REBUILD YOUR COMBINE

Get your early-model combine running like the good ole days through a special, limited-time offer from John Deere Financial. The **all-new Combine Rebuild Program** provides No-Payment/No-Interest or low-cost financing for Genuine John Deere, John Deere Reman and A&I Products combine parts. But that's not all because you can also finance work to cab interior, hydraulics, engine accessories and exterior finishes. Qualifying models include:

- 9000 Series (9400, 9500, 9600)
- 9010 Series (9410, 9510, 9610)
- 9050 Series (9450, 9550, 9650, 9750)
- 9060 Series (9560, 9660, 9760, 9860)

Take advantage of this special financing opportunity through **October 31, 2021** when you use your Multi-Use Account.

Ask us about the Combine Rebuild Program today.

Combine Rebuild Program Finance Options	Minimum Purchase
365 Days NP/NI ¹	\$10,000
Fixed 1.9% APR with 24 Equal Monthly Payments ²	\$10,000
Fixed 2.9% APR with 36 Equal Monthly Payments ³	\$10,000

¹Offer valid on qualifying purchases made between November 01, 2020 to October 31, 2021 and is subject to approved credit on a Multi-Use Account, a service of John Deere Financial, f.s.b. For agricultural and commercial use only. After the promotional period, interest charges will begin to accrue at the regular Multi-Use Account rate. Minimum \$10,000 purchase required. Available at participating merchants, see your local merchant for complete details.

²Offer valid on qualifying purchases made between November 01, 2020 to October 31, 2021 and is subject to approved credit on a Multi-Use Account, a service of John Deere Financial, f.s.b. WHAT ARE WORN PLANTER PARTS COSTING YOU?

PRIMARY AGRONOMIC FACTORS AFFECTED BY PLANTING THAT IMPACT YIELD

CORRECT POPULATION

2-4 bu/acre*

UNIFORM SPACING

2-4 bu/acre*

UNIFORM EMERGENCE

10-18 bu/acre*

PLANTING WINDOW

4-10 bu/acre*

PERFORMANCE DRIVERS OF EACH OF THE ABOVE AGRONOMIC THEMES

- POPULATION
- VACUUM LEVEL
- SKIPS/MULTIPLES
- DOUBLE ELIM. SETTINGS

- SINGULATION
- RIDE QUALITY

- DEPTH
- SEED TO SOIL CONTACT
- RESIDUE MGNT.

- PLANTING DAYS

Think your planter can make it one more season without an inspection? You might be surprised just how much worn parts can impact your bottom line. Your John Deere Dealer can test your meters to ensure you maximize your planter's performance ... and your farm's yield potential. Correct population, uniform spacing, and emergence can impact yield potential in corn.

Putting pencil to paper, let's look at a hypothetical example based on 2,000 acres of corn with a 16-row 1770NT MaxEmerge™ XP Planter assuming \$3.50 market price.

Some of the most commonly replaced meter wear parts that can negatively impact your planter's ability to deliver the correct population or uniform spacing within a vacuum meter include knockout wheels, seed meter brushes, and vacuum meter seals. As the study above suggests, correct population and spacing accuracy can ultimately impact your yield potential by up to 4 bu/acre*. If any or all of these 3 meter parts are worn or damaged, the below table illustrates the associated yield and revenue that may be at risk.

REVENUE AT RISK

4 bu/a x \$3.50 = \$14 per acre in potential revenue

For a 2,000 acre corn operation totals \$28,000

COSTS TO INSPECT/REPAIR PLANTER METERS

Meter Inspection, Parts, and Labor to replace Knockout Wheels, Seed Meter brushes, and Vacuum meter seals

\$83 per row x 16 rows = \$1,328

BOTTOM LINE IMPACT

\$26,672 Net Revenue

Don't let worn parts wear on your bottom line.

Schedule your John Deere Certified Meter Inspection today!

Talc and 80/20 Talc and Graphite Blend

Talc is specially designed for today's wide range of seed treatments to enhance seed flow in all weather conditions. Talc is highly recommended for use with vacuum seed meters; however, some meters require 80/20 talc and graphite blend. This high-grade product offers the benefit of seed coating (talc) and lubrication (graphite) for vacuum seed meters. The 80/20 talc and graphite blend is 97% pure and mined in the USA.

NUMBER	DESCRIPTION	SIZE	LIST	NOW
A113710	80/20 Talc Graphite Blend	2.5 gal./8 lb.	\$23.67	\$21.30
A113711	80/20 Talc Graphite Blend	5 gal./20 lb.	\$42.19	\$37.97
A113712	Talc	2.5 gal./8 lb.	\$17.99	\$16.19
A113709	Talc	5 gal./20 lb.	\$34.76	\$31.28
TY26253	Graphite Squeeze Bottle	1 lb.	\$ 5.16	\$ 4.64
TY25255	Powdered Graphite	5 lb.	\$18.79	\$16.91

Bayer Fluency Agent Advanced

Fluency Agent is a unique polyethylene wax-based seed lubricant for corn and soybeans. It is an alternative for talc and talc/graphite-blended planter seed lubricants and can be used in all makes and types of vacuum planters that recommend the use of a seed lubricant. Testing has confirmed Fluency Agent performs equal to or better than comparable talc seed lubricants while reducing the amount of dust in vacuum system exhaust.

Planter Tech Tip

Per your machine's Operator's manual, follow the recommended grease and lubrication options:

Grease: John Deere SD Polyurea Grease is preferred.

The following greases are also recommended:

John Deere HD Lithium Complex Grease

John Deere HD Water Resistant Grease

John Deere GREASE-GARD™

Gear Case Oil: The following oils are preferred:

John Deere Hy-Gard™

John Deere Low Viscosity Hy-Gard™

Roller Chain: Do not use chain lube or any other heavy petroleum base lubricant that may cause a buildup of dust or dirt in sprocket or gear teeth.

Lubricate all machine roller chains with John Deere Multipurpose Spray Lube, TY6350 (or equivalent) at intervals sufficient to maintain free chain movement.

Brush Belt Tech Tip:

To prevent a BrushBelt™ malfunction, do not apply fertilizer directly in the seed furrow near the front of the BrushBelt™. To dry the BrushBelts™ before planting in wet conditions, perform a meter runoff. (See the SeedStar™ Application Help for the Runoff procedure.) Periodically clean the seed sensor area inside the BrushBelt™. Dusty conditions or heavily treated seeds cause an excessive buildup of dust and seed treatment inside the BrushBelt™, which blocks the seed sensor. When the seed sensor becomes blocked, false low population counts, or false low limit warnings appear.

Double Eliminator Tech Tip:

Degraded meter performance, like multiple seed placement, is an indicator of possible inner or outer double eliminator wear. Check the inner and outer double eliminators (A) for wear. Check the inner and outer tines for uniform length and diameter. If the length of the outer double eliminator measures less than 8 mm from the base Tine or Brush to the tip and the meter performance is degraded, replace it. If the diameters of inner adjustable double eliminator Tines are worn to less than 1/2 the original diameter and the meter performance is degraded, replace it.

PICK 3 & SAVE

Hit the ground running this season by replacing worn parts on your planter. And right now you can save a bundle, with a bundle, on Genuine John Deere Parts. Simply **PICK 3** or more categories below. **PURCHASE \$150** minimum of parts in each category. **SAVE 15%** on all parts in your selected categories. Now that's easy pickings. And savings, too. Stop by today!

GAUGE WHEEL ARMS & BUSHINGS

Arms, bushings and a NEW gauge wheel arm kit.

GAUGE WHEEL ASSEMBLY

Steel, plastic, standard, reduced inner profile, spoked and conservation.

CLOSING WHEELS

Cast-iron, rubber, disk and drag.

OPENER BLADES

Tru-Vee™, fertilizer and coultter blades.

SCRAPERS

Steel, heavy-duty, rotary, scraper arms and select kits.

EXACTEMERGE™ BRUSH BELTS

Round and flat brush belts.

15% OFF* PLANTER PARTS VALID 1/1/21 - 3/31/21

*Save 15% on Genuine John Deere planter parts when you purchase \$150 or more in at least 3 of the 6 planter parts categories (gauge wheel arms/bushings, gauge wheel assembly, closing wheels, opener blades, scrapers, ExactEmerge™ brush belts) from a participating U.S. John Deere dealer between January 1, 2021 and March 31, 2021. \$150 worth of parts before applicable sales tax must be purchased in at least 3 categories to receive 15% OFF. Offer not valid on previously purchased parts or attachments nor on attachment ordered as an option code. Offer has no cash value and cannot be redeemed for cash. Dealer participation may vary. Other restrictions may apply. Offer cannot be combined with any other offer and may be discontinued or modified without notice at any time. See your John Deere dealer for details.

Tru-Vee™ Opener Assemblies

Tru-Vee Openers and blades are designed to cut a trench precisely to the selected depth. These OEM Diamond Series blades' special beveled edges make penetration easy, retain their sharp edge, and offer longer life compared to aftermarket alternatives.

NUMBER	DESCRIPTION	LIST	NOW
AA53860	Tru-Vee Heavy-Duty, 3.5mm for ME+ and Pro Series	\$28.85	\$25.97
AA55927	Tru-Vee Standard-Duty, 3mm for ME+ and Pro Series	\$28.76	\$25.88
AA65248	Heavy-Duty, 3.5mm Double-Row Bearing for XP, ME5, and EE	\$35.47	\$31.92
AA65457	Heavy-Duty, 3.5mm Double-Row Bearing for ME2 and ME+	\$44.73	\$40.26

Disk Openers and Coulter Blades

Our most popular openers and coulter blades are made from the same high quality Diamond-Series material used on new John Deere seeding equipment. They're not "just like" OEM, They are OEM.

25-wave (0.63-in.): Creates extremely fine tilth area in an area about 7/8-in. wide. Works well on wet, spongy soil that can be tight and difficult for proper furrow closing.

13-wave (0.7-in.): Tills an area about 1-in. wide at speeds under 6 mph. Gives more aggressive soil disruption at slower speeds. Fractures the soil more, opening a wider slot of fine tilth.

8-wave (1-in.): Offers less soil disturbance and a 1.25-in. wide trench at speeds above 5.5 mph.

Bubble: Tills more aggressively as bubbles enter the seedbed zone. Opens a 1-in. wide slot. Penetrates soil and cuts through residue well.

NUMBER	DESCRIPTION	SIZE/TYPE	LIST	NOW
AA57466	Fertilizer Opener Assembly	13 1/2-in.	\$41.93	\$37.74
AA57467	Fertilizer Opener Assembly	13 1/2-in.	\$41.93	\$37.74

New One-Piece Closing Wheel

One-piece Closing Wheel

Damage to closing wheel tires for produces planting in difficult conditions such as high residue or rocky fields is sometimes unavoidable. This one-piece closing wheel AA97549 is designed to significantly reduce component wear and allows for less soil disturbance and mud packing. Another significant benefit of maintenance, as service is not required when change out a tire.

Compatibility: MaxEmerge™ Plus, MaxEmerge™ XP, MaxEmerge™ 5, MaxEmerge™ 5E, ExactEmerge™

NUMBER	DESCRIPTION	LIST	NOW
AA97549	One-piece Closing Wheel with Standard Bearing	\$43.95	\$39.56

New Seed Disks Available

Canola Disk

John Deere has introduced a new seed disk capable of planting canola with a row crop planter. The main features of the disk are: Agitator pockets for consistent seed pickup, shallow holes for a more uniform seed release, special static dissipative material to prevent seed from sticking to the disk, pre-applied graphite lubricant to reduce wear, flexible knockout wheel to reduce wear and breakage

Compatibility: MaxEmerge™ XP, MaxEmerge™ 5, and MaxEmerge™ 5e row units.

NUMBER	DESCRIPTION	LIST	NOW
A119979	Canola Disk	\$36.99	\$33.29

AA46912	Seed Tube Insert (optional)	\$25.46	\$22.91

Single Row Soybean Disk

John Deere has introduced a new single row, 64-hole soybean disk. It allows for better seed spacing and singulation when compared to the current 108 cell three row disk when working on 15-inch spacing only, and up to approximately 50 seeds/second. For planting rates up to 50 seeds/second, the 64-holes soybean disk may reduce Seed Spacing Coefficient of Variation (COV) up to 50%. For planting rates higher than 50 seeds/second, the 108-cell disk, A42586, is still recommended.

