Taking your combine to the supermarket?*

Then you might as well swing by the auto parts store on the way home. But if you're carting 500,000 bushels rather than a few sacks of groceries, you probably need tougher parts.

All John Deere parts, even simple things like belts, oil, batteries and filters, are made for tough crops, long hours and avoiding downtime. Auto parts just aren't.

So unless a runaway shopping cart is the toughest obstacle your equipment faces, we suggest you trust the real thing.

Genuine John Deere parts.

JOHN DEERE

*For illustration purposes only. John Deere does not recommend or endorse use of equipment in this way or application. Use your equipment, and your parts, the way they're supposed to be used and in accordance with the operator's manual.

WAYS YOU CAN COUNT ON YOUR MULTI-USE ACCOUNT!

1. **Dependable purchasing power** for all your parts & service needs.
2. Consolidates your purchases on one account, providing **one-statement/one-payment convenience.**
3. Saves you money with competitive interest rates and **No-Payments/No-Interest*** finance opportunities.
4. Improves cash flow with a **minimum monthly payment option.**
5. **Interest-free financing** when you pay your 30-day balance in full each month.
6. **Keeps you informed** with invoice-level details on your monthly statement.

Ask your dealer for an application or visit [JohnDeereFinancial.com/Multi Use Apply](http://JohnDeereFinancial.com/MultiUseApply)

**JOHN DEERE
FINANCIAL**

*Offer ends December 31, 2016 and are subject to approved credit on a multi-use account, a service of John Deere Financial, f.s.b. Program options are available for agricultural and commercial Multi-Use Account holders only. Minimum purchase required. After the promotional period, interest charges will begin to accrue at the regular Multi-Use Account rate. Available at participating merchants.

John Deere doesn't just stop at parts... we've got you covered!

Whether you're out in the field, hard at work in the shop, or hanging out in the house, you can count on the John Deere team to keep you stocked, locked, and ready, all year long.

From our friendly dealerships to our comprehensive catalogs, you'll find a complete lineup of quality gear. We carry everything you need from maintenance products to equipment attachments, clothing, tools, toys, and more.

So if you're preparing for next season or just looking for a unique gift idea, remember the John Deere team. We're here to help you get the job done right.

No-Payment, No-Interest Financing Terms:

[^]Offer valid October 1, 2015 – August 12, 2016. Subject to multi-use account approval and John Deere dealer participation. Program options are available for agricultural and commercial multi-use account holders only. Minimum purchase may be required. After promotional period, interest charges will begin to accrue at the standard multi-use account rate. See your dealer for complete details and other finance options. Multi-use accounts are service of John Deere Financial, f.s.b.

Ready for Final Tier 4? **DEFinitely.**

Emissions regulations are changing—and so are equipment requirements. But you know what isn't changing? How easy it is to keep your machines up and running when it counts.

Now that we've added Diesel Exhaust Fluid, or DEF, to our line of premium Final Tier 4 fluids, you have everything you need to keep your equipment operating just as smoothly and just as long as ever. And there's still only one place you need to go to keep up on maintenance—your John Deere parts counter.

Because even when regulations change, your expectations should stay the same. See us today.

JOHN DEERE

*Final Tier 4 emissions regulations for engines 130 kW (174 hp) and above began in January 2014, and are fully implemented for engines 56 to 129 kW (75 to 174 hp) as of 2015. Engines that meet the Final Tier 4/Stage IV regulations set by the EPA and EU produce almost no PM and NOx emissions. To learn more about Final Tier 4 and DEF, go to JohnDeere.com/tier4.

Plus-50™ II API CJ-4/SN Engine Oil

The best John Deere oil, Plus-50 II SAE 15W-40 and 10W-30, is made with a unique additive system that offers excellent protection from deposits and wear. It exceeds API service classification CJ-4/SN and John Deere specification JDQ78X, and is available in quarts and 1-, 2 1/2-, 5-, 30-, 55-, and 275-gallon containers. It's excellent for all diesel engines!

- Superior product for current and older engines
- Formulated specifically to inhibit engine wear, corrosion, sludge, soot, varnish, and oxidation
- Extended drain intervals up to 500 hours in a John Deere engine, using John Deere filter and ULSD diesel
- Proven performance in low-emission IT4 and FT4 engines

Plus-50™ II Synthetic SAE 0W-40 API CJ-4/SN Engine Oil

Synthetic Plus-50 II Premium Engine Oil (SAE 0W-40) has been designed to provide advanced lubricant performance in modern engines to meet the requirements of EPA regulations. SAE 0W-40 Plus-50 II is a full synthetic PAO (Poly Alpha Olefin) based oil that provides excellent performance.

Excellent for all diesel engines requiring 0W-40 viscosity and API Service Classification CJ-4, SN, and Mack EO-N Premium Plus 03. Superior performance for customers who operate in extremely cold or hot conditions and want to maximize engine life performance.

John Deere Fuel Conditioner

Don't let problematic fuel cause damage or downtime. Fuel-Protect Conditioners help you keep going all season by preventing fuel system erosion caused by contaminated fuel. With Fuel-Protect, you'll notice smoother starting, improved water tolerance, and less exhaust smoke.

Turf-Gard™

Turf-Gard motor oil is recommended for all 4-cycle gasoline engines in lawn and garden tractors, riding mowers, generators, and other outdoor power equipment. Turf-Gard keeps engines clean and provides superior engine wear protection and fuel efficiency.

NUMBER	DESCRIPTION	SIZE
TY25121	SAE 5W-30	1 qt.
TY22029	SAE 10W-30	1 qt.
TY25122	SAE 10W-40	1 qt.

See us for pricing.

Hy-Gard™ transmission and hydraulic oil

Don't risk it with anything less.

Your machine depends on transmission and hydraulic oil to do so much—and if your oil can't protect your entire system just right, you may find yourself with a down machine.

That's why you need John Deere Hy-Gard transmission and hydraulic oil. It's developed and tested by John Deere engineers who make sure it's the best option for your John Deere. And it's been proven to protect against rust and wear time and time again.

Don't risk it with lesser hydraulic fluids. Make sure you have the best.

Make sure you have Hy-Gard.

www.JohnDeere.com/Oil

JOHN DEERE

Transmission and Hydraulic Oil

Hy-Gard™ oils are specifically developed to meet the exact requirements of transmissions, wet clutches, wet brakes, and hydraulic systems. Oils not meeting these exact specifications can compromise machine or component life.

Hy-Gard Oil

Available in 1-, 2 1/2-, 5-, 30-, 55-, and 220-U.S.-gallon containers.

- Recommended for equipment with common system reservoirs or separate transmission and hydraulic systems

Bio Hy-Gard Oil

Available in 5- and 55-U.S.-gallon containers.

- Made with farm-grown canola
- Biodegradable
- Use in place of mineral-based hydraulic oils

Low-Viscosity Hy-Gard Oil

Available in quarts and 1-, 5-, and 55-U.S.-gallon containers.

- Use in place of Hy-Gard oil in cold weather
- A direct replacement for all-weather hydrostatic fluid

They're just better. John Deere Oil Filters.

When it comes to oil, sludge is the number one enemy, leading to plugged filters and engine wear. That's why John Deere Oil Filters are specially designed for more dust and sludge holding capacity. Matched to your machine for optimized oil flow, all genuine John Deere Oil Filters are tested to meet or exceed original John Deere specifications.

Don't trust your equipment to anyone else. Insist on genuine John Deere Oil Filters.

Make sure you are ready for harvest with Genuine John Deere OEM Filters.

Please visit johndeere.com/FilterOverviews for more information about filters for your machine.

Seed Boots for Grain Drills

John Deere drills ensure top-level seeding results in all tillage conditions. And to maintain those top seeding results, always replace worn parts with genuine John Deere parts. Replace boots when they can no longer be adjusted to form the side of the furrow wall—when approximately 1/2 inch of metal has worn away. Consider replacing with carbide-tip boots for abrasive soil. For hoe drills, choose short or medium/long seed boots.

