Not much. That's why you should schedule a comprehensive combine inspection from John Deere soon.

As diagnostic experts, our experienced technicians can remedy potential problem areas on your combine before you trek out to the field. From cab and control system to engine and feederhouse area, you can be confident that your combine will be in tip-top condition after a multi-point inspection.

**Schedule your combine inspection  
with us today.**

## OUR INSPECTIONS INCLUDE “THE WORKS”

A John Deere Expert Inspection covers 180 inspection points including:

- Control System
- Feederhouse Area
- Feed Accelerator (fast)
- Combine (left/right sides)
- Engine Compartment
- Grain Tank Section
- Cab
- Safety

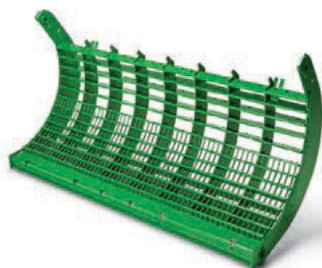

# The Value of Choice

Only your John Deere dealer can offer you the value of choice when it comes to parts needs for your John Deere Combine. Genuine John Deere Parts are engineered and tested for each part's exact application. They are the best choice for performance and reliability. We also offer A&I Products – an economical repair option for your equipment. If you have an earlier model machine or even a mixed fleet, A&I offers an extensive line of combine parts.

# ARE WORN NOZZLES COSTING YOU?

Spray nozzles are some of the smallest and most overlooked pieces of equipment on a sprayer, but they have the greatest effect on accuracy, efficiency, and drift potential. Worn spray nozzles can increase application rates and/or change distribution patterns causing under and over application impacting your bottom line.

## WORN NOZZLE SPRAY PATTERN

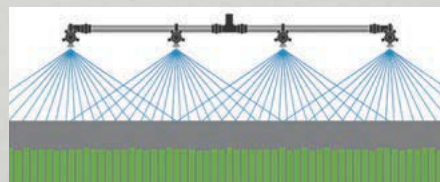

### UNDER APPLICATION

- Reduced yield
- Inadequate weed, pest, or disease control
- Repeated trips over the field

### OVER APPLICATION

- Increased input costs
- Crop damage

## NEW NOZZLE SPRAY PATTERN

# SOLUTIONS FOR YOUR SPRAYING NEEDS

**15% OFF\***

## High Flow

## Straight Stream Ceramic

## Ultra Low-drift

### PRE- AND POST-EMERGE FERTILIZER

### PRE- AND POST-EMERGE HERBICIDE

- 140-degree pattern ensures uniform coverage across the spray boom and pressure range
- Wide spray angle allows for lower spray height to reduce drift

- Six stream pattern minimizes foliar contact and provides uniform coverage
- Stable streams reduce atomization and prevent leaf burn and scorching

- Wide spray angle (120-degree) enables boom to be lowered to further decrease drift and deliver superior coverage
- Precise droplet control to minimize fine driftable droplets without sacrificing coverage

LIST: \$10.07

## GuardianAIR Twin

## 3D

## Low-drift Air

### POST-EMERGE PLANT HEALTH

- Air-induced twin pattern provides more uniform coverage over a wide range
- Penetrates canopies where coverage and reduction of drift potential are important.

- Inclined spray angle designed to be installed alternating forward and backward for 3D coverage
- Tight spray pattern reduces drift potential by up to 50–75%

- Air-induced droplets reduce drift and increase deposition and retention
- Maintains steady exchange between droplet and spray pressure for more uniform coverage

# Lock into a Groundbreaking Deal

Now through April 13, 2018, get **FREE Quick-Change Adapters** with the purchase of a set of **Perma-Loc™ High Productivity** or **Tru-Width™** sweeps.\*

Lock sweeps in place with Quick-Change Adapters from John Deere. Featuring heavy-duty cast adapter and stainless steel locking spring, you can install sweeps rapidly and easily with no tools required.

And right now adapters are **FREE** with the purchase of **High Productivity** sweeps (designed to uphold curved wing shape and width at higher speeds) or **Tru-Width** sweeps (designed to retain full cutting width and point for excellent chemical incorporation and seedbed leveling).

Visit us today to take advantage of this limited-time offer.

[JohnDeere.com/PermaLoc](http://JohnDeere.com/PermaLoc)

High Productivity

Tru-Width

\*Free adapter and spring offer is good on the purchase of a full set of John Deere Perma-Loc High Productivity or Tru-Width sweeps. See your local John Deere dealer for details. Offer good November 1, 2017 through April 13, 2018 only. Offer may be discontinued or modified without notice at any time. Offer cannot be combined with other offers.