Compatibility: MaxEmerge™ XP, MaxEmerge™ 5, and MaxEmerge5e planters. Soybean disk A105848 should be paired with A106147 Knockout Wheel or AA89145 Knockout Wheel Assembly.

NUMBER	DESCRIPTION	LIST	NOW
A105848	64-Hole Soybean Disk	\$36.99	\$33.29
A106147	Knockout Wheel	\$ 4.70	\$ 4.23
AA89145	Knockout Wheel Assembly	\$24.31	\$21.88

ProMax 64 Flat Cotton Seed Disk

The benefits of ProMax seed disks are now also available for cotton growers. The advantages of the ProMax disks include: consistent singulation and spacing, flexibility with different seed sizes and shapes, seamless integration with John Deere meters, and Can be used on existing planters with little set up needed. The new flat cotton disk A121489 also offers the following benefits: Improved singulation over A56251 double-row cotton disk especially at lower rates and smaller seeds, works with a wider vacuum range

Compatibility: MaxEmerge™ XP, MaxEmerge™ 5, and MaxEmerge™ 5e

NUMBER	DESCRIPTION	LIST	NOW
A121489	ProMax 64 Flat Cotton Seed Disk Disk	\$36.99	\$33.29

+ Add more Do more

with John Deere Planter attachments

*Talk to us today about how attachments can **Add More** to your planter.*

1 Coulter/Row Cleaner Combination

Ideal for those times when opener disks need help penetrating tough soil and residue—plus, for tilling the seedbed to help the closing wheels create good seed-to-soil contact.

2 1.6 Bushel Hopper

The 56.4-L (1.6-bu) hopper can be installed on planters with the ExactEmerge meter. This can be beneficial for seed corn growers who want to add hoppers to specific rows.

3 Fertilizer Openers

Single- and double-disk, frame-mounted fertilizer openers work well for a wide range of tillage conditions, including conventional, reduced, moderate no-till, and more.

4 Liquid Storage Tanks

Choose the size that fits your needs for storing liquid insecticide or fertilizer. See your local dealer for more information for correct applications.

5 Cast-Iron Closing Wheel

These closing wheels are best for tough soil and heavy residue conditions when more pressure is needed to close the furrow. Angle and stagger adjustments are identical to standard rubber wheels.

*Force is a registered trade-mark of Syngenta®

Low rate financing options available for select planter attachments sold through parts, including: Easy Adjust Row Cleaner Performance Upgrade, Pneumatic Closing Wheel Performance Upgrade, or ME5 Performance Upgrade kits \$4,000 and above.

Time to upgrade your planter with a Performance Upgrade kit? We have low-rate finance offers available through John Deere Financial. Please see your John Deere dealer for additional details on these offers.

- 365 days No Payments/No Interest (12 months)
- 24 month 1.9% fixed-rate with 24 equal payments
- 36 month 2.9% fixed-rate with 36 equal payments

Note: minimum purchase for each offer is \$4,000. Offer ends April 30, 2021.

All programs subject to John Deere Financial approval credit on a Multi-Use Account, a service of John Deere Financial, f.s.b. Program options are available for Agricultural and Commercial account holders only. After promotional period, interest changes will begin to accrue at the Multi-Use Account rate. Available at participating John Deere Dealers, see your local dealer for complete details.

NOT READY TO TRADE? JUST UPGRADE.

12% OFF* SELECT PLANTER UPGRADES

VALID 12/1/20 – 3/31/21

You don't have to buy new to get better results, you can upgrade instead. With advanced technology now available for older planters, you can **increase yield potential** and **extend the life** of your **John Deere MaxEmerge™ planter** for years to come.

EASY ADJUST ROW CLEANERS

Reduce single-row adjustment time by 75%. Adjust your entire planter from the cab to accommodate for wet ground, waterways or end rows.

PNEUMATIC CLOSING WHEELS

Eliminate time-consuming manual adjustments. Change force settings on seed trenches from the comfort of the cab to improve emergence.

VARIABLE RATE DRIVE

Adjust your seeding rate on-the-go. Change seeding rate (manually or automatically) based on prescription maps to maximize profit per acre.

ROW COMMAND

Minimize overplanting and maximize seed placement. Reduce yield drag and improve harvest capabilities on Pro-Shaft™ and MaxEmerge™ 5 row units.

ACTIVE PNEUMATIC DOWNFORCE

Fully automate downforce control. Sync with SeedStar™ 3 HP and SeedStar XP systems to set row unit for precise soil penetration.

*12% OFF the agreed upon purchase price of select John Deere planter upgrades. Offer valid on qualified purchases made between December 1, 2020 and March 31, 2021. The 12% offer is applied to the total before shipping/delivery charges and consistent with applicable sales tax requirements. Some restrictions apply. Available at participating US dealers. Prices, models and savings may vary by dealer.

Stainless Steel Air Seeder Parts

Now Available from A&I Products

**Air
Seeder
Parts**

- Corrosion-resistant 304 stainless steel and high abrasion and wear plastics.
- Patent-pending design has individual row shutoff with both manually and automatically operated slide gates.
- These units are washable, with a cleanout at the bottom of the meter. They require no foam, and are maintenance-free, with no need for grease.
- This exclusive single-wall design doesn't allow fertilizer dust to accumulate in an air cavity. No air cavity means no swelling or distortion.

ProSeries™ Seed Opener Performance Upgrade Kits for 60 and 90 Series Openers

The ProSeries Opener offers agronomic advantages and extended wear life compared to the current 90 Series openers. For 60-series openers, to be compatible, seed tubes must also be upgraded to the 90-series seed tubes.

Features include:

Seed Boot – A narrower, tighter fit to the disk results in less soil throw for better seed-to-soil contact and extended wear life.

Press Wheel – Narrower and more flexible press wheel improves overall seed-to-soil contact for more even emergence, plus upgraded double-row ball bearing extends service life.

Serrated Closing Wheel – Improved closing system when seeding in harder, drier conditions. The notches on the wheel break up the drier soil for better germination.

Seed Tab – Improved material for longer wear life, angled and more flexibility in the seed trench results in less seed bounce for more consistent seed placement.

Closing Spring – Easier adjustments.

Separate Fertilizer Placement Openers for 90-Series.

Features include:

SFP Sealing Wing allows for better sealing of NH₃ in the ground.

Kit contents include: Scraper, Sealing Plate, Disk Opener, Hardware, (smooth or serrated closing wheel is not included).

12% OFF Program

1 Dec. 2020 – 31 March 2021

Section Command

Section Command reduces costly overlaps and skips that can waste seed and fertilizer, while offering more consistent fields that improve the potential of your yield and your bottom line. Individual meter sections control commodity flow, so you can maintain the right application rates and row-to-row accuracy. This helps stimulate even crop emergence during the growing season and promotes consistent crop maturity at harvest. SectionCommand controls output from all meters on the cart up to eight sections.

Benefits include:

Improved consistency of crop maturity at harvest

Improved consistency during emergence and growing season

Reduced seed input cost

Reduced fertilizer input cost

Increased time between fills due to input savings. Compatibility – 1910 Air Carts. See your local dealer for necessary parts.

Air Seeder Hose—Low Pressure

John Deere offers 1-in. through 2-1/2-in.-diameter, clear with green or black helix hose for air seeder applications. This clear, smooth-core, PVC hose is recommended for heavy-duty suction and discharge of seed, as well as agricultural chemicals, marine, and liquid waste.

Meters, Rollers, and Tuning Rings for John Deere Air Seeders

Use the low meter roller for seeds such as flax, canola, and alfalfa. The medium roller is best when planting wheat, barley, canola, and small soybeans up to 1/4 inch in diameter and with medium rates of fertilizer. The high rate roller is for high rates of fertilizer and large soybeans bigger than 1/4 inch in diameter. The very high rate roller is best used when planting barley and oats with beards, large seeds such as garbanzo beans, and with very high fertilizer rates. Fine tuning rings reduce the amount of product available to meter for increased accuracy.

On the straight and narrow.

Sure, with John Deere Precision Ag components installed on your equipment, you'll have straighter rows, lower input costs, and an easier time harvesting. But you know when our Precision Ag technology really shines? When your neighbor stops by to ask how you planted such a good-looking field. So, whatever equipment you're planting with, we have a solution to make your fields the envy of your neighbors.

Guidance & Machine Control

AutoTrac™ Intergrated Machine Kits and GreenStar™ Ready Kits make it easy for you to be Precision Ag ready when the time arrives. The AutoTrac machine kits include the appropriate machine steering controller when necessary and AutoTrac Ready accessories. Display, receiver, and software to complete the system are sold separately. These field-installed kits are an integrated guidance solution for John Deere Tractors and are compatible with the GreenStar 3 or GreenStar 2 system components. Gain the edge and get the results you want and need with genuine John Deere Precision Ag components.

MAKE WAY FOR BETTER SPRAY

12% OFF¹
EXACTAPPLY™
PERFORMANCE UPGRADE

VALID 12/1/20 – 3/31/21

Make Every Drop Count

Reduce over-application, crop burn and off-target drift with ExactApply™. Featuring individual nozzle control for **precise droplet sizing** and **consistent application management**, this performance upgrade provides three times the pulsing frequency of competitive systems and **an industry-exclusive A-B nozzle design**. ExactApply also maintains your target rate and pressure over a wider range of speeds and reduces input costs.

Upgrade your **R4030, R4038, R4044, R4045 or R4060** model.

¹12% OFF the agreed upon purchase price and dealer installation of ExactApply performance upgrade kits from a participating U.S. John Deere dealer between December 1, 2020 and March 31, 2021. Not valid for online purchases. Dealer participation may vary. Other restrictions may apply. Discount to be applied to the total before applicable taxes, shipping rates, and delivery charges. Offer cannot be combined with any other offer and may be modified or discontinued at any time. See your participating John Deere dealer for details.

Follow A Better Path Forward

Be confident when maneuvering your sprayer through the field with **AutoTrac™ Vision** and **RowSense™**. Working in tandem with each other, this guidance system **keeps wheels in the center** of each row so you can focus on other important aspects of sprayer operation. In addition to **reducing operator fatigue**, AutoTrac Vision and RowSense performance upgrades help you **optimize ground speed** and **prevent costly crop damage**.

Upgrade your **John Deere 30 Series or newer sprayer** along with select Hagie models.

²\$500 OFF the agreed upon purchase price and dealer installation of AutoTrac Vision and RowSense performance upgrade kit from an authorized U.S. John Deere dealer between December 1, 2020 and March 31, 2021. Not valid for online purchases. Dealer participation may vary. Other restrictions may apply. Offer cannot be combined with any other offer and may be modified or discontinued at any time. See your participating John Deere dealer for details.

\$500 OFF²
AUTOTRAC™ VISION
& ROWSENSE™
PERFORMANCE UPGRADE

VALID 12/1/20 – 3/31/21

WITH PERFORMANCE UPGRADES

Direct Injection

Isolate contamination, reduce risk, and be equipped for quicker chemical and crop changeover with Direct Injection. Available as a performance upgrade for R4030, R4038 and R4045 sprayer models, Direct Injection makes it easier for you to manage buffer zones to meet chemical requirements in addition to providing capacity for carrying up to 235 gallons and three different applications at once.

- Manage applications along drift sensitive areas
- Apply products in selected section of the field and not others
- Cover more acres during tight spray windows
- Quicker changeover between chemical and crops and less product waste

Note: kits listed below are not for ExactApply™ machines. For kits compatible with ExactApply machines, check with your local John Deere dealer.

NUMBER	DESCRIPTION	LIST	NOW
R4030, R4038, and R4045 Sprayer

BoomTrac Pro™ Height Control System

Increase application accuracy and minimize spray drift and skips with the help of this boom height-sensing software that responds to ground contour changes. Five-sensor system recommended for 120-foot (36.6 M) boom or severe applications. Three sensor system is for relatively flat to gently rolling terrain.