NUMBER	STYLE	DRILL APPLICATION	LIST	NOW
Seed boots:				
N160523	Seed boot	8000 and 8500	\$162.16	\$149.19

Seed Boots and Inserts

We offer five varieties. Choose the boot or insert that fits your application. Farmland seed boots are available for broadcasting and are compatible with the C-shank openers on the 735 Air Seeder. They mount to the back side of the boot and lay seed/fertilizer into the seedbed beneath the concavity of the sweep. Inserts can be added to give you a choice of patterns.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
A79612	Banding boot	1820 Flex Air Hoe Drill	\$54.82	\$50.39

Engine Overhaul Kits

Our overhaul kits contain genuine John Deere components that are manufactured and tested to the latest John Deere specifications. Choose genuine John Deere parts for your next engine overhaul, and restore the original quality and performance of your machine. Contact your local John Deere dealer or visit JDParts.JohnDeere.com to place your order today!

Standard kit:

- Rod, main, and thrust bearings
- Thrust washers
- Oil pan split gasket
- Factory assembled piston/liner kits
- Liner packings
- Front and rear seals
- Gasket rings
- Snap rings

Expanded kit:

- Standard kit content
- Rod bolts and bushings
- Piston pins
- Camshaft bushings

NUMBER	APPLICATION	KIT TYPE
RE526966	6605 and 6615-6715 Tractors	Standard kit
RE525437	4440, 4640, and 4840 Row-Crop Tractors; 8440 and 8450 4WD Tractors; 5720 Forage Harvester; 6620, 6620SH, 7720, and 8820 Combines; and 9940 Cotton Picker	Expanded kit
RE526962	8100, 8200, 8300, 8400 (010000-), 8110, 8210, and 8310 Row-Crop Tractors	Standard kit

The experts at your John Deere dealer will help you find the right kit for your application. Please see us for pricing.

Did you know?

Not every engine overhaul kit is the same. You can't see the difference, but your engine can. Visit JohnDeere.com/jdpsparts to take a closer look at the advantages of choosing genuine John Deere engine parts.

Warranty: Our engine overhaul kits come with a 1-year/1,500-hour warranty (whichever comes first) determined from the date of purchase. Coverage includes both parts and labor when installed by a John Deere dealer. See your John Deere dealer for details.

Did you know? Neglecting to change out an engine damper could lead to a costly repair and possibly a broken crankshaft.

Crankshaft Dampers

Did you know your crankshaft damper has a service life?

When torque is applied, engines generate harmful vibrations. A damper reduces these vibrations, which extends belt life and reduces gear wear. Our engine damper consists of an inertia ring, elastic member, and hub assembly attached to the crankshaft. John Deere recommends changing the crankshaft damper at 4000 to 5000 hours or 5 years, whichever comes first in some applications. Contact us to see if your crankshaft damper needs replacing today.

Complete Engines

The John Deere Reman line of engines are designed in response to customer demands to minimize downtime and provide a low-cost repair alternative. All John Deere Reman engines are built and tested to provide you with the same John Deere quality you are accustomed to. When reduced downtime, higher quality, known repair costs, and company product support are important to you, look to John Deere Reman products for all your remanufactured component service solutions.

- Provides up to a two-year, 2,000-hour parts and labor warranty if dealer installed in Ag applications
- Complete engine configuration

Remanufactured John Deere AC Compressors

When things heat up on the farm, you can stay cool with the new line of John Deere Reman remanufactured A/C compressors. Thanks to new, enhanced features, operators are sure to remain cool and comfortable—even when operating in intense heat. And because John Deere Reman is dedicated to quality, these remanufactured A/C compressors will last for years to come.

Benefits of the John Deere Reman A/C Compressors include:

- New and improved specifications ensure optimum cooling performance
- Improvements to shafts and seals reduce the chances of oil and refrigerant leakage
- Improved processes, procedures, and testing will ensure these units will stay cool on a hot day
- 1-year unlimited hour warranty ensures peace of mind when installed by John Deere factory-trained technicians

John Deere Reman has air conditioning compressors that fit a wide variety of machines. See your local John Deere dealer for the right part in your application.

Helpful Hint:

When replacing your AC compressor, flushing the system is critical to keeping your REMAN compressor working in top condition. Be sure to use primary and final flushing agents available at your John Deere dealer.

Reman technology.

Even more high-tech than you realized.

JOHN DEERE

Sure, advanced John Deere Reman technology can remanufacture an entire engine or transmission. But it also goes beyond the scope of traditional Reman options to give new life to the brains behind the brawn—your electrical and technological components.

All Reman components are thoroughly engineered to meet the same stringent specs as new parts while costing about 30 to 40 percent less. Plus, you'll get back to work sooner by avoiding time spent waiting on repairs.

See your dealer today to find the Reman option best for you.

JohnDeere.com/Reman

Because harvest is not an end. It's a beginning.

Harvest is about so much more than taking crops from the field. It's about reaping the rewards of your hard work. It's satisfaction in a job well done. But it's also about safeguarding the future of your operation. Your John Deere dealer knows that the importance of harvest falls well beyond the field. That's why we'd like to partner with you to ensure that you and your equipment are ready. And not just for the fall, but for the coming year... and the year after that. We want to help you make a plan. And we want to be there when you're looking out across your field getting ready for your best harvest yet.

Inspections, optimizations, agronomy, advice—**That's the John Deere Difference.**

Ask your dealer today what a Successful Service package can do for your operation.

Harvest Mobile

Harvest Mobile works directly with your iPad to deliver in-cab visuals of mapping layers such as ground speed, wet yield, dry yield, and moisture. You can see exactly what’s going on in the field and view machine settings at a glance. Harvest Mobile simplifies the Interactive Combine Adjustment (ICA) capabilities of your combine. With ICA, machine setting adjustments can be quickly and easily made so you can dial in your combine’s performance in real time.

John Deere LED Lights

75% less power consumption.
44 times MORE life.

John Deere LEDs – A Complete Solution for your Lighting Needs

John Deere now has LED options for all key light positions on most equipment today. From hood, to roof, to fender, operators have a full line of LED options at their disposal to customize and improve visibility and performance.

Not all LEDs are created equally! Many budget aftermarket lights advertise high lumen ratings, which only reflect the raw (theoretical) max rating of an LED light. In the field, this rating is not achieved. "Effective Lumens" is a true rating of the light. Many budget aftermarket lights have very low "effective" lumens because of poor quality lenses and components. John Deere LEDs are made with premium quality parts for the highest effective rating possible. Effective lumens are given so you can be assured that the John Deere LED is giving the most performance for your dollar.

Par 36 Replacement LEDs

These lamps are a perfect retrofit for any round housing application. Offered as an alternative to AR104119, RE35168, AR21059, and other standard 114mm (4.5") round sealed beam lights on 20-60 series row-crop tractors. Light Output: 1390 raw lumens, 1020 effective lumens.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
RE561116	LED Lamp, Flood Pattern Effective Lumens	Upgrade for 20-60 Series Tractors	\$108.00	\$99.39
RE561117	LED Lamp, Trapezoid Pattern	Upgrade for 20-60 Series Tractors	\$108.00	\$99.39

Roof and Hood Lights

Designed to replace roof and hood lights, these LEDs deliver more light with less current draw under the harshest conditions, without fogging over, burning out, or breaking like many halogens. Additionally, these lenses are designed specifically for hood and roof locations. Direct fit replacements for R161288. Light output: 1280 raw lumens, 998 effective lumens.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
RE577572	2" x 5" LED Roof Work Lamp	Replaces sealed beam lights in 6100-6400, 7200, 7400-7800, and 8100-8400 series tractors	\$99.96	\$91.99
RE577573	2" x 5" LED Hood Work Lamp	Replaces sealed beam headlights in 4040, 4050, 4055, and 4060 tractors	\$99.96	\$91.99

4" x 6" LED Work Lamp for 9000 Series

Specifically designed to be installed on the front hood of 9000 Series 4WD tractors, these LED worklights squash the standard halogen by offering 160% greater lumens, 44% longer life, and 50% less power draw.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
RE581074	4" x 6" LED Work Lamp – 2600 effective lumens	9100, 9200, 9300, and 9400	\$220.00	\$202.39

Fender/Roof Replacement Pedestal, 4" x 5"

These LED work lights can be mounted on the fender, roof replacement, or as a pedestal light. Can be used to replace RE233263, AL202742, and AL202743. Fits on the following models: 6000-6030, 6215, 6415, 6615, 6715, 72-7520, 71-7330, 7000, 7050, and many others with pedestal mount.

