

Unverferth® *Fertilizer Application*

SpreadPro Dry Fertilizer Spreader

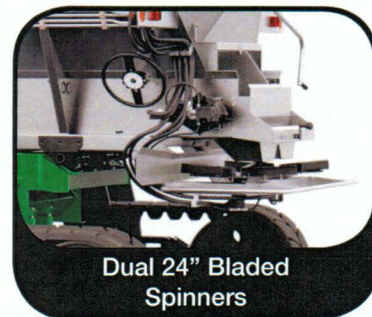

Connecting Precision With a Tradition of Quality

With a rich history of manufacturing material handling equipment such as grain wagons, grain carts, augers, conveyors, seed tenders and liquid fertilizer applicators, Unverferth Mfg. expands its lineup to include the SpreadPro fertilizer spreader. The SpreadPro spreader is built from the ground up for precise application of dry fertilizer and lime with the end user in mind. And, they are backed with the service and parts necessary to keep you running all season long.

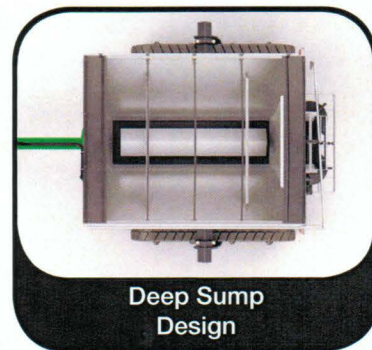

SpreadPro 11', 13' & 15' Models

Spreader

- Available in single-compartment models with struck cubic-foot capacities of 350 on the 15' unit, 300 for the 13' and 250 for the 11' lengths, and models with 85 cu. ft. or 125 cu. ft. split compartments for handling two products
- Up to a 90° spread pattern with two 24" bladed spinners with tapered blades for precise application
- 30" wide belt over chain with standard chain oiler and oversized sprockets and gears for long life
- Dual compartment models feature tool-free adjustable feed gate compartments for easily adjusting the metering of the two materials
- Steep-sloped 304 stainless-steel hopper construction for maximum corrosion resistance with sump-style design for complete cleanout
- Raven ISO rate control for single or dual product spreading, including on-the-go rate variability
- Bin level sensors with ISO integration to easily monitor contents
- Hydraulic driven motors with dual input gear reduction efficiently power the conveyor
- Wheel-operated metering door for greater spreading accuracy and control
- Vertical flow divider features tool-free removal and provides an equal spread pattern on hillsides

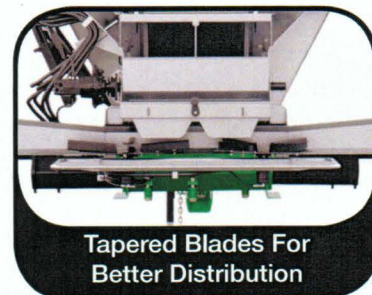

Dual 24" Bladed Spinners

Deep Sump Design

Pull-Type Undercarriage

- Pair your SpreadPro fertilizer spreader with the heavy-duty pull-type undercarriage constructed with 6" x 8" steel tubing in choice of powder-coated red or green, or with your own truck body or self-propelled chassis
- Adjustable-width axle design with undercarriage choices of singles, duals or the patented Equalizer® track with fore and aft and cambering action for greater ground contact over rough terrain.
- Patent-pending folding ladder permits easy verification of contents
- Color-coded and labeled hydraulic hoses with storage bracket provide easy tractor attachment
- Transport safety is enhanced with standard LED lighting package and transport chain

Tapered Blades For Better Distribution

Accessories

- Scale package with ISO-integration for on-the-go rate calibration and quickly verifying the amount loaded and material used
- Weatherguard roll-tarp with 18 oz. canvas keeps contents dry when you're out in the field

Exclusive Track For High Flotation