Applications: 4630, 4730, 4830, 4930, 4940, R4023, R4030, R4038, R4044, R4045, and R4060 Sprayers

Express Boom Assembly

John Deere's Express Boom Assembly provides an economical solution to upgrade your sprayer with 1-in. poly plumbing to stainless or change nozzle spacing as desired. Available for John Deere sprayer models 4630, 4700, 4710, 4720, 4730, 4830, 4920, 4930, 4940, and R4023.

Underframe Shields

Simply mount these shields to the underside of the chassis to help protect your crop from entanglement in vehicle components. Shields are mounted on hinges to allow quick, easy access to vehicle components.

High-Pressure Auxiliary Filter Upgrade Kit

Enhance hydraulic filtration capabilities with John Deere's new high-pressure auxiliary filter. This filter enables more oil to be filtered with each pass through the hydraulic system. This upgrade is available from model year 2014 through model year 2019 on the following models: R4040, R4038, R4044, R4045, and R4060

Features:

- Designed to keep oil and auxiliary powered components clean
- Captures contaminants before they can cause damage within the sprayer's hydraulic system
- Adds an additional layer of protection for components such as steering, boom valve and functions that work off the auxiliary pump

NUMBER	DESCRIPTION	LIST	NOW
BKK11240	High-Pressure Auxiliary Filter	\$1,210.69	\$1,065.41

Wheel and Crop Shields

Wheel Motor Shields: These shields help keep the crop and mud away from the inside of the wheel motor for easier cleaning and added protection from field debris.
Crop Shields: Strong, durable, polyethylene wheel shields are available for 320, 380, and 420 tires to help prevent damage to crops.

NUMBER	DESCRIPTION	LIST	NOW

Ultra-low drift Max – Post-Emerge Systemic Herbicides

- 130° spray angle allows lower boom heights to reduce drift and to prevent pattern collapse when using drift reduction adjuvants
- Air-induction droplets to reduce drift
- Delivers Extremely Coarse and Ultra Coarse droplets for 90–95% drift reduction compared to standard flat fan nozzle
- ExactApply™ compatible with AutoSelect A/B, and conventional spraying

List \$9.41/ea.

Now \$8.47/ea.

Express Nozzle Body End Caps

Improve system hygiene by removing the dead zone on the end of the boom pipes, reducing air and residue buildup.

- Allows air to escape through the nozzle body, reducing turn-off/turn-on times by up to 85%
- Removable end plug allows easy access for boom cleanout

NUMBER	DESCRIPTION	LIST	NOW
PM74333314	1-in. Express Cap Fitting w/ Nozzle Body End Cap (high flow)	\$37.43	\$33.69
PM74333316	1-in. Express Cap Fitting w/ Nozzle Body End Cap (standard)	\$37.43	\$33.69

Flange Adapters for Express End Caps

These flange adapters enable the use of Express Nozzle Body End Caps on 4-Series Sprayer models R4023, R4030, R4038, and R4045.

NUMBER	DESCRIPTION	LIST	NOW
PS24000152	End Cap Flange Adapter – Standard Flow	\$9.76	\$8.78
PS24000153	End Cap Flange Adapter – High Flow	\$9.76	\$8.78

Express Flush Valves

This valve allows quick flushes of the entire boom section with a turn of a handle. Purchase the Express Flush Valve alone or installed on the Express End Cap.

- Easy to use valve does not require any tools to open flushing mode
- Reduces flush time by 5 seconds per valve compared to standard Express End Caps alone
- Compact design limits the length it extends beyond the last nozzle body to fit most booms

NUMBER	DESCRIPTION	LIST	NOW
PS74333318	Express Flush Valve – High Flow	\$39.34	\$35.41
PS74333320	Express End Cap with Express Flush Valve Installed – High Flow	\$57.93	\$52.14

PS74333321	Express End Cap with Express Flush Valve Installed – Standard Flow	\$57.93	\$52.14

High-Flow Nozzle Body

Our 5-way nozzle body enables quick spray nozzle changeover. Simply rotate the nozzle body until the desired nozzle is in the spraying position.

- Designed to deliver the highest flow rates across the spraying pressure range
- Provides the lowest pressure drop at any given flow in the industry
- Reduces restrictions in the flow path through a unique DCV design
- Supports faster field speeds with the same coverage

NUMBER	DESCRIPTION	LIST	NOW
AN206621	5-Position High Flow, 1 1/16-in. port, Viton seals	\$29.93	\$26.94

New ForceField Centrifugal Pump

Superior wet-seal protection for today's most demanding spray conditions.

- Wet-seal technology protects the seals by using a barrier fluid to keep them cool and lubricated, even while the pump is running dry
- Actively maintains a positive pressure differential between the chamber barrier fluid and the pumping solution, which prevents chemical bonding of the seal faces, resulting in increased life and maintenance-free operation
- Protects seal against dry run failure
- Minimizes sprayer downtime and improves productivity

Ask us how the ForceField pump provides worry-free sprayer operation.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
AKK30367	High-Flow Cast-Iron ForceField Pump	R4038, R4044, R4045, R4060	\$5,518.36	\$4,966.52

OEM Sprayer Pumps

John Deere's broad line of centrifugal pumps allows you to match the right pump to your equipment and task. The models include cast iron, stainless steel and polypropylene that stand up to strong chemical herbicides.

- Compatible with corrosive, abrasive and general use chemicals
- Models include high volume (440 gpm) and high pressure (190 psi) capabilities
- Nylon, polypropylene impellers on most models
- Life Guard® silicon carbide mechanical seals standard on all stainless steel pumps and available on select cast iron and polypropylene models

Protect your crops and equipment

Get superior cleaning power with leading Spray System Cleaners

A lot has changed in the past decade. Bigger sprayers, more powerful crop protection products, and increased tank mixing can lead to cross contamination and reduced yields when sprayers aren't cleaned properly.

Ordinary tank cleaners were never designed to remove oily residues that can build up throughout the entire liquid system of a sprayer. Erase™ is a powerful spray system cleaner that exceeds the capabilities of ordinary tank cleaners. Erase emulsifies oily residues in tanks, sprayer lines, and hoses while elevating rinsate pH to degrade vulnerable crop protection products. Combined with good sprayer cleaning technique, Erase virtually eliminates the risk of cross-contamination that leads to crop injury complaints, yield loss, and a damaged reputation as a professional applicator.

Erase

Powerful spray system cleaner that penetrates and removes dried-on and oily residue in tanks, sprayer lines, and hoses to help prevent cross-contamination.

NUMBER	DESCRIPTION	SIZE	LIST	NOW

Nozzle Body Turret O-Ring Lubricant

Over time the o-rings between the turret and nozzle body get dusty, which makes rotating the nozzle body difficult when changing between nozzles. Parker Super O-lube is the John Deere preferred product for lubricating o-rings on sprayers with our new ExactApply™ nozzle bodies, as well as those on older machines.

Features/Benefits:

- High-viscosity silicone oil that can be used with virtually any rubber polymer over temperatures ranging from -65°F to 400°F (-54°C to 204°C)
- Will not clog 30-micron filters
- Recommended for high pressure systems

NUMBER	DESCRIPTION	LIST	NOW
PMH3503	Super O-Lube, 2-oz. tube	\$19.40	\$17.46

Sprayer Camera Kits

A new camera kit is compatible with John Deere self-propelled sprayers and dry spinner spreaders. Beginning with model year 2020, there are plug-in ports and hardware mounting holes that enable up to four cameras to be mounted in operator-selected locations around the sprayer allowing the operator to view the machine and field from multiple vantage points. We have also aftermarket camera kits available from Voyager and A&I.

High Productivity Sweeps

These sweeps deliver the ultimate in performance, productivity, wear life, and shape retention. Available in bolt-on and Perma-Loc versions and four wing widths.

- Designed for top performance at 7–10 mph
- Low wing profile creates less draft, leaves a level finish
- Sharp edge effortlessly cuts through residue

High Productivity Plus Sweep

The High Productivity plus sweep eliminates the need to change sweeps in season on large acre operations, allowing farmers to meet the short tillage window before seeding and allowing the planters to hit the field sooner. The High Productivity Plus sweep is coated with a strip of iron based carbide and heat treated to improve wear life.

ACT QUICK To Secure A Great Deal

Get **FREE*** Quick-Change Adapters/Springs with the purchase of a set of Perma-Loc™ High Productivity or Tru-Width™ Sweeps.

*Offer valid on qualifying purchases of new John Deere Perma-Loc™ High Productivity or Tru-Width™ Sweeps during select months (as designated by your local dealer) from November 1 2020 thru October 31, 2021. Customer will receive free Quick-Change Adapters, valued between \$6.05 and \$8.00 USD. The John Deere dealer who sold the qualifying John Deere Perma-Loc™ High Productivity or Tru-Width™ Sweeps is responsible for ordering and fulfilling the Quick-Change Adapters. Free Quick-Change Adapters offer cannot be exchanged for cash, and no substitutions are permitted. Offer is in addition to eligible John Deere Rewards equipment discounts. Offer may be discontinued or modified at any time. Offer valid at participating John Deere dealers in the U.S. while supplies last. Exclusions: Governmental agencies, John Deere dealer purchases, John Deere dealer-owned companies, settlements to John Deere dealer-owned rental fleets, competitive equipment manufacturers, and competitive dealers are not eligible.

Tru-Width Sweeps

Available in both bolt-on and Perma-Loc™ styles, the Tru-Width sweeps help maintain cutting width throughout the life of the sweep. The wings are clipped for minimum soil side throw. With its wraparound design, Tru-Width sweeps provide even draft and maximum holding power. Compared to the conventional sweeps, Tru-Width sweeps are the choice for growers who require optimal scouring in sticky or wet soil.

Extended Life Greaseable Bearing

Features & Benefits:

- Allows for limited, seasonal maintenance interval to minimize downtime
- Customized bearing maintenance for specific growing conditions and soil types
- The sealing system features improved contamination resistance

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
AKK22197	Extended Life Greaseable Bearing	Disks: 2600, 2623VT, 2630, 2633VT, and 2660VT Series	\$43.40	\$39.06

Dura-Flex Bearings

John Deere Dura-Flex bearings continue to offer superior quality and consistency that is unmatched by aftermarket will-fit bearings. Introduced in 2005, they are used on disk gang assemblies and rolling baskets up to the 2600 series disks.

Dura-Flex Bearing Features:

- Includes 2-year warranty
- Built using a ball ridging, one-piece, molded nylon cage for perfect alignment
- Engineered with a thicker inner bearing race that creates a stronger cross section to withstand tough loads
- Designed with a heavy-duty bearing so the ball is harder than the rings
- Provides total clearance between rings and rolling elements for optimal load distribution and free rotation to allow for thermal expansion
- Prevents premature bearing failure with smooth rolling bearings
- Contains a chamfer in the lubrication hole to ensure proper grease flow

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW

Maintenance-Free Bearings

Maintenance-free bearings were introduced with the 2600 series disks. They are used on disk gangs and rolling baskets.

Maintenance-Free Bearing Features:

- Includes 2-year warranty
- Increases productivity by reducing the amount of required service time
- Packaged with rust-preventative paper for added protection

Exclusive **Nutrient Knife** has *replaceable points* for easy customization

Cut down on the time and labor costs associated with replacing nutrient knives. With John Deere's knife series, replacement or removal is as simple as removing a roll pin.

With superior wear protection against demanding conditions, the Nutrient Knives' soil-shattering surfaces and parting fins lift and fracture without actual soil inversion and blowout.

Heavy-Duty Nutrient Applicator Knives

- Provide consistent nutrient placement along with superior compaction shattering
- Cast-chrome, pin-on point provides excellent lifting and fracturing without soil inversion or blowout
- Exclusive 5/8-in. x 23-in. tall size for improved trash flow and greater durability

Conventional Applicator Knives

- Chrome-carbide point for excellent wear
- Available as a standard knife or with vapor tube
- Universal mounting hole for All-Makes applications
- Shank is high-strength steel

HOT BUY

John Deere Mower Conditioner Knives

Engineered for optimal wear resistance and designed specifically for John Deere machines, these mower conditioner knives remain sharp and provide long-term, premium cutting quality.