NUMBER	DESCRIPTION	APPLICATION	LIST	NOW
RE575338	4.5" Round XD Work Light flood pattern: 3150 raw, 2130 effective lumens	6000, 6020, 6030, 6M, and 7030 Series Tractors	\$140.00	\$128.79

Rugged LED Work Light

Brighter and more durable than ever before! This rugged LED work light is built to withstand the harshest conditions, providing worry-free reliability when you need it. Mounting hardware included, allowing these lights to attach to any machine.

DiamondTough™ Baler Belts

Stronger and longer lasting

Handle heavy shock loads and maintain consistent belt length with DiamondTough baler belts. They're more puncture- and tear-resistant than other belts because they're made from a patented, triple-warp weaving process of nylon, polyester, and monofilament materials. The special weave also increases the strength and reduces stretch. The result? Improved reliability and belt life.

Get the belt that won't bail on you no matter how tough the going gets. Ask your dealer for the correct fit for your round baler.

Pickup Teeth

Windrow Hay Moisture Tester

Now test hay **before you even start baling** with the portable Windrow Hay Moisture Tester from John Deere. You no longer have to make a bale and use a probe-style tester to determine if your hay is ready. Instead, just add loose hay to a five U.S.-gallon bucket, press the tester into the hay and get a quick, accurate reading. See results in 30 to 60 seconds. Measuring range: 13- to 70-percent moisture. Accuracy range: +/- 2 to 4 percent.

NUMBER	DESCRIPTION	LIST	NOW
SW07140	Windrow Hay Moisture Tester	\$304.09	\$273.68

Hay Testers

GoBale app

A must-have app for 9 Series Round Balers, GoBale provides quick reference overview of key adjustments, maintenance, and procedures, and lets you record observations and save them for future reference.

Download **GoBale app** on the **Apple App Store** or **Google Play Store**

+ Add more power and precision to your round baler with attachments

You don't have time to waste. You need practical, efficient shortcuts. That's where John Deere attachments come in. They make your hard-working baler perform even better. They're a strong investment in your growing success, too—adding real value to your round baler.

1 Drawbar shield

A drawbar shield helps prevent windrow bunching that can occur when the drawbar contacts heavy windrows.

BE32262 – 6, 7, 8, and 9 Series
LIST \$53.90

NOW \$49.59

2 Deflector curtains

Curtains fit only on balers with the MegaWide™ pickup to deflect objects that may be thrown forward by the MegaTooth™ teeth. The curtains can be easily removed for pickup service.

BE30004 – (4' Wide Balers) 6, 7, 8, and 9 Series
LIST \$280.50

NOW \$258.09

BE30005 – (5' Wide Balers) 6, 7, 8, and 9 Series
LIST \$358.60

NOW \$329.89

3 Corncob filler plates

Pickup filler plates are now available for MegaWide pickups. The filler plates are designed to prevent corncobs from becoming lodged in pickup strippers. Adding filler plates to a MegaWide pickup will ultimately improve pickup tooth and rotor tine reliability.

BE32310 – 6, 7, 8, and 9 Series (MegaWide Pickups)
LIST \$361.90

NOW \$332.89

4 Cornstalk compressor rack

The cornstalk compressor rack is designed to improve the feeding of fluffy cornstalk windrows into the baler. It offers a full complement of compressor rods and utilizes a solid-steel shaft to attach the compressor rods.

BE32257 – (5' Wide Balers) 6, 7, 8, and 9 Series
LIST \$603.90

NOW \$555.59

5 Side-sheet enhancement kit

Use the side-sheet enhancement kit in extremely abrasive crops and field conditions to add more service life to 7 or 8 Series Round Balers with worn side sheets.

BE32101 – 468, 568, 469, and 569
LIST \$1,714.90

NOW \$1,577.69

BE32141 – 467 and 567
LIST \$1,670.90

NOW \$1,537.19

This is just a partial sampling of John Deere round baler attachments. Please see us for complete listings and specific applications.

Brawler® Solid Flex Tires

Brawler Solid Flex tires are compatible with all major brands of skid steers and fit all makes and models. They're the only all makes, solid rubber tires tested in John Deere skid steers and approved to John Deere standards. Benefits include:

- No flat tires
- Elliptical-aperture design absorbs shock and provides a smooth ride
- Five-year limited warranty* against defects for usable tread depth
- Built with up to three times more tread depth than typical pneumatic tires, Brawler Solid Flex tires perform exceptionally well in heavy-duty service applications such as dairies, feedlots, poultry farms, recycling centers, scrap yards, nurseries, and rental fleet services
- Reduction in cost per hour
- Extra heavy-duty wheel with the tire molded on to prevent it from slipping—common with two-piece construction tires and wheels

John Deere Brawler Solid Flex – Cost Per Hour Worksheet

	Pneumatic		Foam Filled		Solid Flex	
	Cost	Hours	Cost	Hours	Cost	Hours
Cost for Tires (12 x 16.5)	\$1,050	500	\$1,050	500	\$3,863	1500
Foam Filled			\$1,000			
2 Replacement Sets	\$2,100	1000	\$2,100	1000		
2 Foam Fill Installs			\$2,000			
2 Service & Disposal Calls #	\$224		\$224			
Sub Total	\$3,374		\$6,374		\$3,863	1500
Flat Repairs *	\$1,560		\$0			
Wheel Replacements	\$125		\$125			
Equipment Downtime **	\$1,000		\$100			
Total – Tire Expense	\$6,059	1500	\$6,599	1500	\$3,863	1500
Tires Cost Per Hour	\$4.04		\$4.40		\$2.58	

* Flat repairs – On average, 8 flat repairs per year, for 3 years, at a cost of \$65 (\$40 flat repair, \$8 fuel surcharge, \$15 service call, \$2 incidentals (patches, valve stems, tubes))

Service and disposal was calculated by 4 mounts/dismounts at \$20 plus \$8 for disposal. Total \$112 per replacement.

** Downtime based on 20 hours at a rate of \$50/hr. May vary based on customer & application.
(Represents costs as of July 2013, subject to change.)

XHT and Predator® Blades

Xtreme Hardness & Toughness (XHT) and Predator blades go through a proprietary, heat-treating process that makes them 25% – 45% harder than standard lawnmower blades. Stronger blades hold their edge longer, resulting in a cleaner cut. Our Predator mulching blades, with airflow tooth design, produce smaller clippings for better mulching. See us for our complete line of XHT and Predator mulching blades for all makes of equipment.

Dura-Flex Bearings

John Deere Dura-Flex bearings continue to offer superior quality and consistency that is unmatched by aftermarket will-fit bearings. Introduced in 2005, they are used on disk gang assemblies and rolling baskets up to the 2600 series disks.

Dura-Flex Bearing Features:

- Includes 2-year warranty
- Built using a ball ridging, one piece, molded nylon cage for perfect alignment
- Engineered with a thicker inner bearing race that creates a stronger cross section to withstand tough loads
- Designed with a heavy-duty bearing so the ball is harder than the rings
- Provides total clearance between rings and rolling elements for optimal load distribution and free rotation to allow for thermal expansion
- Prevents premature bearing failure with smooth rolling bearings
- Contains a chamfer in the lubrication hole to ensure proper grease flow
- Increased uptime with a recommended grease interval of 50 hours
- Features seals of a longer length and high-quality material with smooth edges, providing a tight seal to withstand tough conditions

Your planter. Evolved.