**Note to dealer:** Reference Parts Marketing Bulletin for Perma-Loc promotion details and redemption information.

## Tillage Sweeps for All Your Needs

John Deere offers a portfolio of tillage parts to meet your needs and budget. When it comes to sweeps, you can choose the value of the conventional wing design, the width retention of Tru-Width™, or the superior performance of High Productivity sweeps. We can help guide you to the best option for your operation. Stop in today and ask us about genuine John Deere tillage parts.

### Conventional Wing Sweeps

These conventional wing sweeps provide excellent soil mixing and residue retention. The wing ends are clipped for minimum soil side throw. The design provides an excellent option for the lowest cost investment.

NUMBER	SIZE	THICKNESS	SHANK ANGLE	LIST	NOW
Narrow wing, medium crown:					
N239040	4-in.	3/16-in.	55-degree	\$7.55	<b>\$6.79</b>

Good

### Tru-Width Sweeps

Available in both bolt-on and Perma-Loc™ styles, the Tru-Width sweeps help maintain cutting width throughout the life of the sweep. With its wraparound design, Tru-Width sweeps provide even draft and maximum holding power. Compared to the conventional sweeps, Tru-Width sweeps are the choice for growers who require optimal scouring in sticky or wet soil.

## Combination Wrenches

Fully polished or satin-finish nickel-chrome plated to resist rust and corrosion.

- A unique radius-corner design that allows contact with the flats, rather than with the points—providing additional torque strength and minimizing fastener rounding
- Stronger—providing less chance of slipping—ideal for frozen or rusted fasteners
- Hot-drop forged from chrome-vanadium alloy steel—ensuring maximum strength and toughness
- Lifetime warranty

# Protect your most valuable assets with John Deere paint.

You already know farm machinery is your largest investment. So get the most out of it today—and for seasons to come—by protecting it with the best paint in the business.

Only genuine John Deere paint gives you the long-lasting, high-gloss finish that better shields your equipment from UV fading, rust, and corrosion. Or whatever else Mother Nature may throw at you.

Pick up a can now at your local John Deere dealer. Better yet... make it two cans.

Only from your John Deere dealer.

## SOFT BLACK is Back

Keep your tillage equipment corrosion-free throughout the dormant season with Soft Black protectant from John Deere. Our non-clog formula applies easier and lasts longer—until it's time to get back into the soil.

New and Improved

# You Collect, We Protect

You can't put a price on safety. That's why John Deere security safes are truly priceless. Each has a lifetime or replacement warranty against break-in, attempted break-in, and fire damage. And they're beautiful enough to display anywhere in your home.

And remember, relax with a John Deere safe—you're protected.

## INDUSTRY'S BEST LIFETIME WARRANTY

FREE REPLACEMENT & REPAIR ON FIRE OR BREAK-IN

### Value Series Safe

John Deere's Value Series safes are engineered to defend valuables better than other entry-level safes on the market.

- 30-minute fire protection
- Electronic Lock
- 10 total locking door bars
- Dual flex interior allows for both shelf storage and/or guns
- Made in the USA

#### **A** VJ24-GTT

\* 24 long-gun capacity

# John Deere Biometric Safes

Secure your valuables or handgun with a John Deere Biometric Safe. The JDX smart safes allow for quick and secure access with only a swipe of your finger. This is the most reliable biometric entry system available, with supreme accuracy and the lowest fail rate on the market. Speed counts! Entry using the Biometric swipe can be obtained in only seconds.

Speed and Security when you need it most. Don't settle when protecting your family... **trust the best, trust a John Deere Biometric Safe.** Made in the USA.

## John Deere JDX-150 Biometric Safe

The JDX-150 has been designed to securely store your firearm until you need it. The heavy-duty 14-gauge steel vault has a reinforced latch specifically designed to resist prying attacks. The JDX-150 is designed to be portable, easily fits in an automobile, and includes a security cable.

- The most reliable Biometric system available
- Quick and secure finger swipe access
- 15-fingerprint memory
- Lighted interior
- Fits most handguns
- Weighs 9.5 lbs.
- Ext. dimensions: 12.5" x 8.75" x 2.25"

### JDX-150

[See us for pricing.](#)

## John Deere JDX-250 Biometric Safe

The JDX-250 is the larger of the two John Deere biometric safes. Designed similarly to the JDX-150 with the same 14-gauge body and anti-pry tabs. The JDX-250 has an auto-opening door—just swipe your finger and the door opens.