- Made from boron steel and heat treated for maximum strength
- Bend rather than break for safer livestock feed
- Knives are applied with rust-preventative oil or powder-coated for superior protection
- Burrs removed from holes for precise fit

10.5 deg. Knives: Standard knife from factory.

18 deg. Knives: High-twist design aids in maintaining excellent cut quality in downed crops or extremely heavy crop conditions.

Note: Disc Mower Blades might fit Kuhn, New Holland and other makes of Disc Mowers. Please see us for more details.

Tech Tip:

When lubricating, tightening and adjusting, or replacing worn chains, be sure to inspect all the sprockets for worn, rounded, or cupped teeth that may cause your chain to slip and inefficient baling. John Deere sprockets are made to defined specifications to ensure longevity and proper function of the baler.

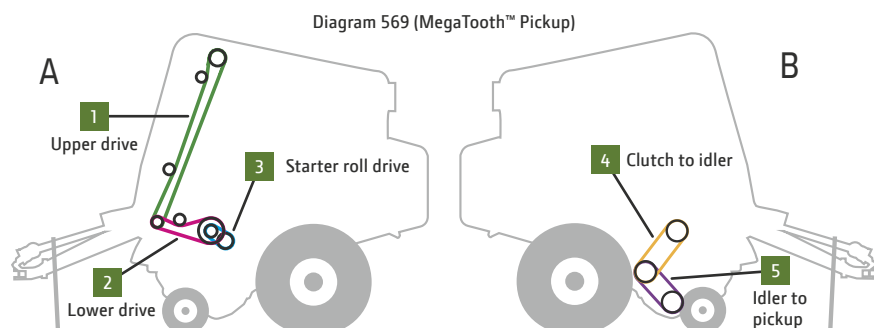

Sprockets

NUMBER	DESCRIPTION	APPLICATION	TYPE	LIST	NOW
AFH205816	Lower Drive Chain Idler Sprocket	6, 7, 8, 9, and Zero Series Balers	John Deere	\$96.42	\$88.71

E90776	Lower Drive Sprocket Chain Guide	6 ft. Tall 6, 7, 8, 9, and Zero Series Balers	John Deere	\$30.57	\$28.12
A-E90776	Lower Drive Sprocket Chain Guide	6 ft. Tall 6, 7, 8, 9, and Zero Series Balers	A&I Products	\$11.85	
E89936	Chain Guide Between Upper and Lower Drive Roll	6 ft. Tall 6, 7, 8, 9, and Zero Series Balers	John Deere	\$42.13	\$38.76

Tech Tip:

The best time to lubricate chains is right after machine use when the chains are still warm. The lubricant will cling to the chains and be drawn between the pins and rollers as they cool. Lubricating daily will help prevent crop residue and dirt buildup.

Precut Baler Chain

TY26350

Chain and Cable Lubricant

- Penetrates rapidly
- Ideal for all types of exposed chains
- Reduces friction and wear
- Resists rust and corrosion
- Product is free of ozone-depleting chlorofluorocarbons (CFCs)
- Foam action reduces chain throw-off

*Diamond Chain®:

- Heat-treated using carburizing furnaces set to precise temperatures • Uses both a proprietary lubrication formula and hot-dip application process on all lubricated roller chains
- Uses proprietary shot-peening machinery developed and custom-made to ensure consistent intensity and coverage of components during the shot-peening process
- All chain is preloaded to approximate the recommended maximum loading during usage. This firmly seats pins and bushings and helps eliminate any initial elongation

Round Baler Wear Parts Box

In the field and need a part for your baler? With the John Deere Round Baler Wear Parts Box, you will have most of what you need to get back to baling fast. Whether you need something for your pickup, belts or bearings, it is probably in the Box. Light enough for two people to pickup and put in the truck, means you can take it to the field with you and have it when and where you need it. Ask your dealer about customizing this box for your personal needs and for older model or 5-ft. diameter balers.

BE32698 Round Baler Wear Parts Box For 8, 9, and Zero Series 6-ft. Diameter Round Balers
List Price – \$2,484.90 **Sale Price – \$2,286.11**

Belt Laces and Pins

DiamondTough™ Baler Belts

Introduced with the John Deere 8 Series balers, DiamondTough baler belts feature:

- 1) Nylon-fill cords that provide superior puncture and tear resistance, along with excellent fastener-holding strength.
- 2) Excellent resistance to punctures and tears by inserting heavy-duty polyester straight-warp cords between the fill cords.
- 3) Polyester surface warp cords that resist abuse and increase flexibility over small baler rollers.
- 4) Nylon binder warp cords that help promote fabric integrity and abuse-resistant properties.

DiamondTough™ Pro Baler Belts

Our DiamondTough Pro baler belts are more wear- and tear-resistant than many belts in the industry and are built with the following features:

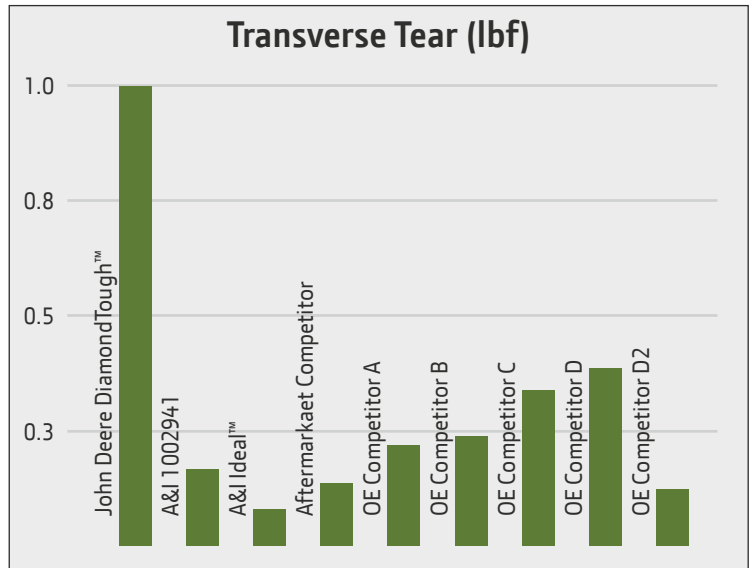

- Built with a special rubber compound that offers excellent resistance to cutting, gouging, and abrasion—the same compound used in tough conveyor belt applications
- Provide better performance in tough baling conditions

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW

Transverse Tear

The rectangular belt sample is cut in the transverse direction. After belt ends are clamped, the test machine applies tension and tears through the remainder of the belt sample.

This test is an indication of the belt's ability to resist tears initiated by the belt running into the conveyor structure or punctures created by impact or trapped material between the belt and the pulleys. High strength warp cords in the John Deere DiamondTough™ belts assist in providing superior transverse tear resistance.

DiamondTough™ Baler Belts

Work harder, smarter, longer

John Deere DiamondTough baler belts are carefully crafted to:

- Handle heavy shock loads
- Maintain consistent belt length
- Offer improved reliability and belt life, minimizing downtime
- Be more puncture- and tear-resistant than other belts
- Warn you when it's time to replace them

Better inside

Patented triple-weave design incorporates nylon, polyester, and monofilament cords. DiamondTough belts are more puncture- and tear-resistant, improving belt life and reducing downtime.

Better outside

DiamondTough baler belt's self-cleaning, three-step tread design offers benefits at every layer, including wear indicators.

- **Top step:** Provides excellent stem contact during initial wear stages.
- **Middle step:** When the top step is worn, bale starting may be adversely affected in certain crops.
- **Bottom step:** When the top two steps are worn, replace the belt.

Ask us for the correct fit for your round baler today.

John Deere GREEN-GARD™

John Deere GREEN-GARD Hay Preservative is a buffered, propionic acid preservative that helps retain the freshness, color, and quality of the hay by stopping mold growth, heating, and spoilage.

- Bale when you're ready at moisture up to 30%
- Non-corrosive buffered formula won't harm expensive baling equipment, the user, or livestock
- Treated hay is greener, higher in feed value, and can be stored for years while looking and feeding as well as when it was baled

Advanced Hay, Straw, and Silage Tester

This newly advanced Hay, Straw, and Silage Tester is the most efficient probe on the market. The 20" stainless steel probe and tip provides accuracy, versatility, and durability. The SW07305 will measure push force to determine whether it's a high- or low-density bale, then adjusts the moisture result for more precise accuracy.

Features:

- Measures 8–72% moisture content
- Temperature range 32–185°F (0–85°C)
- Automatic Density Compensation
- Choice of hay or straw bales, separate mode for silage
- Memory can store results up to 64 bales with a total of 1,000 savable moisture and temperature readings
- Continuous reading as you probe bale

Hay Core Sampler

Developed by farmer for farmers. The Hay Core Sampler ensures fast and contamination-free sampling from hay bales for testing purposes.

Features:

- Sampling depth is 20"
- Sampler can be used with either a 3/8" or 1/2" drill. 1/2" recommended for best results
- The inside diameter of the shaft is 7/8" allowing samples to stay loose for easy bagging with the cleanout rod between samplings
- Includes cleanout rod for pushing hay into provided zip-lock sample bag
- Shaft and connections are made of stainless steel
- Replaceable core sampler tip

Corn Head Parts

High Moisture Kits

To minimize the chance of kernel damage when harvesting high-moisture corn (greater than 25 percent moisture), an insert can be installed in the auger floor that will close the gap between the floor and the auger flighting. While not required for use with the insert, a second kit can be installed that provides a lower auger position to further enhance grain quality.

NUMBER	DESCRIPTION	TYPE	LIST	NOW

AutoTrac™ RowSense™ Feeler Rods

AutoTrac RowSense, an innovative global positioning system (GPS) steering system, reduces overlap and fatigue during harvest.

Feature Benefit:

- Continue harvesting in down crop and dusty conditions
- Increases acre-per-hour potential and reduce grain loss
- Enhances operator comfort while reducing stress

BXE10423	Storage Stand	\$250.80	\$230.74

Trigger a chain reaction

Make your corn head stronger—and last longer—with **RowMax**, a new retrofit solution from John Deere.

Designed exclusively for the 700C/FC corn heads and available as a retrofit for MY12-17 600C/FC corn heads, RowMax **boosts row unit life by up to 50%** with an advanced gathering chain featuring 12 additional links, two more sprocket teeth, and upgraded solid alloy bushings. In addition, if you replace your worn stalk rolls with opposed or intermeshing stalk rolls, you'll get 25% more wear life thanks to an improved wear coating.

Cover more acres—and lower lifetime ownership cost—by upgrading your cornhead with an innovative, RowMax retrofit kit from John Deere.

Crop Feeding Enhancements

Feed Drum Anti-Wrap Kit – This kit is recommended for tall, damp crop conditions to reduce drum wrapping. The attachment consists of two brackets that mount near the outer edge of the feed drum and reduce the likelihood of crop wrapping the drum.

Center Section Seal Kit – This kit minimizes grain loss when direct-cutting canola and can be utilized for other small grain crops with up to 45 percent decrease in losses from the center feed section compared to previous models.

BXE10851	600D, 700D Series	\$722.70	\$664.88

How To Select The Right Concave

With the correct concave configuration, you can enhance combine performance in a wide variety of crops and conditions. Use the concave guidelines below to determine how you can increase the threshing capacity of your **John Deere STS or S Series combine**. For specialty and seed crops, always use the best-rated concave configuration.