The all-new John Deere ExactEmerge™ Retrofit Kit provides the high-performance technology of a new John Deere ExactEmerge Planter to the planter you have now.

This upgrade includes:

- Industry-exclusive Brush Belt delivery system
- Vacuum Automation
- Curve Compensation
- SeedStar™ 3 HP
- SeedStar Mobile ready

Available for 2011 or newer 1770NT CCS and 1790 Planters, 2012 or newer DB Series Planters

JOHN DEERE

JohnDeere.com/ExactEmerge

Better processing. Better silage.

Add More feeding efficiency with KernelStar™

Improve your feeding efficiency and enhance productivity in the field with KernelStar technology, exclusive to John Deere. Featuring a patented beveled disc design, KernelStar gives you better processing action, so you get better chopped, higher quality feed rations.

KernelStar gives you

- A more aggressive processing action, thanks to patented beveled disc design
- Higher throughput, with 270% of the working width of a traditional roller type kernel processor
- Significant reduction of over-length particles and component power consumption
- Higher kernel processing scores with improved reliability

BXE10317 7180, 7280, 7380, 7480, and 7580
BXE10318 7780 and 7980

BXE10548 8100, 8200, 8300, 8400, and 8500
BXE10545 8600, 8700, and 8800

Cutterhead knives: *Why ours last longer*

The cutterhead plays a critical role in forage harvester performance.

Which is why it's so important to choose knives that fit, perform, and last. John Deere cutterhead knives do all that. And they're manufactured specifically for your John Deere forage harvester.

Highlights:

- A** Sandblasted surface ensures precise clamping forces
- B** Induction-hardened cutting zone provides long-lasting sharpness
- C** Tough body minimizes risk of breakage
- D** Extended knife body supports retraction in case of impact with an object
- E** Trademarks identify the genuine John Deere knife

Helpful Hint

To examine knives mounted on a drum, use a small, handheld mirror to look under the knife surface.

How to identify low-quality knife coatings

At a glance, most knives look very similar. But take a look at the knife coatings on the right—the real difference is on the bottom where the hard-facing is bonded to the knife body.

Hard-working, longer-lasting John Deere cutterhead knives keep you in the field until harvest is done. Talk to us today about your specific cutterhead needs.

John Deere

Knife is 3/4 worn, but coating remains intact.

Competitor #1

Coating is flaking due to bonding failures.

Competitor #2

Premature wear is due to low carbide content.

One shearbar. Every crop. Dura Line™ Plus from John Deere

It's a fact: the less time you spend replacing parts, the more time you have in the field. And now there's a longer-lasting solution for your most frequently replaced part—shearbars.

John Deere Dura Line Plus shearbars set a new standard for wear resistance thanks to their high-tech factory coating that fuses a chrome-carbide layer to base metal parts at 2,462°F.

Dura Line Plus shearbars offer:

- Real ALL-CROP capability
- Three times the wear life of standard shearbars
- Minimal shear gap to keep fuel consumption constant
- Factory-fitted or aftermarket retrofitted options

Learn how new Dura Line Plus shearbars can keep you productive in the field longer. Talk to us today.

Save money on parts. Stay in the field longer. Get Dura Line protection.

Your SPFH endures a terrific amount of wear and tear each season. Fortunately, John Deere now offers a solution for your most-often-replaced SPFH parts—one that gives them exceptional strength and service life.

Dura Line is a high-tech, factory-coating process that fuses a chrome-carbide layer to base-metal parts at 2,462 °F—for unprecedented protection.

Just imagine ... the less time you spend replacing parts, the more time you can spend in the field. And the more profitable your SPFH becomes.

No part lasts forever, but Dura Line is the next best thing. And it's only from John Deere. Talk with your dealer today.

Dura Line is available for these SPFH high-wear parts:

| 1 Spiral band | 4 Blower band |
| 2 Kernel processor inlet chute | 5 First spout wear plate |
| 3 Blower inlet | 6 Spout caps |

Kernel Processor Rolls

The John Deere kernel processor is induction hardened rather than flame hardened, like many competitors' rolls. What does that mean to you? Hardening is much more consistent, resulting in a longer life and fewer repair costs. The hardening zones of a John Deere roll are shown in the illustration to the right.

Corn Headers

1. Corn header

Use an air compressor to blow off major buildups of debris and residue, then wash thoroughly with a power washer.

2. Blades

For fast, efficient harvesting, sharp blades are a must. Check the blades and scrapers, and replace any that are bent, damaged, or worn.

3. Worn points

If you notice teeth are blunt or damaged, replace with new points. Points must be installed in pairs on opposite sides of the drum. Refer to your operator's manual for detailed instructions.

4. Scrapers

You'll get better results when you have sharp scrapers. Check scrapers and replace any that are damaged or missing on the rotor cleaning drums. Also, check the bolts to make sure they're tight.

5. Gathering drums

Inspect the teeth on the gathering drums. Make sure teeth are sharp to ensure smooth crop flow.

6. High-performance scrapers

With the convenient bolt-on design, you can use each side of the scraper so you'll have fewer maintenance costs.

Rotary Harvesting Unit Parts

With a specially bonded coating along the cutting edge and rugged tungsten-carbide construction, these knives deliver exceptional cutting, acre after acre.

When it comes time for harvest, will your picker be ready?

There's a proven way to make sure your picker is operating at top efficiency when you need it most: have it inspected now by our experienced service team.

Our certified technicians will thoroughly check every critical area of your machine. Using genuine John Deere parts, we'll bring your cotton picker row units back to exact factory specifications so they'll harvest at optimum efficiency. Schedule an appointment with us today.

Don't risk your harvest by settling for anything less.

Harsh conditions?

Pick PRO-XL™ Spindles.

Stay productive with the highest quality, precision-manufactured spindles on the market—**PRO-XL**.

PRO-XL spindles feature ...

- Heavy chrome plating for extended wear life (up to 50 percent longer than conventional spindles)
- Three sets of 12 barbs for efficient picking
- Precision-cut barbs angled at 55 degrees to ensure clean, aggressive picking and easy doffing

PRO-XL spindles are specially designed for the increased picking speed of **John Deere PRO-SERIES™** Cotton Pickers, but are also adaptable to older pickers.

Talk to us about **PRO-XL spindles** today.

Doffers, Doffer Parts, and Doffer Assemblies

John Deere urethane doffers greatly reduce contamination and offer increased wear life. They're specially designed for balanced, smooth operation—even at high speeds. Our doffers are precision engineered to reduce the need for grinding or shiming and are heat- and oil-resistant. Save time with ready-to-install doffer assemblies straight from the factory!

NUMBER	DESCRIPTION	MODEL	LIST	NOW
AN272152	Urethane doffer	All John Deere Cotton Pickers, non-hollow core shaft	\$ 12.94	\$ 11.89

Moistener Pads

These specially designed pads feature an X pattern to ensure proper moisture distribution on picking spindles operating in all types of conditions. Precise fins provide an even flow of cleaner from the pad to the spindle, ensuring optimum picking performance. Pads are made of long-lasting urethane. A tight fit keeps debris from plugging the moistener system or tearing the pad off during harvest.

NUMBER	DESCRIPTION	LIST	NOW
N275607	Urethane moistener pad	\$2.72	\$2.49

Air Duct Hoses

These stout hoses can handle high air-vacuum requirements. Our quality air duct hose is made from urethane, which is extremely puncture resistant and unpalatable to rodents. Designed with a special, new, reinforcing wire, the hose has improved rigidity for reduced risk of collapse and easier clamping at joints. Bulk hose is available in 25-foot sections.

Essential lubricants

John Deere Spindle Cleaner and Grease boost your harvesting performance and reduce your operating and maintenance costs.

■ Spindle Cleaner

Spindle Cleaner protects your cotton picker's mechanical parts from rust, oxidation, and corrosion—yet it won't wash spindle grease off bushings and attachments.