- The most reliable Biometric system available
- Quick and secure finger swipe access
- 15-fingerprint memory
- Lighted interior
- Fits most handguns
- Weighs 15.5 lbs.
- Ext. dimensions: 12.5" x 11.5" x 7"

### JDX-250

[See us for pricing.](#)

All John Deere Biometric Safes are made in the USA and have a 5-Year replacement warranty on any defects.

\*Heavy-duty Mini Speakers (shown) sold separately.

Designed to be one of the most rugged stereos in the industry, this heavy-duty radio delivers high-quality audio while withstanding some of the harshest working conditions.

#### **A** AM/FM/WB/iPod®/iPhone®/SiriusXM™ Heavy-Duty Radio

**SWJHD1630**

\$243.61 **\$219.25**

### **Boldly go where no radio has gone before.**

The weatherproof Jensen 905 Radio brings news, weather, and your MP3 to Gators, skid steers, and open-station tractors. You get a NOAA weather band with weather alert, AM/FM radio, and an input to play an iPod, MP3 player, or portable CD player.

#### **B** Mini 905 Radio

**SWJHD905**

\*Heavy-Duty Mini Speakers (SWJXHD35) sold separately.

\$199.99 **\$179.99**

The SWJHD1365BT stereo is built tough for demanding environments while featuring the latest technological advancements. This radio features Bluetooth streaming audio (microphone included) with hands-free calling, giving you a truly hands-free experience. The iPod/iPhone capabilities can be taken advantage of via the USB so you can take your personal music library with you. Plus, the stereo is also SiriusXM-ready, offering you endless entertainment options.

#### **C** AM/FM/WB/iPod- & iPhone-ready/SiriusXM/Bluetooth Stereo

**SWJHD1635BT**

\$289.99 **\$260.99**

### **We made the cab quiet. Now give your ears something to listen to.**

If your cab radio is dead, dying, or just plain dysfunctional, consider an audio upgrade. Tune in to local news, weather, and sports, or bring your own audio stimulation via CD or MP3. Satellite news and music are also an option.

#### **D** AM/FM/WB Heavy-Duty Radio

**SWJHD1130**

\$160.36 **\$144.32**

Pulls in AM/FM and weather-band signals. This new Heavy-Duty radio has a full 7-channel NOAA Weatherband tuner and tells the time with the new segmented high-visibility display. It also comes with Front Aux in capabilities and is equipped with a two-wire hookup that prevents battery drain when the vehicle is off.

#### **E** AM/FM/WB/CD/USB/Bluetooth®/iPhone/iPod/SiriusXM Stereo

**SWJHD36AMIC**

\$325.65 **\$293.09**

In today's modern heavy-duty market, having a radio built to survive the tough stuff doesn't mean that it has to sacrifice in-demand entertainment options. The SWJHD3630MIC features the ability to receive Bluetooth streaming audio and phone calls from a Bluetooth-enabled mobile phone, giving you a truly hands-free experience. The microphone required for hands-free calling comes standard with the radio. This state-of-the-art heavy-duty stereo also has NOAA 7-channel Weatherband tuner with S.A.M.E technology to focus on a more specific region, giving you more accurate weather updates along with being iPod- and SiriusXM radio-ready.

## ToughCam™ Voyager Observation Systems

7" wide format, high performance color LCD panel.

- Energy efficient white LED backlighting
- Backlit controls
- Integrated audio speaker
- NTSC and PAL video signal compatible
- Three camera (A/V) inputs with manual (push-button) or automatic (trigger) source selection
- On-screen display (OSD) for AV source, picture adjustment and volume level
- OSD programmable source name
- OSD programmable distance markers
- Non-volatile memory for picture and volume adjustment settings
- Anti-glare/anti-scratch protective lens
- Multiple mounting options

Kit includes:

- 7" LCD monitor
- 4" LCD monitor mount
- High performance color camera(s)
- 25' and 75' cable

NUMBER	DESCRIPTION	LIST	NOW
SWVOS7MDCL1B	Single-camera observation system	\$332.99	<b>\$299.69</b>

## Voyager Auto Pairing System

The new auto-pairing system allows operators to switch from implement to implement without moving the cameras. SWWVOS7APCLB is a wireless system that allows for multiple cameras to pair up to the same monitor, one at a time. Add additional cameras (SWVCMS10B) to your other implements, and when you swap implements, the monitor will automatically pair with the new camera.

Other features include:

- 7" wide format LCD panel
- Integrated audio speaker
- Auto dimming screen save
- Long distance transmit/receiving capability
- Backlit controls

## Weld-on Hook

This weld-on hook is specifically designed for pulling, towing, or dragging heavy objects, with a working load limit (WLL) of 6,600 lbs. The designed use is for chain, but it can be used with rope or a tow strap. The hook is rated for Grade 70 chain, 5/16-in. or 3/8-in.