CROP TYPE	CORN	SOYBEANS	SMALL GRAINS (WHEAT, BARLEY)	RICE
SMALL WIRE	NOT RECOMMENDED	NOT RECOMMENDED	BEST ^(4,5)	NOT RECOMMENDED
LARGE WIRE	GOOD ⁽¹⁾	GOOD	GOOD ⁽⁴⁾	BEST
ROUND BAR	BEST	BEST ^(2,6)	AVERAGE ⁽³⁾	NOT RECOMMENDED

CROP TYPE	POPCORN, FOOD CORN	MILO/SORGHUM, SUNFLOWERS (CONFECTION)	SUNFLOWERS (OIL)	CANOLA
SMALL WIRE	NOT RECOMMENDED	NOT RECOMMENDED	NOT RECOMMENDED	BEST ⁴
LARGE WIRE	NOT RECOMMENDED	BEST	BEST	NOT RECOMMENDED
ROUND BAR	BEST	AVERAGE ⁽²⁾	AVERAGE ⁽²⁾	AVERAGE

1. Large-wire concaves are not recommended for corn with moisture above 25 percent. Matting of green, leafy material significantly reduces separating capacity.
2. Optional threshing inserts are available to improve threshing ability in tough threshing varieties or conditions.
3. Optional concave threshing inserts are required in the first concave to improve threshing ability. Tough threshing conditions may require additional threshing inserts in the second and third concave sections.
4. Optional concave cover plates are available to improve threshing ability and sample cleanliness (white caps, snapped heads, unthreshed pods). Recommended for tough, damp, hard-to-thresh conditions only. Removal of every other wire is recommended for best grain quality results.
5. Optional Kondex® MaxThresh™ Concave in the first section to improve threshing.
6. Optional Kondex® MaxRound™ Concave in the first section to improve threshing.

See following two pages for parts numbers and pricing.

THRESHING INSERTS

KONDEX® MAXTHRESH™ CONCAVE

KONDEX® MAXROUND™ CONCAVE

STS- and S-Series Concaves

- Small-wire concaves are standard on small-grain combines and are recommended for use in wheat, barley, and other cereal crops. Additionally, they are recommended for use in specialty crops such as grass seed.
- Large-wire concaves are standard on rice combines and available as an option on corn and small-grain combines. They are recommended for rice, sorghum, soybeans, and corn.
- Round bar concaves are standard equipment on corn combines and are recommended for use in corn and soybeans. Additionally, they are recommended for use in specialty crops such as edible beans and food corn.

Concaves listed below come in sets of three.

*Not available for 9560 STS, 9570, or S550 Combines.

MaxRound Shown

Concave Cover Plates

The sectionalized concave covers help to provide additional threshing in the concave area when harvesting hard-to-thresh-type cereal crops. They can also help to reduce white caps and increase grain tank cleanliness.

Feature benefits:

- Assists in threshing wheat, barley, clover, flax, and some grass seeds in tough conditions for increased combine performance
- Installs on the bottom side of the concave without tools
- Covers help with even distribution of material in the cleaning shoe

NUMBER	DESCRIPTION	LIST	NOW
BH84534	Small Wire and Large Wire Covers	\$662.20	\$609.22
BH84535	Round Bar Covers	\$124.30	\$114.36

Concave Interrupters - Small Wire Concaves

The concave interrupters may be installed in the first concave section. The concave interrupters are recommended to be installed if increased threshing is still needed after the covers have been installed.

Feature benefits:

- Increase threshing in tough crops to clean up grain tank sample
- Recommended to be installed with Shelbourne stripper headers
- To be used with covers

NUMBER	DESCRIPTION	LIST	NOW
AH202021	Small Wire Concave Interrupters	\$106.30	\$97.80

Separator Grate Covers

Separator grate covers are used to reduce chaff load and alter distribution of material to cleaning shoe. Up to 20 covers may be used. Covers are recommended in small grains but should not be used during corn harvest. Part numbers BXE10645 (Standard Grate) or BXE10646 (HD Grate).

NUMBER	DESCRIPTION	LIST	NOW
BXE10645	Covers (Set of 4)	\$152.90	\$140.67
BXE10646	HD Covers (Set of 20)	\$152.90	\$140.67

Heavy Duty Separator Grates with Interrupters

The HD separator grate is a welded separator grate while the standard separator grates are single-piece casted steel.

Feature benefit:

- HD separator grates are stiffer and more robust than the standard separator grates for increased performance in tough threshing crops like tough straw and green stemmed beans
- The HD separator grates support separation, especially in sticky, tough straw conditions, and improve overall loss performance
- Separation is intensified with the two rows of fingers designed as interrupter bars which extend into the crop flow

NUMBER	DESCRIPTION	LIST	NOW
AXE44522	HD Grate	\$2,057.93	\$1,893.30

FORAGE HARVESTER PARTS

VALID 2/1/21-2/28/21

Get your machine primed for **better performance** and **greater uptime** during Chopper Days. Throughout the month of February, receive **15% OFF** parts for pull-type or self-propelled forage harvesters (5000, 6000, 7000, 8000 and 9000 Series models). Take advantage of the **lowest prices of the year** on key wear parts, including:

- Feed Roll Wear Strips
- Cutterhead Knives
- Kernel Processors
- Belts
- Transition Chutes
- Blower Paddles
- Spout Liners
- Rotary Head Parts
- Hay Pickup Parts

Multi-Use Account

**No-Payments/No-Interest
Financing Available**

Note To Dealer: Offer valid when customer purchases parts for pull-type or self-propelled forage harvesters (5000, 6000, 7000, 8000 and 9000 Series models). To receive reimbursement and for program rules, visit <http://coop.deere.com/redemptions/redemptions.aspx> and select "80295 15% OFF Forage Harvester Parts" You will need sales invoice, transaction information to complete the reimbursement claim. March 15, 2021 is the last day to claim redemption.

¹Offer valid on qualifying purchases made from a participating U.S. John Deere dealer or online via a participating dealer's online portal between February 1, 2021 and February 28, 2021. Get 15% off the agreed upon purchase price of parts for pull-type or self-propelled forage harvesters (5000, 6000, 7000, 8000 and 9000 Series models) to be applied to the total before applicable taxes, shipping rates, and delivery charges. Some restrictions apply. Contact participating dealer for details.

²Financing offers available with Multi-Use Account. Subject to terms and dealer participation. Contact your local John Deere dealer for details.

Electronics Repair & Return Program

Skilled technicians. Quick turnaround. Competitive pricing. It's what you need when electronics go on the fritz and what you get from Electronics Repair & Return by John Deere Reman.

Now available, this convenient service offers you a true John Deere solution for the OEM repair of some of your most important electronic components. And better yet, it's all backed by a valuable 12-month Limited Warranty** that's sure to please.

Turn to John Deere for electronics repair and be rewarded with fast, reliable service to get your machine up to speed again.

**The John Deere Reman Electronic Repair & Return 12-month Limited Warranty covers specific repairs on each component. John Deere Reman will repair or replace unit during the applicable warranty period but is not responsible for any labor costs associated with the removal and installation of the components.

REPAIR LEVEL	DESCRIPTION
Evaluation Charge	For all components listed below, the cost to evaluate the repair will only be charged when component can not be repaired, or if customer decides not to complete the recommended repairs.
StarFire 3000 and 6000	
Primary Inspection and Repair	Replace damaged dome with original-equipment John Deere Parts. Includes light pipe and decals. Unit will be fully functionally tested.
Comprehensive Inspection and Repair	Repair all points of failure to hardware within the SF3000 or SF6000 receiver. John Deere original equipment testing, processes, and procedures used to bring the receiver back to like new condition. Includes electronic components, connectors, cables, and solder reflow, new dome.
GreenStar 1800 Display	
Complete Repair	Repair all hardware failure points within the 1800 Display. John Deere original equipment testing, processes, and procedures used to bring 1800 Display back to like new condition. Includes electronic components, connectors, audio alarm, housings, and solder reflow.
GreenStar 2600 Display	
Complete Repair	Repair all hardware failure points within the 2600 Display. John Deere original equipment testing, processes, and procedures used to bring 2600 Display back to like new condition. Includes electronic components, connectors, membrane switch, card reader, audio alarm, touchscreen replacement, housing, and calibration.
GreenStar 2630 Display	
Complete Repair	Repair all hardware failure points within the 2630 Display. John Deere original equipment testing, processes, and procedures used to bring 2630 Display back to like new condition. Includes electronic components, connectors, membrane switch, USB cover, audio alarm rear housing, air-gap LCD touchscreen with front housing, bezel assembly, and calibration.
GreenStar 4640 Universal Display (10 inch)	
Screen Replacement	Replace broken touchscreen glass using original equipment John Deere Parts and functionality test.*
Screen and LCD Replacement	Replace touchscreen and LCD components with original John Deere Parts and functionality test.* <small>(*Both repair options include speaker repair.)</small>

See your Authorized John Deere Dealer for pricing and availability of getting your unit repaired today.

Take a bigger bite out of earthmoving jobs.

Thicker and longer than standard blades, these John Deere blades help power through the toughest conditions. Three different widths and a variety of configurations are available on both carry-all and ejector scrapers. Plus many segments are reversible for twice the life.

Scraper Parts

Straight or Standard Configuration:

Our straight blade configuration comes standard on all John Deere scrapers. They sit flush with the ground and are perfect for precision land leveling, haul road maintenance, and loading sandy material.

Tooth Configuration:

Our tooth configuration is a factory option that allows the scraper to break up material as it enters the bowl. Teeth work well in hard and compact soils and help prevent material from slabbing as it cuts.

Drop Center Configuration:

Our drop center configuration is a popular factory option and the best choice for the toughest soil conditions. The compound blade depths help break down sticky clays and maximize loads.

Alternating Drop Center Configuration:

Alternating drop centers are great for intermediate-to-tough materials like dry clay. This configuration works well when material conditions are constantly changing.

Tooth Drop Center Combination Configuration:

The tooth drop center combination works well in a broad array of soils, particularly light-to-intermediate types where material conditions change frequently.

Harvest Identification, Cotton Pro

Harvest Identification, Cotton Pro is the next generation of round module tracking. Features include the documentation of module moisture, weight, editable features, and other features. Cotton module weighing provides on-the-go cotton module weights to the cab display that enables easier yield monitor calibration for more accurate harvest yield data and agronomic decisions. Cotton module moisture sensor provides a vital role in preserving cotton quality and maintain high quality standards.

AutoTrac™ VISION NOW AVAILABLE FOR TRACTORS

AutoTrac™ Vision enables the tractor to follow the actual planted crop rows

- Decreases crop damage
- Reduces operator fatigue
- Improves overall productivity

Ideal for applications such as:

- Side-dressing fertilizer
- Row cultivation
- Strip Till/Ridge Till

Machine Compatibility:

- Tractor models 7630, 7730, 7830, 7930, 8X30/8X30T, 7R, and 8R/8RT

*\$500 OFF the agreed upon purchase price and dealer installation of AutoTrac Vision camera kit from an authorized U.S. John Deere dealer between December 1, 2020 and March 31, 2021. Dealer Participation may vary. Other restrictions may apply. Offer cannot be combined with any other offer and may be modified or discontinued at any time. See your participating John Deere dealer for details.

Hydraulic Upgrade Kits For 9 Series

Coupler Conversion Kits – ½" to ¾" High Flow Couplers

The conversion design is exclusive to John Deere and converts the couplers on a standard flow SCV from ½" couplers to ¾" couplers. This conversion is an economical solution to improve the transfer of hydraulic horsepower from the tractor to the implement. Convert 1 to 6 SCV couplers on a single stack tractor.

This kit is ideal for operators with:

- High hydraulic demand implements, such as large air seeders and planters
- Implements that require ¾" couplers
- A desire to improve implement raise/lower cycle times for faster headland turns.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
Coupler Conversion Kits – ½" to ¾"				
BRE10486	¾-Inch Coupler Adapter Conversion (converts 1 SCV)	9R, 9RX, 9X30 Tractors (SN 13001 - wheel, SN, 911011 - 2T) without rear 3-point hitch and BOSCH CAN SCV's only	\$913.00	\$803.44

Water Pumps

With John Deere, your dealer has the right water pump part to meet any budget. Genuine John Deere water pumps are your best choice for longevity and performance.

John Deere Reman water pumps are remanufactured to the current John Deere specifications. The Reman pumps are completely disassembled, and bearings and seals are replaced and tested to verify integrity. In addition to the OE and the John Deere Reman offerings, your dealer also carries A&I Products water pumps, which offer a quality aftermarket product at an economical price.

Sealed for Long Life

Water pump seals have two mating surfaces that take a lot of abuse and are susceptible to wear and failure when exposed to contaminants in the coolant. Genuine John Deere water pumps use hard tungsten carbide on both seal surfaces to provide maximum protection and component life.