■ Spindle Grease

John Deere Spindle Grease is an all-in-one, lithium-based lubricating grease, gear lubricant, penetrating oil, and corrosion protector. It reduces the amount of wear from metal-to-metal contact in your picker head, and it extends the service life of high-wear parts.

Call us today to learn more.

Two-celled Hilldrop Cotton Seed Disk

Reduce seed input costs with the Two-celled Hilldrop Cotton Seed Disk. This disk places two seeds per hill instead of four. For use with John Deere vacuum seed meters.

NUMBER	DESCRIPTION	LIST	NOW
AA58507	Two-celled Hilldrop Cotton Seed Disk*	\$136.04	\$125.19

*Kit includes two disks.

RMB Roller Belt Brush Kit

When harvesting cotton in humid or wet conditions, the power rotary brush eliminates cotton buildup on round module builder belts. This increases uptime by extending RMB belt life and boosts machine performance with perfectly formed bales.

NUMBER	MODEL
BKK10319	7760 and CP690 Cotton Pickers

[See us for pricing.](#)

Vine Cutters

Vine cutters help slice through vines and weeds, preventing them from plugging row units.

NUMBER	DESCRIPTION
BN272178	For two units

[See us for pricing.](#)

Stalklifter Rods

Stalklifter rods allow you to harvest low-hanging bolls more easily by improving the row unit's lifting action.

NUMBER	DESCRIPTION
BN272534	For one unit, not for VRS

[See us for pricing.](#)

John Deere Harvest Identification, Cotton

Manual tagging and reconciling modules at the gin is now a thing of the past. Using the RFID reader on board the 7760 Cotton Picker, this system reads the serial numbers embedded on the module wrap and documents data points. This improves traceability of modules as they move from the field to the gin lot and through the ginning process.

Picky Picky Picky

That's what the John Deere difference is all about.

We've designed reliability into each and every part, whether it's on the original equipment or a service part. Precision manufacturing and rigorous testing allow us to develop the best products and parts on the market. We use only the best materials available. Each part on your John Deere cotton stripper is precisely designed and manufactured for a matched fit to ensure optimum machine performance.

You work hard every day and need to be able to depend upon your machinery to do the jobs they were created for.

The John Deere difference means quality and reliability you can depend on, season after season.

Doffer Assembly

AN221390	12-brush doffer, long-life
AN405209	12-brush doffer (CS690)
High-speed parts:	
AN220946	Doffer pulley (7455 and 7460)
N221269	Main drive belt (all models except CS690)
N33746	Feeder shaft belt
N117398	Trash auger drive belt (all models except CS690)
N115368	Trash Auger Belt (CS690)
AKK14894	Main drive belt (CS690)

[See us for pricing.](#)

Bats and Brushes

Worn bats and brushes leave more cotton in the field and less in your module. To ensure peak harvesting efficiency, you'll want to monitor their condition and replace worn components. John Deere Cotton Stripper bats and brushes are manufactured from the highest quality raw materials. Their steel channels are electro-galvanized to prevent rust. Finally, products are thoroughly inspected to ensure quality.

[See us for selection and pricing.](#)

Saw Blades

Robust tooth profile for rugged performance, plus a consistent tooth profile and spacing for even cleaning action. Heat-treated for excellent tooth rigidity and long life.

NUMBER	DESCRIPTION
Burr-extractor saw segments:	
N221590	Regular tooth
PMF969534	Regular tooth
PMBCS705	Deep tooth
Complete saw drum assembly:	
AN220732	Saw drum assembly

GT-5300 Grain Moisture Tester

The GT-5300 provides all the benefits of our MoistureMatch Grain Moisture Tester (SW20300) and more. Featuring cutting-edge technology, the GT-5300:

- Automatically averages a selectable number of tests
- Provides the actual moisture-limit percentage
- Stores user calibration and averages for each grain
- Offers a larger, illuminated LCD display, and much more!

NUMBER	DESCRIPTION	LIST	NOW
SW5300	Grain Moisture Tester	\$316.45	\$284.81

GT-30300 Grain Moisture Tester

New—Hot grain capabilities up to 160°F

The GT-30300 Grain Moisture Tester really measures up. Featuring the latest technology, the SW30300:

- Provides temperature range between 40°–160°F
- Measures moisture and test weight (no pre-weighing)
- Provides moisture range between 6%–45%
- Tests 16 grains (program space for over 40 grains)
- Connects to diagnostics via USB
- Features large back-lit LCD screen and fonts
- Repeatability and accuracy $\pm 0.2\%$ in normal moisture range
- Comes with 2-year limited warranty

NUMBER	DESCRIPTION	LIST	NOW
SW30300	GT-30300 Grain Moisture Tester	\$533.79	\$480.41

Combine Moisture Sensor Kits

Monitor grain moisture content as you harvest, without the need to stop and sample the crop with Combine Moisture Sensor kits. Easily mounted in the grain tank, moisture sensors transmit results directly to the GreenStar™ display in your cab, allowing you to determine when conditions are unsuitable for combining and whether the crop will need additional drying.

Not one. Not two. But THREE.

A trio of Stalk Roll Solutions from John Deere
Regardless of harvesting conditions or residue processing needs,
John Deere has the right Stalk Roll solution for your 600 Series
Corn Head. Our three uniquely engineered options include:

- 1 Straight Fluted Stalk Rolls**
for slow residue breakdown
- 2 Opposed Knife Rolls**
for moderate stalk processing
- 3 Intermeshing Knife Rolls**
for aggressive stalk processing

To learn more about Stalk Roll Solutions, call or stop by today!

Litening Bolt™ Sectionalized Knives

Unlike long cutterbars, our sectionalized knives are easy to transport in the bed of your truck. Plus, splice and joint kits allow for lightning-fast assembly and an extra-strong hold; no drilling required. Available for 3-inch and 4-inch knife drive systems.

200, 900, 900F, and 900R Sectionalized Knives

Replacing worn belts makes good dollars and sense

You can see from the diagrams below that many combine components rely on belts to perform their functions. When you maximize the power a belt provides, you increase your machine's productivity. Which is why replacing worn belts is so critical.

If worn belts are not identified and replaced in time, feeding, threshing, and separating performance can be affected. For example, when cylinder speed increases to compensate for worn components, it can cause incomplete threshing or grain damage. Ultimately, worn belts can lead to equipment failure, downtime, and expensive repairs.

See us for the right belts for your machine.

Good belt drive maintenance involves:

- Removing old belts, inspecting all components for wear and damage
- Installing new John Deere Original Equipment Manufacturer (OEM) belts. Our combine engineers test and select belts for maximum performance. (Be sure to replace with the correct length, material, and pitch angle)
- Checking belts for proper alignment and tension
- Replacing all multiple-belt-drive belts at the same time with a John Deere OEM set

- (1) Feederhouse
- (2) Header and reel pump
- (3) Uploading auger system
- (4) Variable rotor drive
- (5) Countershaft, discharge beater, and chopper
- (6) Straw chopper
- (7) Discharge beater

- (8) Alternator
- (9) Engine fan
- (10) Rotary screen drive (engine side)
- (11) Rotary screen drive (screen side)
- (12) Clean grain elevator
- (13) RH jackshaft (rear)
- (14) RH jackshaft (front)

- (15) Tailings auger and elevator
- (16) Cleaning fan
- (17) Shoe, fan jackshaft, and conveyor augers
- (18) Feed accelerator
- (19) Overshot beater
- (20) Tailings rethresher
- (21) Vacuum fan drive

Exclusive Nutrient Knife has *replaceable points* for easy customization

Cut down on the time and labor costs associated with replacing nutrient knives. With John Deere's exclusive, patented knife series, replacement or removal is as simple as removing a roll pin.

With superior wear protection against demanding conditions, the Nutrient Knives soil-shattering surfaces and parting fins lift and fracture without actual soil inversion and blowout.