NUMBER	DESCRIPTION	LIST	NOW
TY27338	Weld-on Grabhook 3/8G70 6,600-lb. WLL	\$4.71	<b>\$4.24</b>

Working Load Limit is based off the hook being properly welded. The hook is not to be used for overhead lifting or to exceed the capacity of the bucket or equipment being used.

## Soil Compaction Tester

Get the best crop yield by measuring the extent and depth of subsurface compaction with the brand new John Deere Soil Compaction Tester.

Some features include:

- 24" stainless steel rod with adjustable shock collar to prevent damage
- Easy-to-read, color-coded stainless steel dial that is liquid-filled to reduce shock
  - Green (0–200 psi) = Good growing conditions
  - Yellow (200–300 psi) = Fair growing conditions
  - Red (300+ psi) = Poor growing conditions
- Large and small tip included with convenient storage in tester housing
  - 1/2" tip for firm soil
  - 3/4" tip for soft soil
- Durable molded housing with rubber grip handle

**See your local dealer to learn more.**

## Classic Glass Cleaner

Our aggressive, streak-free formula tackles tough jobs. With extra-powerful foaming action, it stays where you spray it—no running or streaking.

NUMBER	DESCRIPTION	LIST	NOW
TY25684	Classic Glass Cleaner	\$3.46	\$3.09

## Belt Dressing

This is not your traditional "Belt Dressing" that simply adds a tacky residue to stop a belt from squealing. This product conditions the rubber in belts to repair and prevent the damage that occurs from exposure to the elements, which ultimately is causing the belt to squeal. This allows belts to last longer and perform better. And because it doesn't leave a tacky residue, it won't attract dust and dirt or cause glazing. Recommended for use on all belt types including serpentine, v-belts, and industrial drive belts.

NUMBER	DESCRIPTION	LIST	NOW
TY26395	Belt Dressing	\$5.99	\$5.39

## Ultra Guard Tire and Rubber Protection

Prevent weather checking on your expensive tires and hydraulic hoses with John Deere Ultra Guard Tire and Rubber Protection. This product is specially formulated to restore the original integrity of rubber as well as heal weather checking with regular use. Makes tire surfaces look new, especially white walls and lettering.

NUMBER	DESCRIPTION	LIST	NOW
TY16369	Ultra Guard Tire and Rubber Protectant	\$8.39	\$7.59

## John Deere Tire Sealant

John Deere Tire Sealant is a proven preventative maintenance tool. Protect your tires against air loss and save money from reduced downtime for the life of your tires.

Other benefits include:

- Puncture sealing up to 1/4 inch in diameter
- Rim and bead sealing
- Dry rot and crack prevention

NUMBER	DESCRIPTION	LIST	NOW
TY26370	Tire Sealant, 16-oz.	\$ 9.89	<b>\$ 8.89</b>

## Loctite® Naval Jelly® Rust Dissolver

Loctite Naval Jelly Rust Dissolver is the original rust treatment formula that has been used for over 40 years. It removes rust from metal surfaces such as iron and steel and can be sprayed or brushed on metal surfaces

Features and benefits:

- Ideal for heavily rusted items
- Works in 5 to 10 minutes
- Water soluble for easy cleanup
- Can be sprayed or brushed on

Recommended for:

- Removing rust from metal surfaces made of iron or steel
- Use on loader buckets, hitch balls, wagons, trailers, iron railings, barbeque grills, pipes, valves, storage tanks, automobiles, tools, lawn mowers, and more

Not recommended for:

- Plastic      ▪ Aluminum      ▪ Chrome
- Fiberglass      ▪ Cement      ▪ Marble

NUMBER	DESCRIPTION	LIST	NOW
PM1381191	Naval Jelly Rust Dissolver, 8-oz.	\$6.49	<b>\$5.79</b>

# Plus-50™ II is your best choice for engine oil. We can prove it.

Since your John Deere equipment deserves top-quality protection, we've designed our Plus-50 II engine oil to protect our engines better than any oil out there.

Plus-50 II trumped competitors when tested in tough off-road conditions\*, and it's the only oil we recommend to protect your John Deere equipment up to 500 hours under severe temperatures. And Plus-50 II is formulated specially to inhibit engine wear no matter what brand of equipment or vehicle you're operating. You'll save on service costs and gain productivity.

\*Rating applies when complete system flush is performed prior to use.