Tech Tip:

John Deere Cool-Gard™ II is nitrite free to resist aluminum corrosion and contains additives to minimize cavitation damage. Click on or visit this web link for more information:

Turbochargers

John Deere turbochargers are designed for your John Deere engine to provide optimum performance. John Deere Reman components are disassembled, cleaned, and inspected. Bearings and seals are replaced and the turbine and shafts are balanced. Mounting surfaces are machined to ensure proper mating surface. We also offer A&I Products for an economical solution. That's the value of choice.

John Deere 30–60 Series Row Crop Tractor Parts

If you own a classic John Deere Sound-Gard® body tractor, we have the best selection of parts to keep your workhorse running its best. If you're looking for value at a lower replacement cost, ask about our extensive offering of A&I Products. If you want the genuine John Deere quality, but at a savings, look to John Deere Reman. John Deere Reman parts are not rebuilt or reconditioned—they are inspected, tested, and remanufactured to the original performance criteria. If you won't settle for anything but the best, go with John Deere OEM replacement parts. No other parts can surpass the fit, performance, and longevity of the original equipment replacement parts.

Note: For parts that have a core charge, the price shown is the exchange price after core has been returned.

Step Kits

It's easy to get on and off your "everyday" John Deere tractor with this three-position, adjustable step kit. Bolts securely to the tractor frame and battery box in just 30 minutes. Features wide steps with serrated-tread design. Compatible with most loaders, saddle tanks, and other tractor-mounted equipment.

NUMBER	APPLICATION	LIST	NOW

REBUILD WITH REPOWER

If your 5-, 6-, 7-, 8-, 9-, or older row crop tractor series needs a major repair, you can now fix it thanks to a limited-time offer from John Deere Financial. The **all-new Repower Program** provides No-Payment/No-Interest (NP/NI) or low-cost financing for new and Reman engines, transmissions, axles, and final drives—as well as repairs to front independent link suspension. But that's not all because you can also finance work to cab interior, hydraulics, engine accessories and exterior finishes. **Qualifying models include:**

- 5000–5025, 6000–6030, 7000–7030, 8000–8030, 9000–9030, and Older Row Crop Tractors.

Take advantage of this special financing opportunity through **October 31, 2021** when you use your Multi-Use Account. **Ask us about the Repower Program today.** For more information on the John Deere Reman benefits and component exchange process go to this web link. <https://www.deere.com/en/parts-and-service/parts/remanufactured/>

Repower Program Finance Options

Minimum Purchase

365 Days NP/NI (12 Months)¹

\$10,000

Fixed 1.9% with 24 Equal Monthly Payments²

\$10,000

Fixed 2.9% with 36 Equal Monthly Payments³

\$10,000

¹Subject to John Deere Financial approval and John Deere dealer participation. Unless otherwise specified, programs are for purchases on agricultural and commercial Multi-Use Accounts only. Minimum finance amount is required. After Promotional Period, interest charges will begin to accrue at the Multi-Use Account Rate. Programs subject to change, without notice, at any time. Offer valid November 1, 2020–October 31, 2021.

²Offer valid on qualifying purchases made between November 1, 2020 to October 31, 2021 and is subject to approved credit on a Multi-Use Account, a service of John Deere Financial, f.s.b. For agricultural and commercial use only. Fixed 1.9% APR with 24 equal monthly payments. Payments are required during and after the promotional period. After the promotional period, interest charges will begin to accrue at the regular Multi-Use Account rate. Minimum \$10,000 purchase required. Available at participating merchants, see your local merchant for complete details.

Extended Warranty for John Deere Reman Engines*

Starting February 2020, optional extended warranty terms for John Deere Reman engines can be purchased. Coverage options are between 2-year/2,500 hours and 5-year/4,000 hours. To qualify for the program, the engine must be dealer installed and the customer must purchase the extended warranty contract within 90 days of engine installation. Contact your John Deere Dealership for complete details.

*Complete engines only.

John Deere Reman is Remanufactured, not Rebuilt visit this web site for more information. <https://www.youtube.com/watch?v=IY5Hd4ZciPI>

John Deere OE Engine Overhaul Kits

Here are some examples that make the John Deere OE engine overhaul kits the “Best” choice. John Deere liners are heat-treated to a precise hardness and depth to increase durability and life. Proper heat-treat hardness provides a hard surface with good wear characteristics. Pre-assembled piston liner kits eliminate the chance for broken or improperly installed piston rings, which can cause power loss, oil consumption, and excessive wear, leading to seized pistons and potentially premature engine failure. Fiber-reinforced piston bowl rings provide more than twice the yield strength of aluminum alloy and increase the operating pressure and temperature range without the risk of cracking. John Deere uses two layers of metal alloy on the ID face of the main bearings to protect them from the constant rotational forces of the crankshaft.

Standard Kit:

- Rod, main, and thrust bearings
- Thrust washers
- Oil pan split gasket
- Factory assembled piston/liner kits
- Liner packings
- Front and rear seals
- Gasket rings
- Snap rings

Expanded Kit:

- Standard kit contents
- Rod bolts and bushings
- Piston pins
- Camshaft bushings

A&I Engine Overhaul Kits

If you're looking for a quality offering at an economical price, we also offer A&I Engine Overhaul kits for John Deere and competitive machines. A&I works with quality suppliers to ensure that all parts included in an A&I engine kit perform and fit as they were meant to. Our engine kits offer: cam ground pistons, ni-resist inserts, spun cast liners, and cylinder components designed as a package.

Note: In-Frame Kits typically include Pistons, Liners, Rings, Rod Bearings, & Gaskets and Major Kits typically include Pistons, Liners, Rings, Rod Bearings, Rod Bushings, Rod Capscrews, Cam Bearings, Main Bearings, Thrust Bearings/Washers, Crankshaft Seals, and Gaskets.

Crankshaft Dampers

Did you know your crankshaft damper has a service life?

When torque is applied, engines generate harmful vibrations. A damper reduces these vibrations, which extends belt life and reduces gear wear. Our engine damper consists of an inertia ring, elastic member, and hub assembly attached to the crankshaft. John Deere recommends changing the crankshaft damper at 4,000–5,000 hours or 5 years, whichever comes first in some applications. Contact us to see if your crankshaft damper needs replacing today.

Replace damper as recommended to avoid costly repairs such as potential crankshaft breakage or front engine cover damage.

- Dual Dampers – replace both at the same time

Important Repair Note:

- When required use new cap screws when installing the damper to the crankshaft and fan pulley to damper.
- Damper can be damaged by dropping it or striking it with a hammer during installation. Use the proper procedure and tools listed in the technical manual.

Some of these tractor models use a dual damper and will need RE57604 as well as RE520465 or RE538143 depending on your tractor model.

Transmission Torsional Damper

To avoid unplanned downtime, John Deere recommends replacing the Transmission torsional damper every 4,500–5,000 hours or every 60 months whichever comes first. This damper transfers engine power to the input shaft of the transmission. When this damper fails it can result in vibration, noise, transmission damage, and loss of ability for the tractor to move.

9.0L Vari-Cool™ Fan Drives

The updated driver and driven assemblies will improve serviceability and reliability of the fan drive assembly. The new dry driver and dry driven assemblies require no grease. The customer will no longer need to lubricate these two components once the update is complete. To maximize the reliability of the fan drive system, we encourage customers to replace the driver and driven assemblies at the same time. A worn driven assembly will potentially reduce the expected life of a new driver when only the driver is replaced.

Fan Drive Maintenance YouTube® Videos

Maintenance of the Vari-Cool™ Fan drives is important to keep the system running at optimal performance and prevent possible failures. Please make sure to view the 3 new videos created and made available on YouTube.

Hydraulic Quick Couplers

Hydraulic quick disconnect couplers are available in both standard and deluxe versions. The standard couplers allow coupling and uncoupling of hydraulics with pressure from the implement side. The deluxe couplers allow for coupling and uncoupling of hydraulics with pressure from the tractor and/or implement side. Genuine John Deere parts and aftermarket alternatives from A&I Products. Our extensive selection of parts means you get the **right part** with the **right fit** all at the **right price**.

Hydraulic Pump Upgrades for 8000–8030 Series Row Crop Tractors

Upgrade today with efficiency and increased capability. New implements such as air seeders, tillage equipment, and planters may require more hydraulic flow to perform effectively. If your current planter raise and lower times are too slow, or you are using a system with 3 or more vacuum motors increased hydraulic flow may improve performance.

Application Example:

A John Deere 1790 12 row CCS planter equipped with vacuum seed meters requires at least 30 gpm @ 2900 psi for acceptable raise and lower times (about 7 seconds). The ideal hydraulic pump setup for 8000–8030 Series Tractor would be the larger hydraulic pump with large planters or air seeders.

The hydraulic pump flow available is directly affected by engine speed, how many SCV's are being used at the same time, as well as other factors. Refer to your operator's manual for more information in section 60 – Determining Total Flow Demand. Contact your local John Deere Dealer to determine which pump is on your tractor and if a hydraulic pump upgrade will provide the solution you need.

Hydraulic pump options available for 8000–8030 Series Tractors:

- 30 gpm (45cc) standard or 38 gpm (57cc) optional for 8000 Series Tractors
- 33.5 gpm (45cc) standard or 42.5 gpm (57cc) optional for 8010 and 8020 Series Tractors

Note: A pump drive gear ratio change was introduced for the 8010 series providing increased pump flow using the same pump sizes as the 8000 Series Tractors.

- 44 gpm (63cc) standard or 60 gpm (85cc) optional for 8030 Series Tractors

The benefits of installing a high capacity hydraulic pump:

- Higher flow at lower engine RPM = Better Fuel Economy and Less Noise
- Allow faster multiple hydraulic functions

iMatch Cat. 1 Quick Hitch

iMatch Quick Hitch Category 1 with Adjustable Top Hook. Includes One Set of Bushings (LVU15507).

LVB25976 LIST – \$383.90 **NOW – \$326.32**

4010, 4110, 4115 Compact Tractor Hood

Make your tractor look new again, from the top down.

LVU11489 LIST – \$628.56 **NOW – \$502.85**

ROPs Warning Lights Brush Guards (1E–4M and older Compact Tractors)

Will help protect your warning lights from damage caused by low branches or trees. For open-station tractors only. Two guards included in each kit.

BLV10400 LIST – \$84.70 **NOW – \$67.76**

3-Point Hitch Downforce Kit (4R Tractors)

This kit provides additional down-pressure to the 3-point hitch for ground engaging tasks.

BLV10968 LIST – \$1,150.60 **NOW – \$920.48**

Ballasting your Compact or Utility Tractors

When using a loader or rear implement, front and rear ballast provide a counterweight to maximize overall stability of the tractor. Proper Ballasting helps keep all four wheels on the ground to improve the tractor's performance. Proper rear ballast will maximize the life of the front wheel drive axle, as well as other drivetrain components. A 3-point hitch-mounted implement can also be used for rear ballast, but it must meet the specified weight requirement. A loader can serve as front ballast, but does limit your turning radius and clearances.

John Deere Oil Filters + Plus-50™ II Engine Oil = 500 Hours* Free of Downtime

When you pair John Deere engine oil filters with premium Plus-50 II engine oil, there's no stopping you for 500 hours! That's because John Deere engineers design our maintenance products to work hand-in-hand to defend your machine from harsh conditions and wear. Plus, both John Deere filters and Plus-50 II are ready to protect engines.

Don't take your equipment to the field without this winning combo. Trust John Deere filters and oil to help your machines last.

*500-hour drain interval applies to diesel John Deere engines when the following criteria are met: 1. Engine is equipped with an extended drain interval oil pan, 2. Machine operates with Plus-50 II engine oil API CJ-4/SN, 3. Machine uses a John Deere oil filter, 4. Machine uses only Ultra Low Sulfur Diesel fuel.

STEER CLEAR

OF ANNOYING ALLERGENS

NEW! ANTI-ALLERGEN CAB AIR FILTERS

PARTICLE FILTER LAYER

Protects against harmful PM2.5* pollutants

PREMIUM ACTIVATED CARBON LAYER

Reduces unpleasant odors and harmful greenhouse gases

BIOFUNCTIONAL LAYER

Traps allergens and reduces potential for mold and bacteria growth on filter

*PM2.5 describes fine inhalable particles, with diameters that are generally 2.5 micrometers and smaller.
(Source: United States Environmental Protection Agency Website)

Avoid sneezing, runny nose and watery eyes with new Anti-Allergen Cab Air Filters from John Deere. Available for new and late-model **tractors, combines, sprayers** and **other machines**, our innovative product features three active layers to help keep allergens out and prevent the growth of mold and bacteria so you have fresher air all day long.