Heavy-duty Nutrient Applicator Knives

- Provides consistent nutrient placement along with superior compaction shattering
- Cast-chrome, pin-on point provides excellent lifting and fracturing without soil inversion or blowout
- Exclusive 5/8-in. x 23-in. tall size for improved trash flow and greater durability

Earth-shattering performance!

LaserRip™ II Ripper Points

Lifts: Lifts and opens soil for improved root penetration and water percolation

Fractures: Fractures every soil type efficiently and effectively, potentially improving yield

1 Wingless LaserRip™ II

Part Number: N400763

Application: Deere

Fits: 1¼-in. Parabolic Standard
NOW **\$90.22**

Part Number: N401043

Application: CNH/DMI/Brillion

Fits: 1¼-in. Parabolic Standard
NOW **\$90.22**

2 5" LaserRip™ II

Part Number: N400764

Application: Deere

Fits: 1¼-in. Parabolic Standard
NOW **\$96.29**

3 7" LaserRip™ II

Part Number: N400765

Application: Deere

Fits: 1¼-in. Parabolic Standard
NOW **\$113.67**

Part Number: N401044

Application: CNH/DMI/Brillion

Fits: 1¼-in. Parabolic Standard
NOW **\$106.42**

4 10" LaserRip™ II

Part Number: N400766

Application: Deere

Fits: 1¼-in. Parabolic Standard
NOW **\$149.81**

5 2 3/4" LaserRip

Part Number: N237223

Application: Sunflower

Fits: 1 1/4-in. Parabolic
Standard

NOW \$81.11

Part Number: N236412

Application: DMI

Fits: 1 1/2-in. Parabolic
Standard

NOW \$81.11

6 7" LaserRip

Part Number: N237224

Application: Sunflower

Fits: 1 1/4-in. Parabolic
Standard

NOW \$99.33

Part Number: N400739

Applications: DMI

Fits: 1 1/2-in. Parabolic
Standard

NOW \$99.33

7 10" LaserRip

Part Number: N400740

Applications: DMI

Fits: 1 1/2-in. Parabolic
Standard

NOW \$142.69

**John Deere LaserRip™ II
Ripper Points aggressively
shatter the earth,
providing maximum
yield potential.**

Coverboards

- For use with LaserRip points on 1 1/4-in. and 1 1/2-in. paraboloc standards: John Deere, Case, and DMI
- Move more soil and bury residue
- Fits John Deere 2700 Mulch Ripper and 2730 Combination Ripper
- Not for use with wear shins

NUMBER	SIZE	LIST	NOW
N262718	4-in.	\$30.24	\$27.19
N262719	6-in.	\$39.24	\$35.29
N262720	8-in.	\$42.91	\$38.59

Min-Till Ripper Points

- Wingless points provide ultra-low surface-soil disturbance
- Choose 7-in. points for moderate soil disturbance
- 10-in. points deliver low surface-soil disturbance
- Fits John Deere 913 and 915 Rippers and 2100 Min-Till Ripper

NUMBER	WING WIDTH	LIST	NOW
John Deere LaserRip min-till 3/4-in. straight standard (ultra-low-to-moderate soil disturbance):			
N262903	Wingless	\$118.24	\$106.39
N262740	7 in.	\$129.51	\$116.59
N262902	10 in.	\$163.28	\$146.99

Steel Ripper Points

- Designed for highly abrasive soils
- An economical way to meet standard tillage needs
- Fits common Integral Min-Till V-Rippers and Disk Rippers

NUMBER	SIZE	THICKNESS/TYPE	LIST	NOW
Regular-Duty Steel Ripper Points – 3/4-in. thickness				
AA21507	2 1/4-in. x 3/4-in.	3/4-in. – Standard	\$27.00	\$24.29
AN260481	3-in. x 3/4-in.	3/4-in. Single Capped (3 3/4-in.)	\$40.19	\$36.19
AN260482	3-in. x 3/4-in.	3/4-in. Double Capped (7 1/2-in.)	\$56.10	\$50.49

AP39496	3-in. x 1 1/4-in.	1/4-in. Single Chrome Capped (3 3/4-in.)	\$57.54	\$51.79
AP39491	3-in. x 1 1/4-in.	1 1/4-in. Full; Cover Chrome Capped (10-in.)	\$72.67	\$65.39

Chisel Points

High-carbon steel for long life and superior performance. Retains original shape and stays sharp even after considerable use. Heavy-duty chisel points have reversible spikes with upset points for increased wear and longer life. Chrome chisel points have a chrome exterior for increased wear and longer life—so they can handle abrasive soils with ease.

NUMBER	SIZE	THICKNESS	LIST	NOW
Chisel Points for Heel Sweeps, Double Point				
N130189	2-in. x 14-in.	5/8-in.	\$17.42	\$15.69

Improve Plant Health with spot-on coverage from every angle

Pre- and Post-Emerge Fertilizer

Wide Angle, Drift Reducing

High-Flow

- Wide 140-degree, extremely coarse, fan spray pattern maximizes uniformity and consistency on wide or narrow spacing for pre-plant.

NOW \$9.06/ea.

Six Stream

Straight Stream Ceramic

- Six streams evenly distribute fertilizer
- Reduced atomization limits leaf burn/scorching

NOW \$7.33/ea.

Pre- and Post-Emerge Herbicide

Drift Reducing, Dual Air Induction

Ultra Low-drift

- Patented venturi technology creates air-filled droplets in a unique, thick pattern to greatly reduce drift.

NOW \$7.56/ea.

Post-Emerge Plant Health

Twin Enhanced Coverage, Air Induction

Guardian™ Air Twin

- Ideal for high-coverage application of post-emerge plant health protectants

NOW \$7.56/ea.

Enhanced Coverage

Guardian™

- Good for application of post-emerge plant health protectants

NOW \$5.26/ea.

Enhanced Coverage, Air Induction

Low-drift Air

- Ideal for on-target application of post-emerge plant health protectants

NOW \$6.87/ea.

Targeted spraying yields greater Plant Health

Herbicide resistance is a big issue these days. And while we can't help you make decisions about chemicals or farm practices, we can offer you nozzles engineered for pinpoint accuracy thanks to Technozzlegy. So when you spray, you reach the exact part of the plant you're aiming for—minimizing weeds, insects and fungus while maximizing nutrients.

Let us help you take the guesswork out of nozzle selection. Just log on to our site, input a few specifics about your particular application, and the best nozzle for the job displays. Make your purchase with just a few more clicks.

JohnDeere.com/nozzleselector
JohnDeere.com/technozzlegy

It's time to lower the boom on old, worn-out poly.

With an **Express Boom Assembly** kit from John Deere, you can **replace warped poly booms** with durable stainless steel, or **change nozzle spacing** as desired to maximize your sprayer performance for years to come. But that's not all. Other features and benefits include:

- **Stainless Steel Pipes**
Promote even spray patterns and minimize cross contamination.
- **5-Way High-flow Nozzle Body**
Deliver the highest flow rates and support faster field speeds.
- **Express Nozzle Body End Cap**
Reduce risk of residue buildup and eliminate trapped air.

Customize whole boom sections easily—and economically—on sprayer models **4630, 4700, 4710, 4720, 4730, 4830, 4920, 4930, and 4940.**

Winterizer Fluid

- John Deere exclusive...specifically formulated to protect the entire wet system of a sprayer
- Special lubricant additive protects critical, high-value sprayer components (pumps, valves, seals, and other replacement parts) from dry storage corrosion and deterioration
- Protects sprayer down to -54°F
- Won't plug nozzles and screens

NUMBER	DESCRIPTION
N305634	Sprayer winterizer – 2 1/2 gal.
TY26555	Sprayer winterizer – 55 gal.

See us for pricing.

Protect your crops and equipment

Get superior cleaning power with leading Spray System Cleaners

A lot has changed in the past decade. Bigger sprayers, more powerful crop protection products, and increased tank mixing can lead to cross contamination and reduced yields when sprayers aren't cleaned properly.