## Plus-50™ II Synthetic SAE 0W-40 API CK-4/SN Engine Oil

Synthetic Plus-50 II Premium Engine Oil (SAE 0W-40) has been designed to provide advanced lubricant performance in modern engines to meet the requirements of EPA regulations. SAE 0W-40 Plus-50 II is a full synthetic PAO (Poly Alpha Olefin) based oil that provides excellent performance.

Excellent for all diesel engines requiring 0W-40 viscosity and API Service Classification CK-4, SN, and Mack EO-N Premium Plus 03. Superior performance for customers who operate in extremely cold or hot conditions and want to maximize engine life performance.

## Transmission and Hydraulic Oil

Hy-Gard™ oils are specifically developed to meet the exact requirements of transmissions, wet clutches, wet brakes, and hydraulic systems. Oils not meeting these exact specifications can compromise machine or component life.

### Hy-Gard Oil

Available in 1-, 2 1/2-, 5-, 30-, 55-, and 220-U.S.-gallon containers.

- Recommended for equipment with common system reservoirs or separate transmission and hydraulic systems
- Exceeds JDM J20C specification

### Bio Hy-Gard II Oil

Available in 5- and 55-U.S.-gallon containers.

- Made with farm-grown canola
- Biodegradable
- Use in place of mineral-based hydraulic oils

### Low-Viscosity Hy-Gard Oil

Available in quarts and 1-, 5-, and 55-U.S.-gallon containers.

- Use in place of Hy-Gard oil in cold weather
- Exceeds JDM J20D specification

## Synthetic GL-5 Gear Lube

Synthetic GL-5 lubricant is designed for severe on- and off-highway applications. Its superior thermal stability and oxidation resistance keeps gears and seals clean, while its thermal durability protects gears from physical damage by preventing heat-induced failure of anti-wear chemistry.

## Fuel-Protect Keep Clean

Improve engine performance with John Deere Fuel-Protect Keep Clean for diesel injectors. Specifically formulated for modern high-pressure diesel fuel systems, John Deere Fuel-Protect Keep Clean limits and prevents the formation of deposits that cause injector sticking, engine misfire, rough idling, excess exhaust smoking, power loss, and/or hard starting conditions.

# KEEP FUEL CLEAN

Protect your engine's fuel system and optimize machine performance with these simple precautions.

## Bulk fuel filters

Protect stored fuel from contaminants by using John Deere fuel storage tank filters or Fleetguard® fuel island filters.

## Engine fuel filters

John Deere fuel filters are matched to your machine to protect fuel system components like pumps and injectors.

## Fuel maintenance

Improve fuel flow, clean injectors, and kill microbial growth by using John Deere fuel additives and conditioners.

## Bulk Fuel Storage Filters

Protect your vehicle fuel systems from contamination and damage due to rust, dirt, bacteria, and water. Compatible with fuels containing up to 10 percent ethanol or 20 percent biodiesel blend.

NUMBER	DESCRIPTION
TY15192	10-micron fuel-tank filter
TY15677	15-micron fuel-tank filter, water absorbing
<b>Spin-on replacement filters compatible with diesel, gasoline, and ethanol blends up to 10%:</b>	
TY15193	Filter element (for TY15192)
TY15674	Filter element (for TY15677), water absorbing
PMFF216	Replacement filter, spin-on
PMFF5011	Replacement filter, spin-on with drain cock
PMFF5450	Replacement filter, spin-on
<b>Spin-on replacement filter compatible with diesel only, high-volume capacity:</b>	
PMFF5013	Replacement filter, spin-on with drain cock
<b>Fuel Filter Heads with Differential Pressure Gauge</b>	
PM3933191s	Single filter head
PM3950365s	Double filter head

The formula for staying in the field longer:

**PLUS-50™ II ENGINE OIL**  
+ JOHN DEERE OIL FILTERS

**500 HOURS\* BETWEEN OIL CHANGES**

Get great protection with fewer oil changes when you pair John Deere oil filters with premium Plus-50 II engine oil. Specifically designed by John Deere engineers for John Deere equipment, our maintenance products defend your machine from harsh conditions and wear, and provide you with up to 500 hours between drain intervals. That's twice as long as standard oil!

John Deere Plus-50 II engine oil and John Deere oil filters—it's a winning combination to keep your equipment in the field longer. See your local John Deere dealer today.

\*500-hour drain interval applies to diesel John Deere engines when the following criteria are met: 1. Engine is equipped with an extended drain interval oil pan, 2. Machine operates with Plus-50 II engine oil, 3. Machine uses a John Deere oil filter, 4. Machine uses only ultra low sulfur diesel fuel.