Protect your trucks and All Makes equipment with the advanced technology of Fleetguard® filters.

Today's trucks and competitive machines face more challenges than ever before, operating under higher heat and more demanding conditions. Luckily, Fleetguard is ready to take on tough conditions and protect your vehicle, no matter the brand! Example engine oil filtration, using advanced StrataPore® technology. Fleetguard's synthetic, multi-layered StrataPore media provides higher capacity, greater efficiency, and less restriction than traditional media. And thanks to our wide range of Fleetguard replacement filters that meet OEM specifications, you can take advantage of StrataPore technology for almost any diesel engine. We offer Fleetguard filters for almost every make of equipment. Look for Fleetguard air, fuel, and hydraulic filters for superior protection, too. **See us today!**

Lube: Fleetguard spin-on lube filters meet or exceed OE performance requirements and the new challenges of modern engine technology. StrataPore media as introduced in the full flow section to work in combination with the stacked discs to remove the smallest dirt particles, which cause the most engine damage. This configuration reduces engine wear by as much as 60% in some applications. The pairing of NanoNet® media with StrataPore media has created a new breed of lube filter that offers higher efficiency, higher capacity, and the best cold flow vs. restriction available.

Air: Fleetguard air filters deliver the cleanest combustion air possible for On & Off Highway engine applications. Nanofiber, when combined with our enhanced pleat design, delivers optimal air filter performance for superior engine protection and lower equipment operating costs. Magnum RS® radial seal primary and safety air elements provide real-world value. Magnum RS offers unique features that provide significant benefits for longer service life and optimum performance when the job demands it.

Fuel: Fleetguard fuel filters deliver best-in-class performance using proprietary StrataPore or NanoNet media which remove harmful contaminants. Each gradient media layer offers unique properties that tailor performance based on specific applications requirements. Use of Fleetguard on-engine filters ensures optimal fuel system protection.

Hydraulic: We also offer a comprehensive replacement hydraulic filter line for many competitive filter part numbers. Through the right choice of filter media, Fleetguard hydraulic filtration products achieve higher efficiency and dust capacity with lower pressure-drop characteristics than the competition. This prolongs component life, which saves you money in the long run. The proper oil-cleanliness level for critical clearances on components in the hydraulic fluid stream is the key.

ONE
ENGINE
OIL

ON THE FARM.
IN THE FIELD.
ON THE HIGHWAY.

JOHN DEERE

ONE ENGINE OIL FOR ALL.

Not everybody realizes it, but it takes a special breed of oil to keep engines running in off-road conditions. In fact, it takes John Deere Plus-50™ II Engine Oil. That's because Plus-50 II is specially formulated to keep engines running efficiently and to protect them in extreme off-road conditions. Tractors. UVs. Trucks. You name it. Off the road? No problem. On the highway? You betcha. Let John Deere Plus-50 II Engine Oil be the one oil on your farm. **Contact your dealer today.**

**JOHN DEERE PLUS-50™ II OIL.
KEEP RUNNING.**

NOW AVAILABLE

**New Synthetic All-Season Engine Oil.
Ask your dealer about Plus-50™ II SAE 5W-40.**

Use only as directed. Please read safety and warning information. John Deere, the leaping deer symbol and John Deere's green and yellow trade dress are the trademarks of Deere and Company.

Plus-50™ II Premium Synthetic Engine Oil: SAE 0W-40 & SAE 5W-40

Plus-50 II Premium Engine Oil offers two synthetic engine oil options to provide support on every farm, for every season. Our SAE 0W-40 option is a full synthetic PAO (Poly Alpha Olefin) based oil. Performing at a premium level in all climates, Plus-50 II SAE 0W-40 is specifically developed for those operating in extremely cold conditions.

Our newer Plus-50 II SAE 5W-40 option is an all-season synthetic engine oil that provides excellent performance for customers who operate in extremely cold or hot conditions and want to maximize engine life performance in modern engines. SAE 5W-40 is also backwards compatible with our legacy machines as well.

Available For Order

0W-40: 1 qt. (946ml) | 1 gal. (3.78L) | 5 gal. (18.9L) | 55 gal. (208L) | 275 gal. (1040L) tote
5W-40: 1 gal. (3.78L) | 5 gal. (18.9L) | 55 gal. (208L)

Check with your dealer for part number and pricing information.

Plus-50™ II Premium Engine Oil: 10W-30 & SAE 15W-40

Plus-50 II 10W-30 and SAE 15W-40 are made made with a unique additive system that offers premium protection from deposits and wear. Exceeding API service category CK-4/SN and high level performance under John Deere's Severe Off-Road Dyno test, this level of engine oil is excellent for diesel engines.

Available For Order

10W-30: 1 qt (946ml) | 1 gal (3.78L) | 5 gal (18.9L) | 55 gal (208L) | 275 gal (1040L) tote
15W-40: 1 qt (946ml) | 1 gal (3.78L) | 2.5 gal (9.46L) | 5 gal (18.9L) | 30 gal (113.6L) | 55 gal (208L)

Check with your dealer for part number and pricing information.

Plus-50™ II Features & Benefits:

- Full fleet solution
- Compatible with both current, legacy and competitive machines
- Proven high-level performance in low-emission IT4 and FT4 engines
- Tested and developed for severe off-road applications
- Formula specifically created to stop engine wear, corrosion, sludge, soot, varnish and oxidation
- Drain interval extension up to 500 hours in a John Deere engine, using a John Deere filter.*

Break-In™ Plus Engine Oil

Break-In Plus is a special purpose engine oil developed for use in rebuilt/remanufactured and new John Deere engines during the initial break-in period/oil service interval. During the initial operation of a new or rebuilt engine using Break-In Plus, change the oil and filter between a minimum of 100 hours and a maximum of up to 500 hours. Check your operator manual for the maximum interval recommendation.

Product Features & Benefits vs Standard Break-In Oil:

- Meets oil requirements for Final Tier 4 (FT4) and interim Tier 4 (IT4) engines
- Supports all legacy engines
- Maximum drain interval up to 500 hours

NUMBER	DESCRIPTION	SIZE

Bulk Oil. A New Opportunity

Is handling and storing your packaged oil a hassle? Are partially filled packages and boxes consuming your storage space?

If the answer is yes, it's time to consider bulk oil. With Plus-50™ II, Hy-Gard™ – or any other bulk premium John Deere lubricant available – you have the opportunity to nearly eliminate the headache of disorganized packaged products in your shop. Plus, you'll have more product inventory control, eliminate unnecessary waste and you'll reduce the risk of product contamination.

Make the Leap!

Contact your local dealer today about bulk oil availability.

Torq-Gard™

Looking for a hard-working, standard-interval engine oil? Torq-Gard is your choice! It protects in a broad range of applications, including 4-stroke diesel, natural gas, and gasoline engines.

Product Features & Benefits

- Sludge control for cleaner engines & reduces corrosion
- Suitable for use in Tier 3 engines and older
- Standard drain interval of 250 hours

Available For Order

SAE 30: 1 qt (946ml) | 1 gal (3.78L) | 5 gal (18.9L) | 55 gal (208L)
 5W-30: 1 qt (946ml) | 1 gal (3.78L) | 2.5 gal (9.46L) | 5 gal (18.9L) | 30 gal (113.6L) | 55 gal (208L)
 10W-30: 5 gal (18.9L) | 55 gal (208L)
 15W-40: 1 qt (946ml) | 1 gal (3.78L) | 2.5 gal (9.46L) | 5 gal (18.9L) | 55 gal (208L)

Check with your dealer for part number information.

Turf-Gard™

Turf-Gard motor oil is recommended for all 4-cycle gasoline engines in lawn and garden tractors, riding mowers, generators, and other outdoor power equipment. Turf-Gard keeps engines clean and provides superior engine wear protection and fuel efficiency.

Transmission and Hydraulic Oil

Hy-Gard™ oils are specifically developed to meet the exact requirements of transmissions, wet clutches, wet brakes, and hydraulic systems. Oils not meeting these exact specifications can compromise machine or component life.

Hy-Gard performance is validated through testing in both the lab and field. High-level performance meets high-standard approvals by John Deere engineers, allowing Hy-Gard to meet the increase in demand for performance and protection of transmission and hydraulic systems.

Available For Order

Hy-Gard: 1 gal (3.78L) | 2.5 gal (9.46L) | 5 gal (18.9L) | 30 gal (113.6L) | 55 gal (208L) | 275 gal (1041L) tote

Low-Viscosity Hy-Gard: 1 qt (946mL) | 1 gal (3.78L) | 2.5 gal (9.46L) | 5 gal (18.9L) | 55 gal (208L) | 275 gal (1041L) tote

Bio Hy-Gard II: 5 gal (18.9L) | 55 gal (208L)

Check with your dealer for part number and pricing information.

Product Features & Benefits

Hy-Gard:

Recommended for equipment with common system reservoirs or separate transmission hydraulic systems.

Exceeds JDM J20C specifications.

Low-Viscosity Hy-Gard:

Hy-Gard oil alternative in cold weather. Exceeds JDM J20D specifications.

Bio Hy-Gard II:

Conola-based oil & 94% biodegradeable. Use in place of mineral-based hydraulic oils.

Antifreeze/Coolant

Cool-Gard™ II High Performance Long-life, Heavy-duty Formula.

Product Features & Benefits

- Formulated for up to 6-years/6,000-hours* life in cooling systems of diesel and gas engines
- Supports advanced engine technology
- Protects against corrosion and deposits
- Extends water pump life and prevents liner cavitation
- High thermal and oxidation protection
- Ready-to-use 50/50 premix formula for freeze protection down to -34°F (-37°C)
- Contains bittering agent to help discourage accidental ingestion
- Less toxic (PG) propylene glycol available for use around animals

Keep it in the field longer. Trust John Deere batteries to get you through the season and beyond.

In the field, the right battery can make a big difference—and the right battery for your John Deere equipment is StrongBox™. It's the best battery you can use in your machinery because it's developed and tested right alongside John Deere equipment. Our engineers designed StrongBox with the following benefits to give you a better battery:

- Increased power for quick starts in extreme cold
- High cranking amps, faster charges, and efficient design for lowering electrical resistance
- Epoxy-anchored plates that are four times stronger than traditional plates to reduce vibration damage—the leading cause of failure in commercial batteries

Don't chance it with standard batteries. Power up with batteries built for the rugged conditions you face. Power up with StrongBox.

Booster Cables

John Deere offers 2-gauge and 4-gauge Booster Cables in a variety of service options: extra heavy-duty professional, commercial, heavy-duty professional, and heavy-duty commercial.

SPECIAL BUYS

Air Filter Indicator

To maximize your investment, a John Deere air filter indicator will tell you exactly when your air filter is at maximum capacity. Don't risk "dusting" your engine with a dirty filter, or replacing one that is only at 50% capacity. Know for sure with a John Deere air filter indicator.

Fits the following models: Z740R, Z920M, Z930M, Z930R, Z950M, Z950R, Z960M, Z960R, and Z970R.

AUC16126 List \$25.00 **Now \$22.50**

John Deere Self-Sharpening Blade

The John Deere self-sharpening blade is a patented technology that applies a layer of extremely hard material on the bottom side cutting edge of the mower blade. As the mower blade is used, the base steel of the mower blade continues to wear faster than the hardened material which provides a continuous edge that essentially sharpens itself.

UC15158 List \$35.00 **Now \$29.75**

MowerPlus™ Smart Connector

Keep your John Deere riding lawn mower running its best and know how it mows with the John Deere MowerPlus app. Simply scan the lawn tractor's barcode to get custom information. The app helps determine the best time to mow, communicates expert pre-mow tips, offers maintenance reminders, and provides walk-through guides.