Ordinary tank cleaners were never designed to remove oily residues that can build up throughout the entire liquid system of a sprayer. Erase™ is a powerful spray system cleaner that exceeds the capabilities of ordinary tank cleaners. Erase emulsifies oily residues in tanks, sprayer lines, and hoses while elevating rinsate pH to degrade vulnerable crop protection products. Combined with good sprayer cleaning technique, Erase virtually eliminates the risk of cross-contamination that leads to crop injury complaints, yield loss, and a damaged reputation as a professional applicator.

Erase

Powerful spray system cleaner that penetrates and removes dried-on and oily residue in tanks, sprayer lines, and hoses to help prevent cross contamination.

NUMBER	DESCRIPTION	SIZE	LIST	NOW
PM433QT	Erase Spray System Cleaner	1 qt.	\$16.71	\$14.99

Incide-Out™

Liquid spray tank cleaner that emulsifies and bonds pesticide residue to rinse water for complete purging.

NUMBER	DESCRIPTION	SIZE	LIST	NOW
PM434QT	Incide-Out Spray Tank Cleaner	1 qt.	\$17.00	\$15.29

Enduron PSI™

Formulated marking foam that generates greater volumes of foam for higher operating pressures and application speeds.

NUMBER	DESCRIPTION	SIZE	LIST	NOW
PM65201	Enduron PSI	1 gal.	\$48.00	\$43.19

Tracer™ Hot Pink

Marking foam colorant that increases foam visibility in drilled crops and heavy residue situations where optical clarity of white foam is limited.

NUMBER	DESCRIPTION	SIZE	LIST	NOW
PM741QT	Tracer Hot Pink	1 qt.	\$50.43	\$45.39

Gundown Max™

Defoaming agent that works in seconds to provide faster results.

NUMBER	DESCRIPTION	SIZE	LIST	NOW
PM737QT	Gundown Max	1 qt.	\$28.00	\$25.19

+ Add more performance and precision with John Deere Sprayer attachments

Boom Cleanout

Amber Rotating Beacon Light

Direct Injection

BoomTrac Pro

Fence Row Nozzle Kit

Wheel Motor Shields

Crop Shields

1 Boom Cleanout

Mount this attachment on the ends of each boom section, then open to flush the system and avoid any clogging due to residue buildup.

Applications: 4630, 4700, 4710, 4720, 4730, 4830, 4920, 4930, and 4940 Sprayers

2 Amber Rotating Beacon Light

Add more visibility with these high-intensity lights, so you can stay productive longer.

Applications: 4630, 4730, 4830, 4940, R4023, R4030, R4038, and R4045

3 Direct Injection

Accurately inject chemicals into the carrier flow without having to mix them in the solution tank. No more rinsing the tank in between chemicals either.

Applications: 4940, R4030, R4038, and R4045 Sprayers

4 BoomTrac Pro™

Increase application accuracy and minimize spray drift and skips with the help of this boom height-sensing software that responds to ground contour changes. Five-sensor system recommended for 120-foot (36.6 m) boom or severe applications. Three-sensor system is for relatively flat to gently rolling terrain.

Applications: 4630, 4730, 4830, 4920, 4930, 4940, R4030, R4038, and R4045 Sprayers

5 Fence Row Nozzle Kit

Add more spray coverage along fencerows. With the XT nozzle, you can cover an additional 16.5 ft. (5.0292 m). It's as easy as flipping a switch in the cab. Spray nozzles sold separately.

Applications: 4630, 4700, 4710, 4720, 4730, 4830, 4930, 4940, R4023, R4030, R4038, and R40458 Sprayers

6 Wheel Motor Shields

These shields help keep the crop and mud away from the inside of the wheel motor for easier cleaning and added protection from field debris.

Applications: 4720, 4730, 4830, 4920, and 4930 Sprayers

7 Crop Shields

Strong, durable, polyethylene wheel shields are available for 320, 380, and 420 tires to help prevent damage to crops.

Applications: 4630, 4710, 4720, 4730, 4830, 4920, 4930, 4940, R4023, R4030, R4038, and R4045 Sprayers

See us today for a complete listing of sprayer attachments

Nothing Like Doing It Yourself

When your equipment is in top condition, putting it to use can be a pleasure. John Deere Home Maintenance Kits contain almost everything you need to tune up your machine in one convenient package. Available for most John Deere lawn tractors. Also compatible with other manufacturers' equipment with compatible engines. See your owner's manual for suggested routine maintenance.

Find your Home Maintenance Kit at
JohnDeere.com/HMK and order online at JDParts.com

Tune Up and Head Out

No need to take your machine to the shop for a tune-up. Our Home Maintenance Kits make it easy to tune up your lawn tractor or Gator™ by providing almost everything you need in one convenient package:

- 2 quarts oil
- 1 oil filter
- 1 air filter
- 1 fuel filter
- Air precleaner
- Spark plugs

Check out some of our kits below, and if you don't see your machine listed, don't worry. There are many other kits available. See us to get the appropriate kit for your machine.

MulchControl™

Improve performance, increase uptime, and reduce operating costs with our new, innovative MulchControl attachment. Compatible with High Capacity and Accel Deep™ mower decks for Signature Series tractors, EZtrak™, and Residential ZTrak™ mowers, this attachment does an excellent job of mulching and is easily converted to side discharge or bagging in just a few seconds with the use of a lever conveniently located on the mower deck.

The MulchControl attachment makes mulching a more desirable and practical option, so you can benefit from the advantages of mulching, including:

- A beautiful lawn
- Tidy grass clippings that aren't blown onto the operator, driveways, or flower beds
- Less fertilizer use
- No need to dispose of clippings

Take control of your clippings with MulchControl from John Deere.

NUMBER	DESCRIPTION	LIST	NOW
BM26300	Model Year 2015 and later X700 Series 54-in. HC Mower Deck (SN 30,001-), EZtrak Z625, Z655 (SN 170,001-), and Residential ZTrak Z535R, and Z540R	\$235.40	\$211.86

John Deere Fuel-Protect Gasoline Stabilizer

Blended fuel attracts water from the air, which causes corrosion to fuel tanks, fuel lines, carburetors, and injectors. John Deere Fuel-Protect contains double the corrosion preventer to help fight these damaging effects. Pumped gasoline starts to degrade immediately causing varnish deposits to build in engines. This results in starting problems, poor performance, and reduced engine life. Adding John Deere Fuel-Protect keeps fuel fresh for 12 months, more than doubling the storage life of fresh gasoline. John Deere Fuel-Protect also eliminates the need to drain fuel prior to storage.

NUMBER	DESCRIPTION	LIST
TY27534	Fuel-Protect for gasoline, 8 oz.	\$ 4.49
TY27535	Fuel-Protect for gasoline, 32 oz.	\$12.99

Spinner Knobs

Perfect for most off-road steering wheels. High-quality knobs feature comfortable vinyl coating, heavy-duty construction, and a John Deere logo.

Why Buy a John Deere Safe?

When it comes to the sale of the best in heavy-duty security and fire protection, there's nothing like buying a sturdy steel John Deere safe. We offer many different home security safe models and colors.

Our Sales Guarantee:

Buy a John Deere safe, and we promise to back it up by offering a lifetime warranty that is unmatched in the home safe industry. If your safe ever experiences an attempted break-in or a fire, we'll repair or replace your safe for FREE. And, that's for as long as you own your gun safe. Our guarantee is transferable! Now that's peace of mind.

John Deere Economy Safe

John Deere economy fire and security safes pack more than the average safe out in the market today.

- 62,000 BTU fire rating
- 30 minutes at 1,200–1,400 degrees Fahrenheit
- Patented 3-in-1 flex interior
- 25 long-gun capacity

EM25-GTT

\$1,099.00

Introducing the new John Deere Biometric Safes

Safely secure your valuables or handgun in the new John Deere Biometric Safes. The JDX smart safes allow for quick and secure access with only a swipe of your finger. This is the most reliable biometric entry system available, with supreme accuracy and the lowest fail rate on the market. Speed counts! Entry using the Biometric swipe can be obtained in only seconds.

Speed and Security when you need it most. Don't settle when protecting your family... **trust the best, trust a John Deere Biometric Safe!** Made in the USA.

John Deere JDX-150 Biometric Safe

The JDX-150 has been designed to safely store your firearm until you need it. The heavy-duty 14-gauge steel vault has a reinforced latch specifically designed to resist prying attacks. The JDX-150 is designed to be portable, easily fits in an automobile, and includes a security cable.

- The most reliable BIOMETRIC system available
- Quick and secure finger swipe access
- 15-fingerprint memory
- Lighted interior
- Fits most all handguns
- Weighs 9.5 lbs.
- Ext. dimensions: 12.5" x 8.75" x 2.25"

JDX-150

\$229.00

John Deere JDX-250 Biometric Safe

The JDX-250 is the larger of the two John Deere biometric safes. Designed similarly to the JDX-150 with the same 14-gauge body and anti pry tabs. The JDX-250 has an auto-opening door—just swipe your finger and the door opens.

- The most reliable BIOMETRIC system available
- Quick and secure finger swipe access
- 15-fingerprint memory
- Lighted interior
- Fits most all handguns
- Weighs 15.5 lbs.
- Ext. dimensions: 12.5" x 11.5" x 7"

JDX-250

\$269.00

All John Deere Biometric Safes are made in the USA and have a 5-Year replacement warranty on any defects.

Air Compressors

Single- and Two-Stage Air Compressors

You've got that power with a John Deere air compressor. Blast away dirt. Power air tools. Fix that flat.

Absorbents

The absorbent mats will handle everything that may leak, drip or spill on any shop floor. Save time and money by eliminating the need to mop or sweep up spills, plus these mats are cheaper to use than old fashioned floor dry/kitty litter.

Features

- Absorbs oil, water, grease, transmission fluids, hydraulic fluids, antifreeze/coolants, and many other fluids
- For use in general maintenance, around hose machines, and wherever fluids may leak or spill
- Works great in fields dealing with leaks, drips or spills
- Made with 80% recycled cellulose fibers to create superior absorbency
- More cost effective than oil-based polypropylene sorbent mats
- Class A fire retardant (lab tested per ASTM E84)

NUMBER	DESCRIPTION	LIST
ABS2860	15 x 19-in. sheet size, 100 count/case	\$39.99

*Heavy-duty Mini Speakers (shown) sold separately.

Designed to be one of the most rugged stereos in the industry, this heavy-duty radio delivers high-quality audio while withstanding some of the harshest working conditions.

A AM/FM/WB/iPod®/iPhone®/ SiriusXM™ Heavy-Duty Radio

SWJHD1630

\$255.40 **\$229.86**

B Boldly go where no radio has gone before.

The weatherproof Jensen 905 Radio brings news, weather, and your MP3 to Gators, skid steers, and open-station tractors. You get a NOAA weather band with weather alert, AM/FM radio, and an input to play an iPod, MP3 player, or portable CD player.

B Mini 905 Radio

SWJHD905

*Heavy-Duty Mini Speakers (SWJXHD35) sold separately

\$199.99 **\$179.99**

The SWJHD1365BT stereo is built tough for demanding environments while featuring the latest technological advancements. This radio features Bluetooth streaming audio (microphone included) with hands-free calling, giving you a truly hands-free experience. The iPod/iPhone capabilities can be taken advantage of via the USB so you can take your personal music library with you. Plus, the stereo is also SiriusXM-ready, offering you endless entertainment options.

C AM/FM/WB/iPod- & iPhone-ready/SiriusXM/ Bluetooth Stereo

SWJHD1635BT

\$289.99 **\$260.99**

We made the cab quiet. Now give your ears something to listen to.

If your cab radio is dead, dying, or just plain dysfunctional, consider an audio upgrade. Tune in to local news, weather, and sports, or bring your own audio stimulation via CD or MP3. Satellite news and music are also an option.

D AM/FM/WB Heavy-Duty Radio

SWJHD1130

Pulls in AM/FM and weather-band signals. This new Heavy-Duty radio has a full 7-channel NOAA weatherband tuner and tells the time with the new segmented high visibility display. It also comes with Front Aux in capabilities and is equipped with a two-wire hookup which prevents battery drain when vehicle is off.

\$171.62 **\$154.46**

E AM/FM/WB/CD/USB/Bluetooth®/iPhone/ iPod/SiriusXM Stereo

SWJHD3630MIC

In today's modern heavy-duty market, having a radio built to survive the tough stuff doesn't mean that it has to sacrifice in-demand entertainment options. The SWJHD3630MIC features the ability to receive Bluetooth streaming audio and phone calls from a Bluetooth-enabled mobile phone, giving you a truly hands-free experience. The microphone required for hands-free calling comes standard with the radio. This state-of-the-art heavy-duty stereo also has NOAA 7-channel Weatherband tuner with S.A.M.E technology to focus on a more specific region, giving you more accurate weather updates along with being iPod- and SiriusXM radio-ready.

\$349.56 **\$314.60**

Digital Wireless BarnView Surveillance System

Farmers, property owners, and business owners know that the proper security system is a valuable asset. Help protect your animals, equipment, and facilities from harm or theft with the new BarnView Wireless Surveillance System (SWBARNVIEWXT). BarnView System features include:

- 7" portable quad-view touch screen LCD monitor
- Use up to four cameras (one included)
- Monitor up to four areas in real time all at once via your smartphone, tablet, or included monitor
- Wireless Range Extender included for optimal monitor placement (Ethernet cable included)
- Excellent night vision
- Up to 1000 ft. viewing range (distance depending on location of camera, monitor, and antennas)
- Built-in DVR and email alert with motion detection
- Zoom capabilities with monitor

NUMBER	DESCRIPTION	LIST	NOW
SWBARNVIEWXT	Wireless Surveillance System (Monitor and one Camera)	\$499.95	\$449.96
SWBRNVIEWCAM	Camera	\$179.49	\$161.54

ToughCam Digital Wireless Observation System

It's not X-Ray vision—but it's the next best thing.

This one-camera digital observation system far exceeds the performance of any other analog system on the market. It features a WiSight signal so strong that it easily transmits through and around objects up to 60 feet away—with no interference.

Other benefits:

- Delivers a sharp, vivid picture with the 5.6-in. color LCD monitor
- Suction cup mount and 12-volt DC power plug for the monitor make this system easily portable among vehicles
- Wireless for easy and convenient setup

Applications:

- Tractors and round balers
- Sprayers
- Trucks and trailers
- Recreational vehicles
- Industrial
- Marine

NUMBER	LIST	NOW
SWWVOS5MDCL1	\$599.99	\$539.99

Heavy-Duty T-Hook

This heavy-duty 3/8-in. T-hook is specifically designed to fit the T-hook slot on many large vehicles and equipment. It's used to tie down equipment for transportation, and with a 6600-lb. working load limit (WLL) it can be used with both G70 and G80 tow chain and load binders.

NUMBER	DESCRIPTION	LIST
TY27289	T-hook, 3/8", 6600-lb. WLL	\$18.99

Weld-on Hook

This weld-on hook is specifically designed for pulling, towing, or dragging heavy objects, with a working load limit (WLL) of 6600 lbs. The designed use is for chain, but it can be used with rope or a tow strap. The hook is rated for Grade 70 chain, 5/16 in. or 3/8 in.

NUMBER	DESCRIPTION	LIST
TY27338	Weld-on Grabhook 3/8G70 6600-lb. WLL	\$4.71

Working Load Limit is based off the hook being properly welded. The hook is not to be used for overhead lifting or to exceed the capacity of the bucket or equipment being used.

Halogen Light Assemblies and Replacement Lights

These 12- and 24-volt, 50-watt lights are specifically designed for heavy-duty, off-highway applications.

Features and benefits:

- 50-percent more light compared to standard incandescent lights
- 50-percent longer bulb life compared to standard incandescent lights
- Sealed-beam construction
- Easy-to-adjust swivel base
- Built to withstand shock and vibration