MulchControl™

Improve performance, increase uptime, and reduce operating costs with our new, innovative MulchControl attachment. Compatible with High Capacity and Accel Deep™ mower decks for Signature Series tractors, EZtrak™, and Residential ZTrak™ mowers, this attachment does an excellent job of mulching and is easily converted to side discharge or bagging in just a few seconds with the use of a lever conveniently located on the mower deck.

The MulchControl attachment makes mulching a more desirable and practical option, so you can benefit from the advantages of mulching, including:

- A beautiful lawn
- Tidy grass clippings that aren't blown onto the operator, driveways, or flower beds
- Less fertilizer use
- No need to dispose of clippings

Take control of your clippings with MulchControl from John Deere.

Your lawn is sure to stand out when you use new John Deere Or Sunbelt Outdoor Products mower blades. Because a sharp blade gives you the easiest path to a superior cut. Dull blades, on the other hand, quickly lead to tearing and shredding, and ultimately a dull brown lawn.

John Deere Self-Sharpening Blades

OEM

SunBelt Predator

Mower Blades featuring John Deere Self-Sharpening Blade

John Deere now offers a mower blade that cuts itself sharp! These blades are designed to provide the long-lasting performance expected from a genuine John Deere mower blade while minimizing the amount of maintenance required. Simply put, in abrasive conditions, John Deere mower blades featuring the John Deere self-sharpening mower blade, stay sharper longer.

Mower Blades

John Deere mower blades have consistent hardness and toughness when tested by independent laboratories. The blade specifications translate into long-lasting blades that withstand impact. You can count on genuine John Deere parts.

Get Lasting Peace Of Mind. Get PowerGard™.

Add up to four years of coverage beyond the normal warranty term on all utility vehicles, riding lawn equipment, zero-turn radius mowers, and compact and utility tractors.

Offering the same bumper-to-bumper coverage as the original factory warranty¹, PowerGard Protection Plan Residential² also includes:

- Flexible term lengths based on estimated ownership years and annual usage hours
- \$0 deductible and no pre-approvals on covered repairs
- Transportation allowance per covered repair visit
- Genuine John Deere parts and expert service technicians
- Transferrable warranty for remaining coverage when selling or trading

Contact us about a custom plan today or visit JohnDeere.com/PowerGard.

¹Warranty Coverage is based on total months or total hours whichever comes first.

²PowerGard Protection Plan (Residential) is only available to residents in the U.S.

*Heavy-Duty Mini Speakers (shown) sold separately.

Designed to be one of the most rugged stereos in the industry, this heavy-duty radio delivers high-quality audio while withstanding some of the harshest working conditions.

A AM/FM/WB/iPod®/iPhone®/ SiriusXM™ Heavy-Duty Radio

SWJHD1630

\$263.09 **\$236.78**

Boldly go where no radio has gone before.

The weatherproof Jensen SWJHD906BT radio brings news, weather, and Bluetooth® capabilities to Gators, Skid Steers, and Open-Station Tractors. You get NOAA Weatherband with weather alert, AM/FM radio, Bluetooth playback, controls, and the ability for hands-free calling (external microphone SWJMICHFP sold separately), and an input to play iPod, MP3 player, or portable CD player.

B Mini 906BT Radio

SWJHD906BT

*Heavy-Duty Mini Speakers (SWJXHD35) sold separately.

\$346.09 **\$311.48**

The SWJHD1365BT stereo is built tough for demanding environments while featuring the latest technological advancements. This radio features Bluetooth streaming audio (microphone included) with hands-free calling, giving you a truly hands-free experience. The iPod/iPhone capabilities can be taken advantage of via the USB so you can take your personal music library with you. Plus, the stereo is also SiriusXM-ready, offering you endless entertainment options.

C AM/FM/WB/iPod- & iPhone-ready/SiriusXM/ Bluetooth Stereo

SWJHD1635BT

\$318.15 **\$286.34**

We made the cab quiet. Now give your ears something to listen to.

If your cab radio is dead, dying, or just plain dysfunctional, consider an audio upgrade. Tune in to local news, weather, and sports, or bring your own audio stimulation via CD or MP3. Satellite news and music are also an option.

Pull in AM/FM and weather-band signals. This new heavy-duty radio has a full 7-channel NOAA Weatherband tuner and tells the time with the new segmented high-visibility display. It also comes with front Aux in capabilities and is equipped with a two-wire hookup that prevents battery drain when the vehicle is off.

D AM/FM/WB Heavy-Duty Radio

SWJHD1130

\$181.67 **\$163.50**

In today's modern heavy-duty market, having a radio built to survive the tough stuff doesn't mean that it has to sacrifice in-demand entertainment options. The SWJHD36MIC features the ability to receive Bluetooth streaming audio and phone calls from a Bluetooth-enabled mobile phone, giving you a truly hands-free experience. The microphone required for hands-free calling comes standard with the radio. This state-of-the-art heavy-duty stereo also has NOAA 7-channel Weatherband tuner with S.A.M.E technology to focus on a more specific region, giving you more accurate weather updates along with being iPod- and SiriusXM radio-ready.

E AM/FM/WB/CD/USB/Bluetooth®/iPhone/ iPod/SiriusXM Stereo

SWJHD36AMIC

\$370.37 **\$333.33**

ToughCam Digital Wireless Observation System

It's not X-ray vision—but it's the next best thing.

This one-camera digital observation system far exceeds the performance of any other analog system on the market. It features a WiSight signal so strong that it easily transmits through and around objects up to 60 feet away—with no interference.

Other benefits:

- Delivers a sharp, vivid picture with the 5.6-in. color LCD monitor
- Suction cup mount and 12-volt DC power plug for the monitor make this system easily portable among vehicles
- Wireless for easy and convenient setup

Applications:

- Tractors and round balers
- Sprayers
- Trucks and trailers
- Recreational vehicles
- Industrial
- Marine

See us for pricing.

John Deere Fuel-Protect Gasoline Stabilizer

Blended fuel attracts water from the air, which causes corrosion to fuel tanks, fuel lines, carburetors, and injectors. John Deere Fuel-Protect contains double the corrosion preventer to help fight these damaging effects. Pumped gasoline starts to degrade immediately, causing varnish deposits to build in engines. This results in starting problems, poor performance, and reduced engine life. Add John Deere Fuel-Protect to keep fuel fresh for 12 months, more than doubling the storage life of fresh gasoline. John Deere Fuel-Protect also eliminates the need to drain fuel prior to storage.

NUMBER	DESCRIPTION	LIST	NOW
TY27534	Fuel-Protect for Gasoline, 8-oz.	\$ 4.69	\$ 4.22
TY27535	Fuel-Protect for Gasoline, 32-oz.	\$13.57	\$12.21

Tech Tip:

Every time you fill your red gas can, add some Fuel Protect gas stabilizer. Then you always have protected fuel and longer storage life.

LED Warning Lights

Make sure others can see you when you're on the road by installing corner and rooftop LED warning lights. These LEDs are brighter and last longer than standard lights, keeping you protected on the road for years to come. The rooftop light offers a 360° light source with four flash patterns, while the corner lights have a wide-angle optic and 19 flash patterns. Both units are easy to install and operate.

NUMBER	DESCRIPTION	LIST
PMCLKLED6-A	Amber LED Corner Light, 12V, 1" diameter hole and 1" depth required	\$114.44
PMLED925-A	Rooftop LED Warning Light, 12/24V, Base Mount	\$175.89

See dealer for the complete Warning and Safety Light lineup.

Soil Compaction Tester

Get the best crop yield by measuring the extent and depth of subsurface compaction with the brand new John Deere Soil Compaction Tester.

Some features include:

- 24" stainless steel rod with adjustable shock collar to prevent damage
- Easy-to-read, color-coded stainless steel dial that is liquid-filled to reduce shock
 - Green (0–200 psi) = Good growing conditions
 - Yellow (200–300 psi) = Fair growing conditions
 - Red (300+ psi) = Poor growing conditions
- Large and small tip included with convenient storage in tester housing
 - 1/2" tip for firm soil
 - 3/4" tip for soft soil
- Durable molded housing with rubber grip handle

Hand Cleaners

Sometimes hard work means getting your hands dirty. But when the job's done, it's nice to go home with clean hands. John Deere has a whole line of hardcore hand cleaners that will wash off even the toughest dirt and grime. All of our cleaners have these benefits:

- Non-toxic
- No chemical odor
- Multi-purpose uses (e.g., a stain remover for washable clothing, cleans tools, etc.)
- Contains only cosmetic-grade components and odorless mineral spirits (competitors use lower-grade components in their formulas)
- Milder than competitive products, leaving no skin irritation
- Includes skin emollients, lanolin, and glycerin

Polycarbonate Window Cleaner and Wash

Superior at providing impact resistance, lightweight polycarbonate windows are a great feature on many off-road vehicles. Proper care and cleaning with the right products promotes long life without damage from surface abrasion or chemical incompatibility. John Deere recommends our factory approved solution to maintain a clear view of your work and recreational environment through polycarbonate windows.

Use these products full strength and as directed for effective results removing tough contaminants such as; tar, grease, tree sap, resins, and more from polycarbonate windows. Use on Skid Steers, Compact Track Loaders, Gator™ UTVs, and more. Works on glass windows too.

WARNING – Do not use common windshield wiper fluid or glass cleaner on polycarbonate windows. Use of incompatible cleaning materials on windows made of polycarbonate can cause structural and/or surface damage.

TY27682	Polycarbonate Window Wash	32 oz.	\$20.85
TY27683	Polycarbonate Window Cleaner Spray	32 oz.	\$12.53

Paint Remover

Our paint remover is perfect for removing acrylic, enamel, and latex paint from all metal and wood. All you have to do is spray it on to your surface, let it sit for 10 minutes, and then scrape off the loose paint. It's that easy.

For multiple paint layers, reapplication might be required. Benefits of our paint remover include:

- Methylene chloride-free
- A powerful combination of solvents for faster paint removal
- High viscosity to help coat vertical surfaces

NUMBER	DESCRIPTION	LIST
TY27304	Paint Remover, 12 oz.	\$8.85

Paint

We offer high-quality, long-lasting, colorfast paints that deliver all-weather performance for John Deere and all-makes equipment applications.

Lead-Free Enamel Paint

John Deere lead-free enamel paint is environmentally safe for both interior and exterior applications. Sets up in minutes and is tack-free in a few hours. Dries overnight to a hard, glossy finish that resists fading, cracking, and chipping.

Low-VOC Paint

John Deere offers a solvent-based paint to meet stringent volatile organic compound (VOC) state and federal regulations. Easily replaces the waterborne formula in similar applications.

- Provides a low viscosity of 2.8 VOC for easier spraying
- Requires only a moderate air-dry time
- Free of hazardous air pollutants

Fast-Dry Paint

Dries to the touch in one hour and requires minimal thinning for spray applications. Developed in a lead- and chrome-free formulation to protect against chipping, corrosion, and rust.

*Contact your dealer for additional colors, sizes, and paint accessories.

Premium Series Generators

The PR Series features 3600-, 6000-, and 8000-watt generators and are available with a John Deere-branded OHV engine with low-oil shutdown. All are CSA listed and come standard with engine on/off switch, fuel shut-off valve, and a 1-year limited warranty.

All PR Series models feature

- Total harmonic distortion (THD) less than 6%
- Copper and aluminum windings
- Easy-access and protected control panel with magnetic circuit breakers and GFCI-protected receptacles
- Large low-tone mufflers
- DC charging/battery charging
- Heavy-duty industrial air cleaners for extreme conditions
- 3600 RPM rated engine speed

3600-watt model features

- 3000-watt continuous
- 120V alternator
- 8.5-hour run time @ full load
- Recoil start engine
- 4.0-gallon fuel tank

6000-watt models feature

- 5500-watt continuous
- 120V/240V alternator
- 6.6-gallon fuel tank
- Wheel kit with tires and rubber gripped handles
- Recoil start engine
- Automatic idle control
- 6.5-hour run time @ full load

8000-watt models feature

- 7000-watt continuous
- 120V/240V alternator
- 6.6-gallon fuel tank
- Wheel kit with tires and rubber gripped handles
- Electric start engine (battery included)
- Automatic idle control
- 6.0-hour run time @ full load
